AUCTION GALLERIES, INC.

120 East 56th STREET

NEW YORK CITY, N. Y. 10022

Tel.: (212) 753-6421

CONDITIONS OF SALE

1. The terms of sale are strictly cash on delivery to the highest bidder unless special arrangements have been made prior to the sale.
2. All bids are per lot as numbered in the catalogue and not per piece, unless otherwise announced by the auctioneer at the time of sale.
3. Any lot, the description of which is incorrect is returnable, but only within three days of receipt. All disputed lots must be returned intact as received and lots containing five or more stamps are not returnable at any time. No lots may be returned by purchasers who have had the opportunity to examine them prior to the sale. No illustrated lots may be returned because of centering, margins or other factors shown in the illustration.
4. Successful bidders, unless they are known to us or supply acceptable references are expected to make payment in full before the lots are delivered. Mail bidders will be notified of the amount of their purchases. We reserve the right in our sole and absolute discretion to demand cash at the time a lot is knocked down to any bidder who has not previously established credit with us or whose account is in arrears. In the event any buyer refuses to pay cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to re-offer the lot immediately for sale to the highest bidder.
5. If the purchase price has not been paid within the time limit, or lots taken up within seven days from date of sale, they may be resold and any losses arising from such sale charged to the defaulter.
6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that any such claim is made within 25 days from date of sale. If claim is not made within this period no lots are returnable for any reason at any time. Naturally, so long as we are notified with the 25 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs.
7. The right is reserved to group two or more lots, also withdraw any lot or lots from the sale, or to act on behalf of the seller.
8. Until paid for in full all lots remain the property of Robert A. Siegel Auction Galleries, Inc.
9. No commission is charged for buying at our sales, but all forwarding charges will be added to the purchase price. Shipment will be made to a post office box only if the buyer has also furnished a street address. All large lots unsuitable for parcel post will be sent by REA Express collect, or, upon request, REA Air Express collect.
10. Upon written application lots may be sent for examination prior to the auction, condition upon being mailed back by registered mail, adequately insured, within 24 hours of receipt. The applicant is completely responsible for all lots sent for examination, and for the insurance of same against mishap, from the time of receipt until they are actually received back, and is to pay all expenses of postage and insurance. No lots can be sent for inspection within ten days of the date of sale.
11. The placing of a bid shall constitute acceptance of the foregoing conditions of sale.

ROBERT A. SIEGEL

SYLVESTER COLBY, Licensed Auctioneers

In sending bids, always state the highest price you are prepared to pay for the lot.
Your limit will not be used as a starting bid unless absolutely necessary.

DESCRIPTIONS

Extremely Fine—the finest condition for noteworthy, outstanding copies.

Very Fine (VF)—means that there is a slight deviation from the above.

Fine (F)—means that the perforations do not touch the design on issues after 1890, but in some cases may just touch in earlier issues; if used, fairly lightly cancelled.

Very Good (VG)—means that the appearance is generally fine but that the perforations cut the design slightly.

Good (G)—means average off-centering; or fairly attractive with slight defects.

Original gum (OG)—is not to be expected on 19th Century stamps unless so stated.

Mint—with original gum and never hinged.

Plate Blocks—Minor perforation separation in selvage only is not noted in description.

Reduced selvage note on tops; on sides and bottoms only if plate number is touched or cut into.

Scott 1972 Specialized Catalogue used for listing lots of U.S. & Possessions. Scott 1972 Standard Catalogue for others.

MASONIC CANCELLATIONS

The Collection of Mr. Milton Greenebaum

It is a privilege to offer this beautiful collection, one of the finest in its field ever formed. Cancellations of the various types of Masonic and Fraternal Insignia were used at a number of towns in the 1851-1880 period, when Postmasters provided their own cancelling devices and it is surprising what a wide variety of Masonic cancellations it is possible to obtain.

The Greenebaum collection is unquestionably one of the most comprehensive ever formed and presents probably the widest variety ever offered at auction. There are not only cancellations of the varied types of Masonic insignia but they are presented from an exceptionally wide range of towns, large and small. There are a great many original covers which prove the use of the varied types of Masonic insignia from particular towns. Mr. Greenebaum was constantly making an endeavor to find bold, clear strikes of the cancellations. Unfortunately the Post Office clerks did not always strike their cancellers the way we would like to have them, nevertheless the array of bold, clear strikes in the collection adds greatly to its interest and beauty.

Mr. Greenebaum developed a chart to classify the many types and characteristics of Masonic cancellations. We reproduce this chart in our catalogue and have based our descriptions on the types shown in the chart. Since each type has been assigned a distinct classification the chart should prove useful for the future.

We have assigned estimated values to each lot in the group. As to these estimates, when a seldom-offered specialized collection is presented in our catalogues we try to be conservative, using old recorded prices along with our knowledge and familiarity with current trends and popularity of various groups. With these criteria as guides it has been our experience that items of this nature will find their true current values. However, in a collection of such major importance in its field we would not be too surprised to find that our estimates may be greatly exceeded for many of the exceptionally beautiful stamps and covers offered.

Robert A. Siegel

MASONIC CANCELLATIONS CLASSIFICATION CHART

- Notes: 1. Only nineteenth century cancellations are illustrated.
 2. Normal cancellation is in black, but examples are known in red, blue, green and purple.
 3. True Masonic Cancels of the Square and Compass Type should contain one right (90°) angle.

NEW YORK FOREIGN MAIL CANCELLATIONS

The Collections of Morrison Waud and Arthur Van Vlissingen

We have run out of superlatives! The language is insufficient to convey the importance of these matchless collections. The combined offerings of this highly interesting and historic group are without equal and it is truly a "never before" presentation.

First and foremost, the Waud-Van Vlissingen collections and studies have been the basis of the book on New York Foreign Mail cancellations written by them and published in 1968 by the Collector's Club of Chicago. The book is a magnificent contribution to postal history studies and is a "must" for the collector of covers and cancellations of this period. We acknowledge our indebtedness to the book for the preparation of this catalogue and, with permission of the authors, have reproduced each of the many different types of the cancellations.

While the reproductions show the stark contrasts of a black and white drawing we have also endeavored in our illustrations in this catalogue to show the various cancellations and types exactly as they appear on the various stamps and covers. We hope that in this respect our catalogue may be useful to collectors and students of the future.

The first publication of an integrated nature on these cancellations was that of Edwin Milliken. This was an extensive and highly useful work which has been out of print for a number of years. The Waud-Van Vlissingen studies have expanded and re-classified the Milliken type designations and have added numerous new types recognized since the Milliken work was published. The re-classification has been done by putting the various types of cancellations into categories, which to our thinking, has simplified their study.

We will not go into the history and variety of uses of these popular postal markings. It is all contained in the Waud-Van Vlissingen book. We cannot refrain, however, from commenting on the fantastically beautiful material contained in the collections. Examples of every type are present with Foreign Mail usage verified with a myriad of original covers. There has never before been such a collection offered. The contents are ample demonstration of this fact.

The book contains a table of relative rarity of the various types of cancellations. The validity of these classifications is clearly verified by the relative number of stamps and covers with these cancellations in the collections. We have indicated whether "Scarce" or "Rare" in our headings to each type.

As to estimates and values, let us be frank in saying it has been so many years since any comprehensive lot of New York Foreign Mail cancellations has come on the market that there is no solid record on which to base prices. The estimates we have placed are based, to a great extent, on valuations made many years ago and need not reflect today's values at all. Where we have placed catalogue values, they are simply for the basic stamp, **without regard for Foreign Mail cancellation**. Those interested must simply determine their own valuation, based on the beauty of the stamps, the clarity of the cancellation, the rarity, as shown in the book, and their own personal desires. We have illustrated the catalogue profusely to give prospective buyers as much help as possible in bidding but we must again point out that catalogue values for the basic stamps have no bearing at all on the values of these unusual cancellations.

It is tempting to go into further detail and comment on the various postal rates and usages shown in these cancellations and covers but, since this is the most definitive and authoritative offering of New York Foreign Mail cancellations ever to be made we prefer to let the collections stand on their own merits. We are proud to present it for your consideration and hope that this catalogue, in its own small way, may contribute to the knowledge of and to determining a fair valuation for these most interesting items.

Robert A. Siegel

Some freehand designs are proved on cover and therefore deserve recognition as NYFM. At the same time they are not of sufficiently distinctive character to qualify as separate types, and must be considered minor varieties. These designs are grouped together, on this and the next page, as "Families" carrying the type numbers of the major designs which they most closely resemble. Additional sub-types exist of many of these varieties. While they are not entitled to full admission to the honorable company of NYFM, they cannot be ignored, and deserve a place in the album of the specialist who is fortunate enough to obtain an example.

END OF SALE — THANK YOU

IS YOUR COLLECTION FOR SALE?

REALIZE IMMEDIATE CASH
PLUS THE ADDED ADVANTAGE OF
SELLING THROUGH OUR AUCTIONS

We will advance immediate cash up to 75% of our appraisal value, of what your collection should realize at auction. There is no interest charge.

Your collection will then be sold in one of our coming auction sales. All stamps are expertly and advantageously lotted in attractive, well illustrated catalogs. Lotting is meticulously planned under our personal supervision. Commission is 20% of the gross realization. There is no lotting fee or any other charges. Final settlement is made within five weeks after the sale. We have been continuously conducting stamp auctions in the United States for over forty-one years.

Valuable collections and stamp holdings are especially wanted, but we will accept properties valued from \$500 upwards. Send all stamps direct for appraisal. Auction advance will be remitted shortly after receipt. If not entirely pleased, stamps will be returned at our expense. If circumstances warrant due to bulk or value, we will travel anywhere to inspect important properties.
