## CONDITIONS OF SALE

1. The terms of sale are strictly cash on delivery to the highest bidder unless special arrangements have been made prior to the sale. The fact that an item is placed on extension (submitted to an expertising committee for certification) does not relieve the successful bidder from this condition of sale.
2. All bids are per lot as numbered in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots; to withdraw any lot or lots from the sale, or to act in behalf of the seller. The auctioneer shall regulate the bidding and in the event of any dispute his decision shall be final.
3. Any lot, the description of which is incorrect is returnable, but only within five days of receipt. All disputed lots must be returned intact as received. **The following lots may not be returned for any reason whatsoever: Lots containing ten or more stamps; Lots from buyers who have had the opportunity to examine them before the sale; Lots described as having defects or faults may not be returned because of any faults. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**
4. Successful bidders, unless they are known to us or supply acceptable references are expected to make payment in full before the lots are delivered. Mail bidders will be notified of the amounts of their purchases. All mail bidders who have established credit with us must make payment within three days after receipt. We reserve the right in our sole and absolute discretion to demand cash payment at the time a lot is knocked down to any bidder who has not previously established credit with us or whose account is in arrears. In the event any buyer refuses to pay cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to re-offer the lot immediately for sale to the highest bidder.
5. If the purchase price has not been paid within the time limit, nor lots taken up within seven days from date of sale they must be resold and any loss arising from such sale will be charged to the defaulter. Any account more than thirty days in arrears is subject to a late payment charge of 1½% per month so long as the account remains in arrears. If the auctioneer, in his discretion, should institute any legal action to secure payment of a delinquent account the defaulting purchaser shall pay all legal expense incurred by the auctioneer and such charges will be added to the amount owed.
6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that such claim is made in writing within 14 days from date of sale. If claim is not made within this period, no lots are returnable for any reason at any time. So long as we are notified within the 14 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$50.00. In the event an item is proved "not as described" it is returnable for full refund, and the buyer will be paid interest (at the prevailing Treasury Bill Rate) for the time his funds have been on deposit with us during the extension period.
7. Until paid for in full, all lots remain the property of Robert A. Siegel Auction Galleries, Inc. in behalf of the seller.
8. All forwarding charges will be added to the purchase price. The mode of shipment shall be at our option unless we are given specific instructions.
9. Lots may be sent for inspection to buyers known to us upon written application. All such lots must be returned to us by registered mail, adequately insured and within 24 hours after receipt. The applicant assumes all responsibility and will provide insurance against all risks from time of receipt until they are actually received back by us, and is to pay all expenses of postage and insurance. **No lots can be sent for inspection within ten days from date of local viewing. Large lots and collections cannot be sent for inspection.**
10. Agents are responsible for all purchases made in behalf of their clients unless other arrangements are made prior to the sale.
11. The placing of a bid shall constitute acceptance of the foregoing conditions of sale.

## FORWARD

Although, in recent years, our auctions have become high dollar volume sales reaching into the hundreds of thousands of dollars and more, we have not lost our appreciation of excellent smaller collections. A collection of this value might normally be expected to be a part of a larger sale, but this is an exception.

Although literature collecting has become a very popular facet of philately in recent years, it is gratifying to be able to offer a collection which was assembled with such obvious attention to quality and detail. I will be surprised if most of our U.S. collecting customers and many of our foreign collectors do not find some item of interest in this library sale.

Ed Hyers, as a professional philatelist, has assembled two separate libraries. One of these is his excellent working library, which he has, of course, retained, and the other is presented here. This library is one of the very finest literature collections that we have seen. Many items in this field are seldom seen. One reason is the fact that some of the most beautiful deluxe editions were produced in the years of the great depression, when good quality leather was not readily available. Because of this many of the bindings on surviving examples have deteriorated badly. This area is a typical example of the excellent approach that Ed Hyers has taken in building his collection. He has sought out the scarce and fine editions in the best condition. Being knowledgeable in the proper preservation methods of fine leather bindings, these editions have been beautifully cared for, as reflected in their condition in this library. Some of the custom bindings in this collection are absolutely stunning. Completeness is another area of concern to Mr. Hyers. His sections of specialized handbooks and important journals show great attention in this area. Another area of special attention has been to the government publications which are so important to the serious postal history researchers. There is great depth in the Government Registers and other Govt. publications relating to postal laws and regulations.

I might mention that Mr. Hyers' decision to offer his collection was based on a lack of space in his office which made further expansion difficult. Mr. Hyers' informs us that he has retained his working library which parallels much of the material in this collection.

I hope that you will find satisfaction in seeking out the volumes that you have been looking for, from this collection, as much as we take satisfaction in offering it to you. I wish to thank Mr. Hyers for his preparation of the text and evaluations of the lots in this sale.

Excellent scholarly articles by prominent students of the hobby. Since most serious collectors are familiar with the contents of the various issues, or have ready access to such information, we will dispense with reiterat-ing that information here. All are in vf condition.

#### HANDBOOKS

140. Ashbrook, Stanley B. "Ashbrook's Special Service": 1951-57, 658pp. An extremely fine original set with all original photographs, from the original subscription of Muri Kimmel, Kansas collector. Contained in ACCO binders which are housed in four very fancy full black calfskin boxes made by the prestigious Monastery Hill Bindery. The boxes are made to look like books and open to reveal the binders contained therein. The boxes are padded and have raised bands on the spines and have much gold leaf stamping. Accompanying this set is one box filled with original letters between Ashbrook and Kimmel, along with a number of color slides made by Ashbrook (including one of Marilyn Monroe nude, with a letter commenting on the slide). The letters comment candidly on many dealers and collectors and make interesting reading. Complete original sets are decidedly rare, with this one being especially choice in every regard. Original cost of subscription 25-31 years ago was \$700.00.

#### U.S. GOVERNMENT PUBLICATIONS- POSTAL REGISTERS

These publications are officially titled "A Register of Officers and Agents, Civil, Military and Naval, in the service of The United States, on the \_\_\_ Day of \_\_\_, 18--, Together with the Names, Force, and Condition, of All The Ships and Vessels Belonging to The United States, and When and Where Built". The 27 different editions in this library are custom bound in matching brown leatherette. Each bears the gold stamped title "United States Postal Register". Perhaps one may understand the abbreviated title. Actually, the vast majority of the content of each volume deals with the postal information. These volumes are among the finest sources of essential research information. All volumes are in fine condition or better. Several of these have dates one year earlier than they should, stamped on the spines due to a bindery error. Mentioned only for information since it has no effect on the worth or usefulness of a given volume. These are marked with \*.
