Conditions of Sale (Important—please read carefully)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. **The purchase price payable by the buyer will be the sum of the final bid and a commission of 10% of the final bid (“buyer’s premium”), together with any sales tax or use tax which may be due on the sale.**
2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.
3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum final bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve.** In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.
5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults” or “defects” may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**
6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. **The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. **Credit cards are not accepted as payment.**

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. **Any lot which is accompanied by an expert certificate (for U.S. items, the accepted authority is The Philatelic Foundation), dated within the past five years of the sale date, is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion obtained after the sale.** Buyers who wish to obtain a certificate for any item that is not accompanied by a certificate dated within the past five years may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to \$100.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs (see back of Bid Form).

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grading Terms, Abbreviations and Values Used in Descriptions

Grade and Centering

Margin width, centering and gum are graded according to Scott Catalogue standards.

Extremely Fine (EF): Exceptionally large margins or near perfect centering. The term “Gem” describes condition that is the finest possible for the issue.

Very Fine (VF): Normal size margins for the issue and well-centered with the design a bit closer to one side.

Fine (F): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (VG): Attractive appearance, but margins or perforations cut into the design.

Good (G) or Average (Ave.): Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

Gum Categories:	MINT N.H.	ORIGINAL GUM (O.G.)				NO GUM
	 Mint Never Hinged <i>Free from any disturbance</i>	 Lightly Hinged <i>Faint impression of a removed hinge over a small area</i>	 Hinge Mark or Remnant <i>Prominent hinged spot with part or all of the hinge remaining</i>	 Part o.g. <i>Approximately half or more of the gum intact</i>	 Small part o.g. <i>Approximately less than half of the gum intact</i>	 No gum <i>Only if issued with gum</i>

PRE-1890 ISSUES	<i>Pre-1890 stamps in these categories trade at a premium over Scott value</i>			Scott Value for “O.G.”		Scott “No Gum” Values thru No. 218
1890-1935 ISSUES	Scott “Never Hinged” Values for Nos. 219-771	Scott Value for “O.G.” (Actual value will be affected by the degree of hinging)		Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

- 1136 ★ **1c Blue, Ty. II, Triple Transfer, One Inverted (7 var).** Position 91L1E, original gum, large margins with huge **bottom left corner sheet margins**, diagonal crease that has little impact on the beautiful appearance of this stamp

EXTREMELY FINE APPEARANCE. AN OUTSTANDING AND RARE ORIGINAL-GUM EXAMPLE OF THE 1851 ONE-CENT WITH TRIPLE TRANSFER, ONE INVERTED, FROM PLATE 1 EARLY.

The three inverted transfers occurred during the making of Plate 1 Early. Positions 71L, 81L and 91L were entered from the three-subject transfer roll in the spaces where the first three entries had been made and erased (but not fully erased). The three entries that were erased were made in the upper corner left corner of the plate (which would produce 10R, 20R and 30R). The plate was turned 180 degrees before starting fresh entries from the transfer roll. Why this was done is not known. Position 91L was re-entered a third time on Plate 1 Early, creating the triple transfer (two upright, one inverted) evident on this stamp.

Please refer to Neinken book (pp. 166-170) for an extensive discussion of the Triple Transfer, One Inverted varieties..... 1,500.00

EXTREMELY FINE. AN OUTSTANDING EXAMPLE OF THE PERFORATED ONE-CENT TYPE IIIa FROM PLATE 11.

Plates 11 and 12 were probably made in June 1860, with less than six months left in Toppan, Carpenter's contract. The earliest known use from either plate is January 1861, a relatively short time before the stamps were demonetized. New transfer rolls were created to lay out plates 11 and 12. Three types are known from these plates: Type I (Scott 18 — Plate 12 only), Type II (Scott 20) and Type IIIa (Scott 22).

As illustrations of stamps from Plate 11 and 12 in the Neinken book show, the centering and impressions of stamps from Plates 11 and 12 was rather poor (*"Poor perforating was the rule rather than the exception"* — Neinken book, p. 473). The stamp offered here, with bright color, unusually wide margins at sides and with design completely free and clear of the perforations at both top and bottom, is truly a remarkable stamp.

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 30-CENT 1860 ISSUE.

Although some sheets of the 24c, 30c and 90c 1857-60 Issue were left in the public's hands after the Civil War demonetization took effect, original-gum examples of the 30c in Extremely Fine grade are extremely rare, owing to the narrow space between subjects on the plate and the difficulty experienced by Toppan, Carpenter with the first perforated issue. This stamp is extraordinary in three respects: first, it is perfectly centered with the design framed by white margin on all sides; second, it is very lightly hinged; and, third, the color is brilliant and free of any oxidation that frequently plagues this issue.

For this reason genuinely cancelled copies are extremely rare. Approximately 180 used examples have been certified by the Philatelic Foundation, of which only one-quarter are sound.

A FINE AND RARE SOUND EXAMPLE OF THE SHORT-LIVED 90-CENT 1860 ISSUE IN USED CONDITION.

The 90c saw limited use partly due to the rates in effect, but more because of the American Civil War. When supplies of current postage stamps were declared invalid in the South and ultimately demonetized by the Federal government, the 90c had been in use for only one year. For this reason, genuinely cancelled copies and covers bearing the 90c are extremely rare. Approximately 180 used examples have been certified by The Philatelic Foundation, of which only one-quarter are sound. - 1315 ★ **2c Black, D. Grill (84).** Original gum, lightly hinged, clearly-defined grill, faint trace of lightened stain at top center which is negligible in a stamp of this rarity

VERY FINE. AN EXCEEDINGLY RARE ORIGINAL-GUM EXAMPLE OF THE 1868 2-CENT D GRILL.

As a thorough search of past auction catalogues shows, the 2c D Grill in original gum condition is conspicuously absent from most important collections. The finest examples are contained in the intact block of four, ex Caspary, Lilly and Klein. The stamp offered here, with full original gum and with perforations clear of the design on all four sides, is a rarity of the highest order.

- 1323 (★) **2c Black, Z. Grill (85B).** Unused (no gum), extraordinarily choice centering and margins, sharp grill and proof-like impression, intense shade, two small sealed tears, Very Fine appearance, the ideal example of this scarce issue for the collector who appreciates appearance over perfect condition..... 3,500.00

1324

1324

2c Black, Z. Grill (85B). Perfectly centered with unusually wide even margins, proof-like impression, clear and well-defined grill, bold **red** segmented cork cancel, remarkably fresh

EXTREMELY FINE GEM. A SPECTACULAR COMBINATION OF CENTERING AND CANCELLATION RARELY SEEN AMONG EXAMPLES OF THE 1868 2-CENT BLACK JACK Z GRILL.

The plates used to print the Black Jacks did not provide enough space between subjects for the large 12-gauge perf holes. Consequently, most Black Jack stamps have perfs touching the design on one or two sides. This scarcity of four-margined copies multiplies exponentially when the Z Grill is factored into the equation. Only a small quantity of 2c sheets were grilled during the period when the Z device was active — after the D Grill, the Z is the rarest of Black Jack grilled stamps.

1326

3c Rose, Z. Grill (85C). Fresh color on bright paper, clearly defined grill, sharp impression, unusually wide margins for this stamp, sharp impression, cork cancel with shield-like design

EXTREMELY FINE. A BEAUTIFUL EXAMPLE OF THE RARE 1868 3-CENT Z GRILL.

An examination of auction catalogues containing the 3c Z grill reveals that most examples are poorly centered, with perforations either touching or in on at least one side. The example offered here has unusually wide margins for this issue.

EXTREMELY FINE GEM. THE 15-CENT 1869 TYPE I IS VERY RARE IN THIS CHOICE ORIGINAL-GUM CONDITION. A SPECTACULAR STAMP AND CERTAINLY ONE OF THE FINEST KNOWN.

The 15c Type I comes from the first 1869 printing; in May 1869 the 15c went to press using the second frame plate, which produced Type II. In a condition census, both Type I and II would show similar numbers known in the top tier of original-gum condition — probably 8 to 10 of each. However, Type I is generally a rarer stamp and carries a much higher Scott Catalogue value. Very few of this quality have been offered in years, and we anticipate vigorous competition.

VERY FINE. A RARE EXAMPLE OF THE 3-CENT 1869 PICTORIAL RE-ISSUE WITH ORIGINAL GUM

Original sales figures show that among the 1869 Pictorial Re-Issues, the 3c and 90c stamps accounted for the smallest number sold (1,406 and 1,356, respectively). Overall, the 1869's were popular with stamp collectors, far outselling the 1851-60 and 1861-66 Re-Issue sets. However, the 90c stamp's high denomination and the availability of ordinary 3c stamps limited demand. Today, both are rare, and handling over the years has not been kind to most of the surviving examples.

EXTREMELY FINE. THE 15-CENT 1873 CONTINENTAL IS ONE OF THE MOST ELUSIVE BANK NOTE ISSUES IN THIS GRADE OF ORIGINAL-GUM CONDITION.

Although defined by a secret mark, the 15c Continental, Scott 163, is very difficult to distinguish from its National counterpart, Scott 152. Certain shades and impressions of the 15c Continental closely match certain National printings, and the secret mark is often undetectable. However, the stamp offered here has what we believe are characteristics unique to Continental's work. The shade is very bright and yellowish. The secret mark in the upper left triangle is also prominently featured in this impression. There is simply no question that this is a 15c Continental. Collectors who have searched for a well-centered Scott 163 with original gum know how rare it is in such condition. Off-center stamps are the norm, and original gum is a rare commodity in this issue. The same can be said for the 30c Continental, Scott 165, and we sold one of those for \$25,000 hammer in our Sale 826 (versus \$1,750 catalogue value).

EXTREMELY FINE GEM. EASILY ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE 30-CENT 1873 CONTINENTAL PRINTING IN EXISTENCE. A SUPERB STAMP IN EVERY RESPECT.

Lost among the 1870 National Grilled and Ungrilled Issues, 1875 Continental and 1880 American Bank Note Special Printings, and the 1879 and 1888 American Issues is the 30c 1873 Continental printing. Scott 165 is distinguished from its National counterpart by shade and the shape of the perforations, and from its 1879 American counterpart by paper. Many philatelists — even intermediate and advanced collectors — have difficulty classifying Scott 165. When it comes to naming the most elusive Bank Note stamps in choice original-gum condition, the 30c 1873 is often overlooked. However, go to any serious collection and look for this stamp, and most of the time it is missing or represented

by something that compromises quality. The 30c 1870 is frequently found filling the space for Scott 165. The 30c Continental is *extremely rare* in any original-gum condition that approaches this example. Blocks have always been rare — for example, Caspary did not have one; Lilly had one well-centered block of four and an off-center block of six (offered in the following lot) — which means that singles could not be harvested from multiples. Our analysis of the rarity of this stamp is confirmed by the \$21,000 hammer realization for a superb example in our 2000 Rarities sale, and \$25,000 hammer for a similar copy in our Sale 826. We hope that collectors who still have a tendency to overlook the 30c Continental will be awakened to its rarity in Extremely Fine original-gum condition by our comments and recent realizations.

The Klein collection also contained a left sheet margin block of six, with visible gum soaks. Lining up the perforations, it is probable that these two once formed a block of twelve. As a measure of its scarcity, none was offered in either the Caspary or Braus sales.

EXTREMELY FINE GEM EXAMPLE OF THE 50-CENT 1894 UNWATERMARKED BUREAU ISSUE.

The unwatermarked 1894 Issue was the Bureau of Engraving and Printing's first effort producing postage stamps. As collectors know only too well, the 1894 unwatermarked stamps are typically poorly centered with irregular perforations. Issued quantities of the higher values on unwatermarked paper were small — only 175,330 of the 50c, compared to 244,110 of the 30c 1869 — and collectors have hinged most of the supply in philatelic hands. This 50c stamp has margins and centering rarely seen on *any* copy, used or unused, and its Mint Never-Hinged condition elevates it to the top of its class.

In his three-volume work on 19th Century United States stamps, Lester G. Brookman wrote the following about the 50c 1894 Issue: "There are few, if any, of the 19th century U.S. stamps that are so difficult to find in superb used condition as is this stamp. The price for commercial copies of this stamp can well be multiplied by 10 and the buyer of a superb copy of this stamp at such a price can rejoice in the fact he has a bargain!" Brookman's comments apply equally to 50c stamps with original gum and actually understate the value of a Mint Never-Hinged example.

EXTREMELY FINE EXAMPLE OF THE \$2.00 1894 UNWATERMARKED BUREAU ISSUE — VERY RARE IN THIS QUALITY.

The 1894 unwatermarked issue was the first U.S. stamp issue printed by the Bureau of Engraving & Printing. Given the Bureau's lack of experience, production was marred by problems, especially perforating problems, as they worked diligently to meet the public's immediate need for stamps. The \$2.00 is one of the rarest of the set in this original-gum condition and choice grade.

VERY FINE. AN EXCEEDINGLY RARE ORIGINAL-GUM EXAMPLE OF THE 6-CENT 1895 ISSUE WITH USIR WATERMARK. ONLY FOUR SINGLES AND A PAIR HAVE BEEN CERTIFIED AS GENUINE WITH ORIGINAL GUM BY THE PHILATELIC FOUNDATION.

The 6c USIR Watermark is considerably rarer than the 8c, especially in original-gum condition. The P.F. records contain only four singles. Of these, one has perfs touching the design at top, and one is also very close on one side. The pair with original gum in the P.F. records is a top sheet margin horizontal pair, with part of the imprint above the left stamp. Please refer to lot 337 in the Twigg-Smith catalogue (Sale 835) for census information on used copies.

EXTREMELY FINE AND CHOICE BLOCK OF FOUR OF THE \$2.00 1895 WATERMARKED BUREAU ISSUE.

Given the demand for choice original-gum singles, very few Extremely Fine blocks of the Bureau Issue dollar values have survived. This \$2.00 block is a remarkable survivor and one of the keys to completing a set of blocks.

- EXTREMELY FINE GEM. A SUPERB TOP IMPRINT AND PLATE NUMBER BLOCK OF THE 10-CENT TRANS-MISSISSIPPI — AN ELUSIVE KEY TO COMPLETING A SET OF TRANS-MISSISSIPPI PLATE BLOCKS.

The Scott Catalogue value for a 10c Mint N.H. single is \$340.00 versus \$180.00 for hinged (89% premium), yet the plate block of four is valued at \$3,100.00 for Mint N.H. versus \$1,900.00 for hinged (63% premium). There is no question that Mint N.H. condition is far rarer among plate blocks, and, therefore, it seems the Scott premium does not accurately reflect the value of a Mint N.H. plate block. For the collector assembling a superb set of Mint N.H. Trans-Mississippi plate blocks, the opportunity to acquire a 10c top plate should not be missed..... 3,100.00

EXTREMELY FINE GEM PLATE NUMBER BLOCK OF THE 50-CENT TRANS-MISSISSIPPI ISSUE.

It is common knowledge among collectors that the 50c Trans-Mississippi (along with the \$2.00) is very difficult to find in choice centered condition. However, the rarity factor multiplies exponentially when applied to plate blocks. This superb bottom plate block of four with two Mint N.H. stamps is without question one of the finest in existence.....

- 1773 ★★ **\$1.00 Trans-Mississippi (292).** Mint N.H., deep shade and sharp impression, perfectly centered with wide balanced margins, remarkably fresh

EXTREMELY FINE GEM. A SPECTACULAR MINT NEVER-HINGED EXAMPLE OF THE \$1.00 TRANS-MISSISSIPPI ISSUE, WIDELY REGARDED AS THE MOST BEAUTIFUL UNITED STATES COMMEMORATIVE STAMP EVER ISSUED.

The \$1.00 Trans-Mississippi's long-time popularity with collectors led to hinging of the vast majority of singles. Although blocks have been broken over the years to supply Mint N.H. singles, it seems that grading is always a compromise between perfect centering and margin width. Only in a few instances do we find the combination of Mint N.H. condition, Extremely Fine Gem centering and wide balanced margins. This stamp is one of those extremely rare examples of everything that could be desired.

EXTREMELY FINE GEM. AN EXCEPTIONALLY CHOICE MINT NEVER-HINGED \$2.00 TRANS-MISSISSIPPI — ONE OF THE MOST ELUSIVE OF ALL COMMEMORATIVES IN THIS SUPERB QUALITY.

The \$2.00 is widely recognized as the most challenging of the Trans-Mississippi Issue to obtain in Extremely Fine grade in any condition (Mint N.H. hinged or used). With the break-up of the ex-Weill block of ten, a few Extremely Fine Mint N.H. singles reached the market in the early 1990's. However, we know of no other *imprint* single in Mint N.H. condition with centering that even approaches the precision of this stamp. The Scott premium for Mint N.H. — \$4,250.00 versus \$2,100.00 — is too conservative for ordinary singles, in our opinion. For an imprint single of this quality, we expect it will be meaningless to collectors.

EXTREMELY FINE. AN OUTSTANDING MINT NEVER-HINGED EXAMPLE OF THE 50-CENT 1902 ISSUE WITH RARELY-SEEN WIDE MARGINS AND PERFECT CENTERING.

The 1902-03 Issue showed marked improvement over the Bureau's first efforts in 1894 and 1895. Perforations tend to be cleaner, and centering better, but the large plate layout and perforating method still resulted in a large number of poorly-centered stamps. Furthermore, stamps issued in choice condition were hinged by avid philatelists during the stamp collecting boom that began with the Roosevelt administration. For this reason, today's collectors have grown accustomed to paying many multiples of Scott value for Extremely Fine Mint Never-Hinged stamps. Anyone who has pursued this set can testify that the 50c is rarely encountered in such condition.

EXTREMELY FINE GEM. A SUPERB MINT NEVER-HINGED EXAMPLE OF THIS RARE ROTARY-PRESS PRINTING. AN EXCEEDINGLY DIFFICULT STAMP TO FIND IN SUCH CONDITION.

At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was left over that was too short for rolling into 500-stamp rolls. In 1919, the Bureau devised a plan to salvage this waste by converting the stamps from coil stamps into sheet stamps. This was accomplished by cutting the sheets into panes and putting the panes through the flat-plate perforator in use at the time, giving the stamps perforations on all sides.

Since Scott 539 was put through two different perforating machines of differing gauges at different times, most of the stamps are off-center. The stamp offered here is a true condition rarity by virtue of its centering, margins and Mint N.H. state.

VERY FINE CENTERING AND WONDERFULLY FRESH EXAMPLE OF THE FAMOUS 1918 24-CENT INVERTED JENNY.

According to *Jenny!* by George Amick (Amos Press, 1986), the original sheet of 100 inverted "Jenny" stamps was purchased by William T. Robey on May 14, 1918, one day after the stamp was placed on sale. Robey bought the sheet at the New York Avenue Post Office window in Washington, D.C. Soon after, the sheet was sold to Col. Edward H. R. Green through Eugene Klein, a Philadelphia stamp dealer. Green paid \$20,000 for the sheet, then instructed Klein to divide it into singles and blocks, and to sell all but a few key position blocks.

Stamp specialists and professionals know that examples of this stamp exist in different grades of freshness and condition. Despite their rarity and value, many of the original 100 stamps were mistreated by collectors during the years. Colonel Green himself allowed moisture to affect some of the stamps he retained. Other examples have become slightly toned from improper storage and climatic conditions. Hinging has caused thins and creases in numerous stamps, and at least seven have been "lost" to philately — or nearly so as in the case of the copy swept up in a vacuum cleaner.

The stamp offered here is beautifully centered and remarkably fresh. Earlier in its history this stamp was described as having a "tiny gum thin", and the Philatelic Foundation issued certificate 55645 in the 1970's describing a "small thin spot". Even in fluid, the stamp shows no evidence of a thin, and it is possible that the earlier P.F. opinion was influenced by the presence of a hinge remnant, which has since been removed. In 1999 the P.S.E. service certified it as sound. It is offered here on the basis of our full disclosure of its history and may not be returned if the Philatelic Foundation reaffirms the presence of a thin spot.

With 1999 P.S.E. certificate..... 170,000.00

EXTREMELY FINE. ONE OF THE FINEST OF THE FEW KNOWN EXAMPLES OF THE ONE-CENT POSTAGE DUE SPECIAL PRINTING.

The 1c, 2c and 3c are undoubtedly the rarest values of the American Bank Note Co. Postage Due Special Printings, although the sold quantities in the official records are relatively high. William E. Mooz, in an article on the 1c appearing in *Chronicle* No. 170, May 1996, offers evidence to support his theory that the actual number of true Special Printings sold was significantly lower than the reported figures. For the 1c, Mooz estimates 500 sold, but it is possible that as many as 400 purchased by G. B. Calman were destroyed. It is widely accepted that nearly 9,000 1c stamps sold as Special Printings were actually regular issues.

It is unlikely that any other 1c Special Printing surpasses the quality of this superb original-gum stamp.
