CONDITIONS OF SALE

1. The terms of sale are strictly cash on delivery to the highest bidder unless special arrangements have been made prior to the sale.
2. All bids are per lot as numbered in the catalogue and not per piece, unless otherwise announced by the auctioneer at the time of sale.
3. Any lot, the description of which is incorrect is returnable, but only within three days of receipt. All disputed lots must be returned intact as received and lots containing five or more stamps are not returnable at any time. No lots may be returned by purchasers who have had the opportunity to examine them prior to the sale. No illustrated lots may be returned because of centering, margins or other factors shown in the illustration.
4. Successful bidders, unless they are known to us or supply acceptable references are expected to make payment in full before the lots are delivered. Mail bidders will be notified of the amount of their purchases. We reserve the right in our sole and absolute discretion to demand cash at the time a lot is knocked down to any bidder who has not previously established credit with us or whose account is in arrears. In the event any buyer refuses to pay cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to re-offer the lot immediately for sale to the highest bidder.
5. If the purchase price has not been paid within the time limit, or lots taken up within seven days from date of sale, they may be resold and any losses arising from such sale charged to the defaulter.
6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that any such claim is made within 25 days from date of sale. If claim is not made within this period no lots are returnable for any reason at any time. Naturally, so long as we are notified with the 25 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs.
7. The right is reserved to group two or more lots, also withdraw any lot or lots from the sale, or to act on behalf of the seller.
8. Until paid for in full all lots remain the property of Robert A. Siegel Auction Galleries, Inc.
9. No commission is charged for buying at our sales, but all forwarding charges will be added to the purchase price. Shipment will be made to a post office box only if the buyer has also furnished a street address. All large lots unsuitable for parcel post will be sent by REA Express collect, or, upon request, REA Air Express collect.
10. Upon written application lots may be sent for examination prior to the auction, condition upon being mailed back by registered mail, adequately insured, within 24 hours of receipt. The applicant is completely responsible for all lots sent for examination, and for the insurance of same against mishap, from the time of receipt until they are actually received back, and is to pay all expenses of postage and insurance. No lots can be sent for inspection within ten days of the date of sale.
11. The placing of a bid shall constitute acceptance of the foregoing conditions of sale.

CALIFORNIA

The Robert W. Baughman collection of California Western postmarks is, without doubt, the most comprehensive offering of these interesting covers which has ever come on the market.

The diversity of small town and obsolete postmarks is remarkable, to say the least, and never before has such an opportunity been presented to participate in the dispersal of a holding of this magnitude.

Many of the small post offices were in operation for only a short time; there is a wonderful representation of "Ghost Towns" from the mining areas of the 1850's. Also, many of the small offices served only a few people or a few families with relatively few letters ever being sent, let alone preserved. It is fair to say that all of the covers may be graded as scarce to Very Rare.

An estimate of value has been given to each lot and, as usual, we have done our best to be conservative and realistic in our evaluation.

ESTIMATES

Our sales offer many covers, cancellations, varieties and other items for which there is no catalogue value or where catalogue value does not reflect the actual value. In order to assist our clients, we are placing a fair net valuation on such lots as a guide to bidders. The chart below will be used. For example, E. IV means that our estimated net value on the lot is \$30.00 to \$40.00. Lots may actually realize more or less than our estimates, which are under no circumstances to be considered reserves but merely a guide to bidding.

EXPRESS MAIL COVERS, 1836-1839, 1845

This is one of the most comprehensive offerings in this historic area of collecting which has ever been made. To explain their use we can do no better than repeat the headnote by Dr. James W. Milgram which appears in the *American Stampless Cover Catalogue* (1971 edition) on page 218.

This was a special service of the U. S. Post Office Department authorized by Act of Congress July 2, 1836 whereby for TRIPLE THE REGULAR RATES of postage, the government contracted on certain specified routes to carry the mail by the fastest available means of transportation. In the main this consisted of post riders on horseback who carried nothing but the express mail pouch. Consequently this usage is actually the first "pony express."

The service commenced on November 15, 1836 and was completely discontinued sometime in July, 1839. From November 15, 1836 to October 31, 1837 express mail letters could be sent unpaid (collect) but after that date all letters had to have postage prepaid. This was the first U. S. postal rate that required prepayment. Free mail and money letters were excluded by law.

A typical cover (see figure) always has the words "Express Mail" or "Express" either written in pen or, in rare examples, handstamped. The postage rate is always handwritten, and the cover usually bears a handstruck marking from the town of origin (if originating within the United States), a town not necessarily on the express mail routes. There was no additional marking applied at the points entering or leaving the express for the regular mails.

No letters weighing more than ½ oz. were permitted in the express. The base rates were for a single sheet. Double, triple, and quadruple rates are encountered where one, two, or three sheets were enclosed. Multiples of the 75c rate are common, but other multiples are scarce.

SCHEDULE OF RATES

Up to 30	6c	18c
30 to 80	10c	30c
80 to 150	12½c	37½c
150 to 400	18¾c	56¼c
Over 400	25c	75c

Routes established were: New York to New Orleans, Nov. 15, 1836; Columbia to Charleston, May 11, 1837; Washington to Cincinnati, July 1, 1837; Dayton to St. Louis, Oct. 1, 1837; Cincinnati to Montgomery, Oct. 1, 1837. Postal rates were charged for the complete distance along post roads between origin and destination, not just for the distance that the express transported the letter. Steamships carried the express mails between Mobile and New Orleans. Railroads connected New York and Philadelphia; also Gastonia, N. C. and Petersburg, Va.

A revival of express service over part of the former routes was announced in New York on January 29, 1845. The service was discontinued on March 10, 1845. Rates charged were the regular rates. All letters had to be prepaid and marked "Express." A weight limit was not defined.

The U. S. Express Mail handstamped markings used after 1842 have no relationship to the earlier "Eastern Pony Express."

1836-39 PERIOD — Listing of Usages

TOWN MARK — shows postmark for town of origin, listed alphabetically by towns.

RATES — all rates are 75c or multiples unless specified. Double and triple rates do not increase the value; quadruple rates are not uncommon.

PAID markings — can be expected from any town before Nov. 1, 1837, and from all towns after that date.
