ESTIMATES

Our sales contain many 19th Century covers and fancy cancellations. We have had many requests to give the estimated cash value on these lots. We are trying to place a fair net valuation on each lot as a guide for bidding when no catalogue value portrays the true value. The chart below will be used, for example E. IV means our estimate cash value on this lot is \$30.00 to \$40.00. Lots may actually realize more or less than these estimates and under no circumstances are these estimates to be considered reserves but merely a guide to bidding.

E. I	up to \$10.00	E. VIII	\$100.00 to \$150.00

PHILATELIC LITERATURE

The following lots comprise a remarkable series of Official Registers as published annually by the Federal Government. Each contains an extensive section on the Post Office Department including a complete listing of Post Offices & Postmasters as well as financial records. Many are still in their original bindings and due to their age the covers are a bit worn. Some have been rebound as noted in the descriptions. These registers offer a wealth of information to the Postal Historian, and are becoming increasingly scarce.
