FINE APPEARANCE. AN EXTREMELY RARE ORIGINAL-GUM EXAMPLE OF THE 1857 ONE-CENT BLUE TYPE Ia.

Type Ia was produced by only 18 of the 20 bottom-row positions on Plate 4. Although Plate 4 was designed with sufficient space to accommodate perforations, the height of the top row and bottom row positions resulted in the perforations often cutting into the design at either top or bottom. For this reason, stamps from the bottom row of Plate 4 with perforations clear of the design are especially desirable, since the characteristics of the type is complete (Type Ia) or nearly complete (Type Ic) at bottom. The stamp offered here, with original gum, should be considered a great rarity.

VERY GOOD. A RARE AND PRESENTABLE ORIGINAL-GUM EXAMPLE OF THE 1868 2-CENT D GRILL.

The device equipped with the D Grill was refitted with the E Grill on or about February 9, 1868. Based on the earliest known usages of the 2c D Grill (2/15/68) and 3c E Grill (2/12/68), it is our theory that the conversion from the D to E Grill took place only a day or so after sheets of 2c stamps were first run through the D-equipped machine. The great rarity of 2c D Grills, relative to all other regular-production grills, bears out this theory.

EXTREMELY FINE. A GORGEOUS USED EXAMPLE OF THE 90-CENT F. GRILL WITH BRIGHT BLUE COLOR AND A RED CANCEL ON FRESH WHITE PAPER.

The 90c stamps used to make grilled issues were printed on a thick stock of paper. It is likely that sheets remaining from the pre-grill period were used and that the thinner paper introduced in 1868 had not been used for the 90c value. Two characteristics of 90c F Grill stamps are poorly punched perforations and generally bad centering. This stamp is a remarkable exception, because the perfs are much better formed and the centering is superior than usually found. In addition, this stamp possesses the added features of rich color, a colored cancel and fresh paper.

VERY FINE. AN OUTSTANDING AND EXTREMELY RARE OCEAN LINE COVER TO GERMANY WITH THE 1847 ISSUE.

The United States postal reforms of 1845 set in motion the post office's efforts to establish a subsidized American transatlantic mail line with regular routes to and from Europe. The creation of the Ocean Steam Navigation Company and successful negotiation of the U.S.-Bremen postal treaty of 1847 were consequences of this long and involved process, the history of which has been (and continues to be) documented by students here and abroad. An excellent series of articles on the subject, including research by Wolfgang Diesner and Richard F. Winter, has appeared in *The Chronicle* (Whole Nos. 126, 129, 149 and 159), which updates earlier published work by George E. Hargest (copies of these excerpts are provided with this lot).

Covers carried by the Ocean Line are surprisingly scarce, and we are aware of only two such covers franked with 1847 stamps — the other is the celebrated "Heidelberg" cover, which realized \$210,000 hammer in our 1999 Rarities sale. The "Heidelberg" cover and the cover offered here were carried on the same voyage of the *Washington*.
