## VALUATIONS

**Upon request, estimate of value furnished on any lots in this auction.**

## FOREWORD

The sale of the Paul Berner Collection of Western and Territorial Covers presents an extraordinary opportunity for the collector of this material as it is the largest such collection to appear on the auction market in many years. The collection contains a great many rare and unique pieces. It is exceptionally strong in California, Dakota, Montana and Wyoming covers and in Mormon Postal History and Collateral.

Mr. Berner's interest in Postal History extends over many years and he has obtained numerous items from other famous collections including Ferrari, Caspary, Wagner, Darlington, Gibson, Moody, Ackerman, Seybold, Knapp, Krug, Emerson and Barkhausen among others.

Mr. Berner, as a student of the Westward expansion of the United States, has been particularly avid in seeking covers containing letters with historical content. Many contain interesting accounts of the overland migration, cattle drives, battles with the Indians, life at the mines, the Western forts and trading posts, military expeditions, and of other aspects of pioneer life. Many of these letters, because of their content, have been recorded by various Western historical societies.

As an example of the wealth of historical material, the Mormon section contains letters and documents of Brigham Young, letters from a number of the Mormon settlements in the East giving accounts of the persecution of the Mormon people, and the original Inventory of Contents, wagon by wagon, for the Mormon trek to Utah.

The last session of the sale contains a worthwhile general selection of Nineteenth Century covers of the United States from various owners. The sale also contains a desirable Philatelic Library from an estate.
