DESCRIPTIONS

Superb—the finest condition for noteworthy, outstanding copies.

Very Fine (VF)—means that there is a slight deviation from the above.

Fine (F)—means that the perforations do not touch the design on issues after 1890, but in some cases may just touch in earlier issues; if used, fairly lightly cancelled.

Very Good (VG)—means that the appearance is generally fine but that the perforations cut the design slightly.

Good (G)—means average off-centering; or fairly attractive with slight defects. Original gum is not to be expected on 19th Century stamps up to 1888 unless so stated.

Scott's 1947 Specialized United States Catalogue is used for cataloging our lots of United States and Scott's Standard Catalogue, 1947, Vol. II and 1948, Vol. I.

**"THE 19th CENTURY POSTAGE STAMPS
OF THE UNITED STATES"**

By Lester G. Brookman

Volume I covers all stamps from 1847 to 1869 while Volume II starts with the 1869 stamps and runs thru the Trans-Mississippi set to complete the 19th Century.

This is acknowledged as the most thorough and complete work ever written on these stamps. It is contained in over 600 pages that are wonderfully illustrated with over 600 reproductions that show every stamp and every type of each issue in great detail.

Set of two volumes, finely bound in cloth, \$10.00 postpaid. Autographed if desired.

... IT WAS ALREADY THE END OF AN ERA

LAST DAY OF VALID USE FOR THE 1847 ISSUE: 5¢ Benjamin Franklin stamp pays under-300 mile rate to Wilmington, Del.; blue "PHILADELPHIA/JUN 30 (1851)/PA." circular datestamp; matching 7-bar enclosed circular grid ties adhesive.

EPILOGUE

We have seen that the 1847 issue went everywhere; did everything; was carried by every means of available transportation; and received every service that stampless mail did. Our hypothesis, therefore, was correct: when reviewed after the fact, the actual usage pattern of the 1847 issue shows there was no reason why adhesive-stamped letters could not replace the stampless system.

Significantly, when the Postal Service introduced the next issue of postage stamps on July 1, 1851, additional denominations were included. These allowed the public to use adhesive stamps also for drop letters and circulars, and facilitated the exact payment of overseas treaty rates. In addition, a lower preferential rate was given for pre-paid letters (3¢ per ½ oz. for up to 3,000 miles, versus 5¢ for mail not prepaid) and stamps were now distributed to virtually every post office in the country.

This lower rate, and the fact that there was now a full range of adhesive stamps available at virtually every post office in the country (compared to only about 4% availability for the 1847 issue), caused the use of stamps to soar. That set the stage and, in 1856, Congress was able to enact legislation making prepayment of postage - using only adhesive stamps or stamped envelopes - mandatory for all domestic letters.

With that, the final piece of the Great Postal Reform Movement was in place. Stampless letters entered history and the modern era began. Postage rates were significantly lower, service was better, "collect" letters (and, therefore, post office deficits) were eliminated, and communications were enhanced. The key to all of that was the 1847 Issue; although introduced as only another way for the public to pre-pay postage, in the end they did more than that - they showed that stampless mail could be eliminated.
