#### **WESTERN PIONEER LETTERS & CORRESPONDENCE**

- 574 **THE ARMSTED LETTERS**, A series of 11 letters sent by William Armsted to his family at Reynoldsburg, Ohio, 1849-1851, covering his journey to California, via St. Joseph, Mo. and his experiences after his arrival. He settled in the vicinity of Grass Valley, and most of the letters were sent from there, some marked "by Express" but without frank, others by mail. While a good deal of the content relates to family matters there are many comments about California and life there in the "Days of '49". The covers are stampless and of little significance except for a July 4, 1851 "Paid 6" with ms. pmk. of Nevada City, all letters are in excellent state of preservation. A Postal History offering of unusual interest. (Lots #107, 162, 182) are also from the Armsted Correspondence but are offered as individual lots because of their scarce and unusual postal markings ..... **E. XII**
- 575 **THE BAKER CORRESPONDENCE**. A series of 51 letters written by Dr. John W. H. Baker to his wife and family at Meriden, N. H. giving a full account of his journey to California. The first letter is headed "New York, August 17, 1853 and the correspondence covers the voyage via Panama, through San Francisco until he reaches Mokelumne Hill, California. He remains there until April 1855, when the final letter advises his family of his impending return to New Hampshire. The letters, much in narrative form, relate the difficulties of the journey; life in California with references to the climate, to gold mining, to his own profession as a medical man. Since Dr. Baker made it a point to write home by every mail (then semi-monthly) there is a wonderfully interesting picture of life in California, as it unfolds week by week. There are occasional covers interspersed throughout the letters, most with "Mokelumne Hill, Cal." postmarks with "Paid 6". They are nearly all in an excellent state of preservation and the content is of great historic interest, covering, as it does, virtually every phase of life in California in the days immediately following the hectic period of the "Gold Rush". Frequent references to the mails, the expresses and the steamers give it an important postal history slant ..... **E. XV**
- 576 **THE SCOTT LETTERS**. A series of seven long letters all from John Scott to Francis Fisher in Boston (Scott was a valued employee of the Fisher firm) from March 1, 1849 at the start of the voyage to California from Boston. Two letters headed "Panama" April & May, 1849, one a folded letter with "New Orleans, La." pmk. "Steam" and "40" in circle. The others, from California are headed, "Stockton" "Moquelumne River", "San Francisco" & "Coloma", respectively, dated from August 1849 to May 1850. Contents, to some extent in narrative form relate to the mines, living conditions, the problems, in fact a full account of the writer's experiences. Scott was a very literate writer and the letters are of unusual interest. Mostly in a very fine state of preservation ..... **E. XIII**

**LOTS ON VIEW IN NEW YORK APRIL 24th-26th, MAY 1st & 2nd**  
**The First Session on View in San Francisco at "WESTPEX" APRIL 28th, 29th**

- 577 **THE MOWRY LETTERS** Salt Lake City, U. T. Heading on three letters dated Sept. 19, 1854, Dec. 30, 1854 and Feb. 7, 1855 respectively, from Lt. Sylvester Mowry to his friend Edward Bicknell in Providence, R. I. The content of the three letters is fascinating, speaking of Indian troubles, slowness of the mails and the writer's views of Mormonism, particularly his thoughts on polygamy. Considerable parts of the letters are vulgar and earthy, especially where they relate to his attempted seduction of Brigham Young's daughter-in-law. All three letters were carried outside of the mails until deposited in an eastern post office where local unpaid and paid rates are shown. The 1855 cover is a folded letter with a ms. "Adams & Co." & "Paid" deposited in the New York P. O. April 8th, over 60 days in transit. The letter states he is sending it "at sunrise to overtake the Express to California. The two envelopes are worn, the folded letter in excellent condition. A series of outstanding historic interest both from the personal nature of the letters and as part of our Postal History ..... **E. XII**
- 578 **THE PUTNAM CORRESPONDENCE.** A series of 1849-1851 letters between Ann Putnam and Alden Putnam, her husband, exchanged en-route to California and shortly after his arrival there. Exceptionally interesting content, he telling of the journey, its hardship and of life in California after his arrival, she writes of family matters at their home in Wisconsin and of what they hear of the "riches" of California. Most of her letters are ms. cancelled folded letters, with the rate varying from 5c to 40c according to distance. Two of his letters bear the rare **Sacramento, Cal. Oval pmk. with "Paid 40"** in oval, the scarce large type. There are seven letters from her to him and seven from him to her, plus an additional Jan. 2, 1851 letter to him headed "Mary Poses Mines" (Mariposa Mines) with a Stockton, Cal. 12½ rate postmark but in poor condition. The other letters are in generally fine state of preservation with some minor breaks along folds easily mended if one should desire. A remarkable fragment of postal history in a period fraught with importance to the nation ..... **E. XIII**

##### ANDREW JACKSON LETTERS

600  **ANDREW JACKSON**, A series of five significant historic letters, written and signed by him as Major General, Commanding "7 M District" with headquarters at Mobile. The "M" may stand for "Military" or "Mississippi" since Alabama was then part of the Mississippi Territory. The letters are of the utmost historic interest, being a first-hand account of the brilliant military operations he conducted around Mobile, during the War of 1812. Following is a list of the dates of the letters and a few excerpts from each to indicate the tremendous historic significance of the series. All are addressed to Col. Andrew Haynes, Adjutant General of the State of Tennessee.

*MOBILE, Sept. 17th, 1814 6 o'clock a.m. On the day of the 15th instant, a combined British and Spanish force with 500 or 600 Indians made an attack by land and water on Fort Bowyer, Mobile Point, the battle was tremendous and continued until about 12 o'clock at night when the firing ceased and a vast explosion took place . . . with more details of the military engagement.*

*HEADQUARTERS MOBILE, Sept. 17th 1814 9 o'clock A.M. I stop the mail to state the glorious news, that Fort Bowyer is safe, the British and allies severely drubbed . . . by mail, a full detail.*

*MOBILE, Sept. 19th 1814. I enclose you the general order of the 15th instant which gives you in detail the glorious victory obtained by Major Lawrence and his little Spartan band over the combined attack by land and water of the British, Indians and Spaniards. . . . Had I a competent force I would instantly strike the Lyon in his Den — Hurry on the troops and all will be well —*

*MOBILE, Sept. 26th 1814, 11 o'clock pm. I have this moment rec'd the news that the capitol is burnt — was it not for the national disgrace I am glad of it. It will unite America and learn the rulers of our nation to prepare for defense before it is too late — (then follows a long discussion of his plans to bring the war to the British in the area around Mobile and New Orleans.)*

*MOBILE, Oct. 21st 1814. The moment the troops can be organized you will please to direct that those from the Western Division of the state be ordered direct to New Orleans, those from the Eastern Division direct to Fort Claibourn . . . etc. etc. . . . I am preparing for operations as soon as the means arrive.*

Here one sees the general tenor of General Jackson's maneuvers in the

South preparatory to his famous defeat of Gen. Pakenham in the Battle of New Orleans, which actually took place after a Treaty of Peace had been signed but before intelligence of the treaty reached him.

From a philatelic point of view, the first three covers went "Free" under military frank with nothing but the address. The September 26th letter, however, **bears an unlisted straight line postmark of "Mobile"** all in caps, with ms. date Sept. 27 and "Free". The last cover bears a ms. "Mobile" postmark and shows a "25" rate.

All five covers are in an excellent state of preservation and the entire series underlines the devotion to country and duty of one of the great military and political figures in all our history.

END OF SALE — THANK YOU

## A REMINDER

Mails are often slow. After nearly every auction we receive some 25 to 50 late bid sheets, many of which would have been successful. We can only repeat . . . **PLEASE MAIL YOUR BIDS EARLY!**  
 Use Air Mail if you are in doubt as to being on time.

## IS YOUR COLLECTION FOR SALE?

REALIZE IMMEDIATE CASH  
PLUS THE ADDED ADVANTAGE OF  
SELLING THROUGH OUR AUCTIONS

We will advance immediate cash up to 75% of our appraisal value, of what your collection should realize at auction. There is no interest charge.

Your collection will then be sold in one of our coming auction sales. All stamps are expertly and advantageously lotted in attractive, well illustrated catalogs. Lotting is meticulously planned under our personal supervision. Commission is 20% of the gross realization. There is no lotting fee or any other charges. Final settlement is made within five weeks after the sale. We have been continuously conducting stamp auctions in the United States for over forty-two years.

Valuable collections and stamp holdings are especially wanted, but we will accept properties valued from \$500 upwards. Send all stamps direct for appraisal. Auction advance will be remitted shortly after receipt. If not entirely pleased, stamps will be returned at our expense. If circumstances warrant due to bulk or value, we will travel anywhere to inspect important properties.

## **DO YOU HAVE STAMPS FOR SALE?**

### **WE COULD BRING YOU TO NEW YORK AT OUR EXPENSE TO BUY THEM !**

Our recent ad to buy in behalf of an investor-client who wants to spend a million dollars or more for United States stamps has brought a wonderful response.

### **BUT**

While we've spent a considerable sum, a large part of that million is still waiting to be spent and if you have the material the check is yours at once. Wanted are worthwhile collections, accumulations, stocks or holdings of just about anything in United States stamps.

Many sellers have expressed the desire that we come to them to examine their holdings. These requests have come from all parts of the country and we can't be everywhere at once, in fact, on one recent occasion three of our representatives have been away on buying trips at the same time. We want to give you quick action so we've come up with a new idea and here it is!

**IF WE CANNOT CONVENIENTLY VISIT YOU AT THE TIME YOU DESIRE WE WILL BRING YOU TO NEW YORK, WITH YOUR MATERIAL. IF WE BUY IT WE WILL PAY ROUND TRIP TRANSPORTATION; IF WE DO NOT BUY IT WE WILL PAY THE ONE WAY FARE!**

This goes no matter where you are in the United States!

This does not mean that we, ourselves, won't travel, for we will, but time is an important factor. It boils down to this . . . if we cannot conveniently visit you we will bring you to New York on the conditions stated above.

All arrangements will be made in advance by us after we have been in touch with you by mail or telephone, (you may call us collect.)

Obviously the material you have for sale must be of a value to justify the expense but we are always interested in considering anything with a value of \$500.00 or more.

If, due to bulk, it is difficult for you to bring the material to New York, bring the important items and we will make arrangements to see the balance when one of our representatives is in your area.

As you see, we mean business. We need material and will do all in our power to cooperate with you, the seller.

## WHY "AUCTION"?

---

Because auction sales of stamps and philatelic material provide the best and fairest treatment of both buyer and seller.

Through auctions buyers are offered the opportunity to acquire many rare items that make their appearance only at auction sales. Auctions provide a great deal of material which is never available in dealers' stocks, often for the simple reason that an active dealer has so many potential buyers for a rare, choice item that he prefers to have it offered at auction rather than seem to favor one client over others. All then have equal opportunity to buy it.

Sellers through auction receive every dollar their material realizes in open, active competition, minus the auctioneer's commission. In our case, the commission is simply 20% of gross realization with no other charges. Also, we are always ready to provide an immediate, liberal, interest-free cash advance pending sale, so that the seller does not have to wait until after the auction before he receives his money.

Here are just two important reasons to answer the question of "Why Auction"? We can also provide many more.
