CONDITIONS OF SALE

1. The terms of sale are strictly cash on delivery to the highest bidder unless special arrangements have been made prior to the sale.
2. All bids are per lot as numbered in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots; to withdraw any lot or lots from the sale, or to act in behalf of the seller. The auctioneer shall regulate the bidding and in the event of any dispute his decision shall be final.
3. Any lot, the description of which is incorrect is returnable, but only within five days of receipt. All disputed lots must be returned intact as received. The following lots may not be returned for any reason whatsoever: Lots containing ten or more stamps; Lots from buyers who have had the opportunity to examine them before the sale; Lots described as having defects or faults may not be returned because of any faults. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.
4. Successful bidders, unless they are known to us or supply acceptable references are expected to make payment in full before the lots are delivered. Mail bidders will be notified of the amount of their purchases. All mail bidders who have established credit with us must make payment within three days after receipt. We reserve the right in our sole and absolute discretion to demand cash payment at the time a lot is knocked down to any bidder who has not previously established credit with us or whose account is in arrears. In the event any buyer refuses to pay cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to re-offer the lot immediately for sale to the highest bidder.
5. If the purchase price has not been paid within the time limit, nor lots taken up within seven days from date of sale they must be resold and any loss arising from such sale will be charged to the defaulter. Any account more than thirty days in arrears is subject to a late payment charge of 1½% per month so long as the account remains in arrears. If the auctioneer, in his discretion, should institute any legal action to secure payment of a delinquent account the defaulting purchaser shall pay all legal expense incurred by the auctioneer and such charges will be added to the amount owed.
6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that such claim is made in writing within 14 days from date of sale. If claim is not made within this period, no lots are returnable for any reason at any time. So long as we are notified within the 14 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$50.00.
7. Until paid for in full, all lots remain the property of Robert A. Siegel Auction Galleries, Inc. in behalf of the seller.
8. All forwarding charges will be added to the purchase price. The mode of shipment shall be at our option unless we are given specific instructions.

FRANCE SPECIALIZED COLLECTIONS

1178	France, The Matchless, Award Winning Collection of Railroad Postmarks, Contained in two large albums, each page in its own acetate protection sheet. The collection covers the period 1852-1879. While mail service began on French Railroads in 1844 it was not until 1852 that special postmarks were applied. Many maps are shown with the particular route denoted in ink and stamps with the various markings on the route are mounted on the appropriate page. There are frequent better stamps to be found throughout the collection such as the 15c First Issue #2, and some of the Bordeaux. However, the more ordinary frankings are found in most cases though some nice combinations are met with, here and there. There are 273 stamps and 199 covers. The write-up is comprehensive and completely intelligible. Quality, by and large, is of a high standard. Not every stamp is perfect, but poor examples are few and far between and represent the best example the owner was able to locate. This is a collection of major importance. It has already won awards and is a remarkable work for its postal history research and the immense detail entailed in matching up stamps of the 1850's and 1860's with their respective railroad lines on rather old maps of France. We feel it cannot be duplicated at any price and our estimate, as usual, is conservative E. XVI
1179 ☒	Stampless Covers, Straight Line Postmarks: The comprehensive collection of 212 covers, virtually all different as to towns or type and including most of the district numbers introduced at the time of the French Revolution (1789). Dates run from 1789 until the 1830's when the circular postmarks were introduced. There is an extraordinary representation of towns, large and small (no Paris) and many are found with Revolutionary dates and some with accessory postal markings. Most are in black but a few are found in Red. Nearly all are well struck and condition throughout is almost entirely Fine-Very Fine. A collection of exhibition stature, representing years of search and still offering opportunity to expand E. XIII

- 1180  **Stampless Covers, With Double Circle, Dated Postmarks, with Department Number.** These were first introduced in 1830 and continued in general use until about 1840, although some were used a good deal later. There are different types, with or without fleuron and a few of single, rather than double circle. There are several hundred covers, each one written up, with explanation of all markings. They are in three large albums, each page bearing two covers and in its own protective acetate folder. We cannot begin to estimate the effort and research in assembling such a collection. There is a minimum of duplication, which takes place only when there is something special to demonstrate. No Paris are in the collection as they are reserved for a special collection by itself. Excellent condition predominates throughout. The very least we can say of the collection is that it offers an unprecedented and magnificent opportunity. Of exhibition stature, it still offers opportunity for expansion **E. XIII**
- 1181  **FRANCE, Number Cancellations,** A highly specialized collection of approximately 1000 covers in 17 loose-leaf books, all arranged by number, which is also the alphabetic arrangement. There is one book of the small numbers, the other 16 books are with the large numerals. Most covers bear the corresponding town postmark. Each page is neatly written-up, identifying the town and the back-stamp if any. General condition is of a high standard. Most of the covers are fresh and clean and the stamps, in general, are fine examples of their uses. The period of the collection is 1853-1873, omitting the Bordeaux Issue. Most are the common contemporary frankings of 20c or 25c with occasional variation, particularly where the cover is sent to another country. There is a high degree of continuity of numbers representing a substantial percentage of all French post offices of the period. A valuable lot for pleasure and for study **E. XIII**
- 1182  **Paris, The Specialized Collection of Paris postmarks.** Two volumes with 128 covers 1790-1870, most with stamps. All arranged according to the many post offices in Paris. In addition to the covers there are several hundred stamps 1849-1870's demonstrating the Paris post offices. To complete the collection, there are hundreds of modern issues, including commemoratives showing the postmarks of today of these same post offices, showing the full range from the time of their establishment until the present. Mounted and neatly written up, each page in its own acetate container. Condition is very mixed and runs from Fair to Very Fine, insofar as the early issues are concerned. The modern issues, which are primarily for reference are not of any particular value and seem to be consistently of high quality. This collection is of great postal history interest; postmarks are clear, for the most part and there are many fine individual items. It represents years of research and would be very difficult, if not impossible to duplicate. We think our estimate to be quite conservative **E. XI**
- 1183 **1849-70, The Extensive Collection of Numeral Cancellations,** on Ceres & Napoleon Issues. Neatly mounted & arranged in three special albums. One is devoted to the scarcer small numerals; others the large numerals, incl. some later changes of number. Space is provided for every known postmark, of which there are hundreds. More than half the post offices are represented. Stamps are of various denominations, to 5fr, mostly 10c & 20c of various issues. Mixed condition, some faults, some Very Fine; An important showing, well worth continuing **E. XIII**
- 1184 **1849-73, Cancellations,** Collection of 32 stamps & 95 covers (many 40c #18) demonstrating numerous diff. types of cancels. & special uses. Railroad, R. R. Stations, Military, Large & Small numerals, etc. as well as a variety of postal markings. Mixed quality, Fair-Very Fine. Excellent Study **E. XI**

- 1185 Accumulation of several hundred Ceres & Napoleon Issues, mostly 20c & 25c Blue, perf. & imperf., on stock sheets, album pages, loose & over 250 unfolded letters. Mixed condition, Good-Very Fine, Fascinating lot for study **E. VIII**
- 1186 **Modern Cancellations**, 1860's, etc. Several hundred mounted alphabetically incl. stamps & covers. Broad range of towns, large & small. Fine study complementing the extensive cancels. on the earlier issues; Fine-Very Fine **E. V**

MILITARY EXPEDITION POSTMARKS

- 1187  **Crimean War, "Armee D'Orient, Bau A., 8 Sept. '55"**. Clear pmk., 20c Napoleon (15) Tied by "AOA" in Diamond of Dots, also another, off cover with clear "AOJ". Stamps slightly cut in, cover bit wrinkled. Very Scarce **E. VI**
- 1188 **CEM (Corps Expedition, Mexico)**. Clear strike in diamond of dots on 10c Napoleon (25). Perfs touch, on small piece, Fine, Very Scarce, used during France's abortive attempt to make Maximilian the Emperor of Mexico **E. V**
- 1189 **Expeditions to China, Italy**, 20c Napoleon (15) two, one with "CEC", other "A MIL" in diamond of dots. Clear strikes, stamps a bit cut in, Very Scarce **E. IV**
- 1190  **1901, Marine Military Covers**, Two, 1901, 1902, Each with Marine cachet with Anchor. "Corps D'Armee, Shanghai" pmks. (one partly clear) Military or Naval endorsements, one a fancy native cover, Fine lot, Scarce **E. V**
- 1191  **INDO-CHINA, French Military Postmarks**. The highly specialized collection of 75 covers, all stampless and with military postmarks and postal markings of all Indo-China. The collection is of timely interest because of our recent involvement in Viet Nam. Most of these covers were used from 1890 to 1900, a few earlier or later. The area covered was then the colony of Cochin China and the military protectorates of Annam & Tonkin, with a few post offices in the Chinese province of Kwang Tcheou Wan. Cambodia and Laos were not recognized as separate provinces in those days. Excellent condition predominates with clear postal and military markings. Most were sent to France, but we note a few to French Colonies. A few covers are faulty but are of very rare usage. Virtually every post office in the area is represented, a few in more than one type. There is great diversity in the military markings. The collection is contained in one album with each cover in an acetate page of its own. Every marking on the cover is explained, neatly written-up by typewriter. The collection represents a beautiful piece of research and contains many covers of incalculable rarity. It is of exhibition stature and probably impossible of duplication today. Our estimate is certainly on the conservative side **E. XV**

Two types of numeral "5104" Large & Small. The small are scarcer by far. There are also two types of postmarks. The earliest reads "Shang-Hai, Bau. (Bureau) Francais"; the later, "Shang-Hai, Chine."

Yvert & Tellier Catalogue indicates a substantial premium for these postmarks, especially for covers.

- 1272 **FRENCH POST OFFICE IN SHANGHAI, CHINA.** The extensive specialized collection of 194 stamps and 10 covers. The collection demonstrates the two basic cancellations; long and short serif and starts with the Empire issues of 1853 and continues through the "Sage" issues, also known as "Allegory" and "Peace & Commerce" types. There are single stamps of all denominations from 1 centime through 5 franc. There are numerous multiples, the largest being a block of six of the 20c Napoleon of the 1862 issue. Some nice combinations on pieces are present. Town postmarks are first found on the "Sage" issues and all of the covers are of that period. Different types of town postmarks are present. General quality is quite high. While there are a few defectives, Fine-Very Fine condition predominates. The collection is beautifully mounted and well written-up. Each page is enclosed in an individual acetate covering. The collection represents years of search and research and still offers room for expansion. We consider our estimate to be on the conservative side, considering the difficulty in finding even the commoner French stamps issued before 1900 with the Shanghai postal markings **E. XIV**
- 1273 **FRENCH OFFICES IN CHINA, 1894-1922,** Balance of Collection, 38 stamps & 7 covers. Stamps mostly used with better values such as Nos. 10, 13, 85. Some gutter pairs of "Sage" type. Covers mostly 25c "Sage" (6) variety of uses. Virtually all Fine-Very Fine **E. VII**

- 1355 **ALGERIA (As French Colony),** The highly specialized study, 1850's - circa 1905 of 213 stamps and 37 covers. A marvelous range of postmarks covering the larger cities and some of the tiniest towns. The great majority are on French stamps of 1853-1873 with a small number of the "Sage" types, to show the introduction of town postmarks. A good proportion of the earlier issues have the numeral cancellations, mainly the large numbers but a reasonable number of the scarcer small numbers. Some of the small post-offices are outposts in the Sahara. General condition is a fine, average. A few are faulty, as may be expected in a study of this nature but the general run is, for the most part, satisfactory. The collection is on original album pages, each in its own acetate protection sheet and is carefully and neatly written-up. Many years of search have gone into its formation and, extensive as this collection is, there is room for expansion and further research. Our estimate is very much on the conservative side because of the difficulty in evaluating some of the very scarce postmarks **E. XII**
