## FOREWORD

—oOo—

As is usual with our Postal History auctions there is such a wealth of material of extraordinary interest that one hardly knows where to begin in writing about it. However, the Colorado, Kansas and Nebraska covers, together with the Pony Express Covers and Express Company covers between the Rocky Mountains and the rail-heads, which comprise a further portion of the collection of the late Robert W. Baughman, are certainly of outstanding importance. Never before, in our recollection, has such a broad and comprehensive offering in this area been made at one time. After all, it represents more than a generation of careful search for such covers and many of those offered are of the highest order of rarity.

Offered also is the collection of Texas covers formed by Mr. A. T. Seymour, which encompasses Texas as a Republic, as one of the United States, as an Independent Confederate State and as one of the Confederate States. This, too, is an offering of major importance in American Postal History.

Those whose interests lie in the area of stampless covers will find many choice and desirable lots; the same may be said of the 1851 - 1857 "Three Cent" which presents a host of choice, attractive covers, mainly from the Coleman Estate.

Actually, it is difficult to mention any one lot, such as the 2c 1869 bisect cover without doing an injustice to those we do not mention so it is simply best to suggest that you go over the catalogue carefully to be certain you do not overlook the hundreds of interesting and unusual lots we offer.

### ESTIMATES

Our sales offer many covers, cancellations, varieties and other items for which there is no catalogue value or where catalogue value does not reflect the actual value. In order to assist our clients, we are placing a fair net valuation on such lots as a guide to bidders. The chart below will be used. For example, E. IV means that our estimated net value on the lot is \$30.00 to \$40.00. Lots may actually realize more or less than our estimates, which are under no circumstances to be considered reserves but merely a guide to bidding.

## TEXAS COVERS

### THE COLLECTION OF MR. A. T. SEYMOUR

This is a most significant offering in an increasingly popular area of collecting and provides a wonderful opportunity to the student.

While we could have made a number of sub-divisions, for the sake of simplicity we have divided the collection into three basic areas.

#### Texas Republic

#### Texas Statehood

#### Texas as a Confederate State

A few covers used during the 34 days of Independent Confederate Statehood are included in the last area, appropriately described.

Special attention is called to two unique Confederate Provisionals, The "Galveston" 20c rate and the "Hallettsville" adhesive. Catalogue listing was made from these two covers.

## CONDITIONS OF SALE

1. The terms of sale are strictly cash on delivery to the highest bidder unless special arrangements have been made prior to the sale.
2. All bids are per lot as numbered in the catalogue and not per piece, unless otherwise announced by the auctioneer at the time of sale.
3. Any lot, the description of which is incorrect is returnable, but only within three days of receipt. All disputed lots must be returned intact as received and lots containing five or more stamps are not returnable at any time. No lots may be returned by purchasers who have had the opportunity to examine them prior to the sale. No illustrated lots may be returned because of centering, margins or other factors shown in the illustration.
4. Successful bidders, unless they are known to us or supply acceptable references are expected to make payment in full before the lots are delivered. Mail bidders will be notified of the amount of their purchases. We reserve the right in our sole and absolute discretion to demand cash at the time a lot is knocked down to any bidder who has not previously established credit with us or whose account is in arrears. In the event any buyer refuses to pay cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to re-offer the lot immediately for sale to the highest bidder.
5. If the purchase price has not been paid within the time limit, or lots taken up within seven days from date of sale, they may be resold and any losses arising from such sale charged to the defaulter.
6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that any such claim is made within 25 days from date of sale. If claim is not made within this period no lots are returnable for any reason at any time. Naturally, so long as we are notified with the 25 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs.
7. The right is reserved to group two or more lots, also withdraw any lot or lots from the sale, or to act on behalf of the seller.
8. Until paid for in full all lots remain the property of Robert A. Siegel Auction Galleries, Inc.
9. No commission is charged for buying at our sales, but all forwarding charges will be added to the purchase price. Shipment will be made to a post office box only if the buyer has also furnished a street address. All large lots unsuitable for parcel post will be sent by REA Express collect, or, upon request, REA Air Express collect.
10. Upon written application lots may be sent for examination prior to the auction, condition upon being mailed back by registered mail, adequately insured, within 24 hours of receipt. The applicant is completely responsible for all lots sent for examination, and for the insurance of same against mishap, from the time of receipt until they are actually received back, and is to pay all expenses of postage and insurance. No lots can be sent for inspection within ten days of the date of sale.
11. The placing of a bid shall constitute acceptance of the forgoing conditions of sale.

## DESCRIPTIONS

Extremely Fine—the finest condition for noteworthy, outstanding copies.

Very Fine (VF)—means that there is a slight deviation from the above.

Fine (F)—means that the perforations do not touch the design on issues after 1890, but in some cases may just touch in earlier issues; if used, fairly lightly cancelled.

Very Good (VG)—means that the appearance is generally fine but that the perforations cut the design slightly.

Good (G)—means average off-centering; or fairly attractive with slight defects.

Original gum (OG)—is not to be expected on 19th Century stamps unless so stated.

Mint—with original gum and never hinged.

Plate Blocks—Minor perforation separation in selvage only is not noted in description.

Reduced selvage note on tops; on sides and bottoms only if plate number is touched or cut into.
