## THE WORLD'S MOST VALUABLE STAMP

The little piece of magenta-coated paper featured in this catalog is, for its size and weight, the most valuable single object in the world. It is the British Guiana "One Cent" postage stamp issued in 1856 during an emergency shortage of regular stamps and is now estimated to be worth fifty million to a hundred million times its original cost. No one has ever been able to suggest any other object in the history of the world which has multiplied so greatly in value.

British Guiana, now the Independent State of Guyana on the Atlantic Coast of South America, was formerly a small part of the once extensive British Empire and was important for its production of sugar and rum . . . the dark rum of Demerara being a favorite of connoisseurs. By 1856 the colony had a well-developed postal service with its headquarters in the city of Demerara, now Georgetown, the capital. After an early locally produced stamp issue in 1850 the colony was supplied with its postage stamps directly from England. Early in 1856 an emergency arose. A supply of stamps ordered from London failed to arrive and the local stock of postage stamps was being depleted. The Postmaster decided he must authorize provisional stamps, to be produced locally, in order to meet the emergency. The publishers of the "Official Gazette" were ordered to print these provisionals using a design approximating the Seal of the Colony which consisted of the design of a ship and the Latin motto "Damus Petimus Que Vicissim" (which translates "We Give and Seek in Turn"). These emergency stamps were primitively set in ordinary type. For the design of the ship the printers used the same cut which they ordinarily used to head the local column of shipping news. The words of the motto were placed above and below the ship and surrounded by a frame of ordinary printer's rules. Outside of the rules were the words "British Guiana", "Postage" and "One Cent". There was a similarly designed "Four Cent" stamp printed and issued at the same time. The "Four Cent" was printed on Magenta paper, like the "One Cent" and also on a Blue paper. These "Four Cent" provisionals are now very rare, but not in any way to be compared with the rarity of the unique "One Cent".

When the stamps were delivered to the Post Office the Postmaster was concerned that, being printed from ordinary type, they might easily be forged, so, to protect the postal revenue, he directed that all of these provisional stamps were to be initialed by one of four designated postal officials before being sold. The "One Cent" bears the initials "E.D.W." hand-written by Mr. E. D. Wight, an assistant postmaster. This was the device employed to protect the colony's first provisional issue, which came out in 1850, six years earlier.

The "One Cent", of which only the one example has ever been found, has been cut octagonally, the corners trimmed so that it forms an octagon. It bears the postmark of "Demerara, Ap. 4, 1856" in the characteristic, rimless type then in use.

This "Rarity of All Rarities" has had the most careful scrutiny of leading students of the stamps of British Guiana, who through the Royal Philatelic Society of London, have pronounced and certified it to be genuine in all respects. The documentation and certification will, of course, be furnished to the fortunate purchaser of this stamp whoever he may be.

On April 5th, 1980, through the facilities of the Robert A. Siegel Auction Galleries, Inc., 120 East 56th Street, New York, NY 10022, this celebrated stamp

is to find a new owner. For the first time in ten years it is being offered, without reserve, at public auction, to the highest bidder. Who the new owner will be and what price he must pay for it will be determined in this sale, where it is being offered in company with a sensational galaxy of some of the rarest and most beautiful philatelic gems ever assembled. The annual sales of "Rarities of the World" initiated and continued by the Robert A. Siegel Auction Galleries, Inc. are events eagerly awaited by the Philatelic world and bring together at one time a great number of serious buyers. Thus, it is a quite logical for the famous British Guiana "One Cent" to be presented in this sale.

This great stamp is, of course, unique; no other example has ever been found. There are other unique stamps, it is true, some in this present sale, but the British Guiana has a quality of glamour which sets it apart from every other stamp in the world.

One important feature of this rarity is the fact that it has been completely "pedigreed" from its original discovery by L. Vernon Vaughan, of Demerara, British Guiana when he was a school-boy, barely of teen-age. It was approximately in 1873 when he discovered it in some family correspondence, along with other British Guiana stamps. An avid collector, he was fascinated by some colorful sets sent him by a dealer and lacking funds to purchase them he offered his "One Cent" Black on Magenta to a collector named McKinnon, who first turned it down but finally bought it for the sum of six shillings. McKinnon sold his collection in 1878 through Wylie Hill, of Glasgow, Scotland to Thomas Ridpath, a Liverpool dealer for a reputed \$600.00. Ridpath sold the stamp to Count Philippe la Renotiere von Ferrary, an Italo-Austrian nobleman of immense wealth, who, for many years was the world's leading collector. He was born in 1848 and lived in a famous Paris mansion in which three rooms were devoted to his stamps. A small ante-room was reserved for business and contained a curious contraption of nails or hooks on which French Bank Notes of varying denominations were placed. The money was for the Ferrary stamp purchases and a sum of 50,000 francs (then approximately \$10,000.00) was made available each week. If large amounts were necessary, as for the purchase of a large collection, payment was made by check. Two Philatelic secretaries looked after the collection, the stamps were kept in one room while the other room was devoted to an immense collection of Postal Stationery. When World War I broke out, the Count was in The Netherlands. In 1916 he attempted to return to Paris, where his collection was, but the French Government refused to permit him to remain in France because of his Austrian paternity. He had become a Swiss citizen in 1908 so he retired to Lugano where he died in 1916. By his will, the collection had been left to The Imperial Postal Museum in Berlin. But the French Government seized the collection and ordered it sold at public auction with the proceeds being credited to the German War Reparations account. The collection was dispersed in a series of fourteen well-attended auction sales between June 1921 and November 1925. The amount realized was in excess of \$1,600,000.00, a huge sum for those days.

However, the greatest interest was evoked by the sixth sale, the one in which the famed British Guiana was offered. It has long been rumored that King George V, of Great Britain, had an agent at the sale and was a bidder for this fabulous rarity, for it is reputedly the only British Commonwealth stamp lacking from the Royal Collection. The rumor, as is customary in British Court circles, has never been confirmed nor denied. In any event, the principal competition was between Maurice Burrus, a wealthy Alsatian tobacco magnate and Hugo Griebert, a

London dealer who acted as agent for Arthur Hind, a highly successful manufacturer of Utica, New York. The bidding between M. Burrus and Mr. Gribert brought the price to 300,000 francs (the franc then being valued at between 8c and 9c). Both claimed the stamps at that price and after a short conference the two competitors reached agreement that Mr. Hind was to have it. The French Government exacted a tax of 17½% of the purchase price which brought the total cost to Mr. Hind to approximately \$32,500.00 plus whatever he paid Mr. Gribert for his services. The late Charles J. Phillips once wrote that Mr. Hind told him that he had instructed Mr. Gribert to go as high as \$60,000.00 for the stamp if necessary.

Arthur Hind enjoyed his ownership of the stamp and the publicity he derived from its purchase. He was very generous in permitting its display at important philatelic exhibitions and, as a result, many collectors had the opportunity to view it, up to the time of his death in 1933.

It was then learned that the British Guiana "One Cent" had been left to his widow, independently of the rest of his stamps.

The "Hind Collection", minus the "One Cent" British Guiana was sold in a series of important auctions in the mid-1930's.

After Mr. Hind's widow established her ownership of the stamp through court action she arranged for its private sale through Mr. Finnbar Kenny to a new owner for an undisclosed price, rumored to be in the neighborhood of \$50,000.00, then an unheard-of price for a single stamp. Mr. Kenny assisted and advised the past owner in the formation of the greatest collection of the stamps of British Guiana ever put together of which the famed "One Cent" of 1856 is the crowning piece.

We were privileged to offer this stamp in 1970 before a large audience and it was finally knocked-down to Mr. Irwin Weinberg for \$280,000.00, the highest price ever realized for a stamp at that time. Mr. Wienberg states in turning this stamp over to us for an unreserved auction sale, "Naturally I have mixed personal emotions. The stamp will of course do well in monetary terms. I do hope the next owner will continue to use it for the best interests of international philately. I did my best to do so. I purchased it as a hedge against inflation. The inflation is here." Mr. Weinberg exhibited this stamp as a feature attraction in many international stamp exhibitions around the world in the past decade.

The eyes of the philatelic world are focussed on the Grand Ballroom of the Waldorf-Astoria Hotel in New York where Robert A. Siegel, the auctioneer for the Robert A. Siegel Auction Galleries will announce the lot, say "Gentlemen, What is your Pleasure?" and within a few minutes rap with his gavel, at which time this greatest of all rarities, the most valuable stamp in the world, the famed British Guiana "One Cent" Black on Magenta of 1856, will, after more than ten years, find a new owner.

## CONDITIONS OF SALE

1. The terms of sale are strictly cash on delivery to the highest bidder unless special arrangements have been made prior to the sale.
2. All bids are per lot as numbered in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots; to withdraw any lot or lots from the sale, or to act in behalf of the seller. The auctioneer shall regulate the bidding and in the event of any dispute his decision shall be final.
3. Any lot, the description of which is incorrect is returnable, but only within five days of receipt. All disputed lots must be returned intact as received. **The following lots may not be returned for any reason whatsoever: Lots containing ten or more stamps; Lots from buyers who have had the opportunity to examine them before the sale; Lots described as having defects or faults may not be returned because of any faults. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**
4. Successful bidders, unless they are known to us or supply acceptable references are expected to make payment in full before the lots are delivered. Mail bidders will be notified of the amount of their purchases. All mail bidders who have established credit with us must make payment within three days after receipt. We reserve the right in our sole and absolute discretion to demand cash payment at the time a lot is knocked down to any bidder who has not previously established credit with us or whose account is in arrears. In the event any buyer refuses to pay cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to re-offer the lot immediately for sale to the highest bidder.
5. If the purchase price has not been paid within the time limit, nor lots taken up within seven days from date of sale they must be resold and any loss arising from such sale will be charged to the defaulter. Any account more than thirty days in arrears is subject to a late payment charge of 1½% per month so long as the account remains in arrears. If the auctioneer, in his discretion, should institute any legal action to secure payment of a delinquent account the defaulting purchaser shall pay all legal expense incurred by the auctioneer and such charges will be added to the amount owed.
6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that such claim is made in writing within 14 days from date of sale. If claim is not made within this period, no lots are returnable for any reason at any time. So long as we are notified within the 14 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$50.00.
7. Until paid for in full, all lots remain the property of Robert A. Siegel Auction Galleries, Inc. in behalf of the seller.
8. All forwarding charges will be added to the purchase price. The mode of shipment shall be at our option unless we are given specific instructions.
