ESSAYS

Throughout the foreign section there are a number of lots of essays and proofs, all designed and engraved by John Hay who has autographed nearly every one of them, some in reverse, as an engraver always works on the dies "in reverse".

All of these are very scarce and some are unique. This applies particularly to the developmental pieces of United Nations and Canada.

The first two lots, as listed below, are demonstrations of a three color intaglio process developed by Mr. Hay.

Others will be found in their proper places in the countries involved.

- 2051 E **A Specialized Study** of development of a three color Solenoid Continuous Method of Intaglio Printing. Three items with seven impressions; Portrait of Pope Pius XII, similar to Vatican City, Scott #94. Three Vertical strips, two partial & complete impressions in Brown & Gray, other with four impressions, three progressive & one in full color, inscribed "Specimen". First two on Bond paper, Complete Strip on Laid paper. Unsigned, Very Fine & Rare E. VII
- 2052 E **Another Specialized Study** of the three color Solenoid Continuous method. Two Vertical Strips of Four, design of a church; Progressive impressions in Blue, Progressive impressions in Orange, Green & Blue & finally a complete multicolor picture. Couple of minor creases, A Handsome & Rare Study E. VII
