VERY FINE. THIS IS THE LONG-LOST PROOF BLOCK FROM THE BOTTOM OF THE RIGHT PANE, THE RE-EMERGENCE OF WHICH PROVES THAT THE MAJOR DOUBLE TRANSFER COMES FROM POSITION 92R.

In our sales of the Hall and Johnstone collections, we featured examples of the double transfer in the "Cents" label. However, specialists have never been able to assign the double transfer to a specific position, because the large proof multiples were always from the other three quadrants of the plate of 200. EXTREMELY FINE. A BEAUTIFUL EXAMPLE OF THE 5-CENT NEW YORK POSTMASTER'S PROVISIONAL ON BLUE WOVE PAPER.

In *The New York Postmaster's Provisional*, Stanley Piller cites Luff's statement that the last printing of the New York provisional took place on January 7, 1847, when 100 sheets were delivered. Piller also conveys Philip Wall's belief that most if not all of the stamps on Gray (Scott 9X3) and Blue (Scott 9X2) papers come from this last printing, as all the known covers are used after that date.

EXTREMELY FINE GEM. A MAGNIFICENT ORIGINAL-GUM EXAMPLE OF THE IMPERFORATE ONE-CENT TYPE IIIA. SUPERB IN EVERY RESPECT.

Stamps printed from Plate 4 were issued in April-June 1857 before perforations were introduced. The relatively small number of imperforate Plate 4 stamps issued during this period explains the rarity and desirability of any of the imperforate stamp types produced from this plate.

The Type IIIa from Plate 4 with original gum is extremely rare. We have offered only three examples in the past ten years in comparable condition: 1.) ex Golin with part imprint (Sale 812, lot 4, realized \$23,000 hammer); 2). Sale 824, lot 96, realized \$12,500 hammer); and 3). Sale 836, lot 1142, realized \$23,000 hammer.

- 270 ★ **5c Brown Yellow (67a)**. Original gum, lightly hinged, beautiful brilliant shade and impression on bright paper, a very early printing with fine detail of background and lathework clearly visible, choice centering

EXTREMELY FINE. THE 1861 5-CENT BROWN YELLOW IS ONE OF THE RAREST STAMPS OF THE 1861-66 ISSUE IN SOUND ORIGINAL-GUM CONDITION — IT IS UNLIKELY THAT MORE THAN A DOZEN EXAMPLES EXIST AS SUCH. THIS STAMP — WITH ITS LIGHTLY HINGED ORIGINAL GUM AND BRILLIANT COLOR — IS AMONG THE MOST ATTRACTIVE WE HAVE EVER ENCOUNTERED.

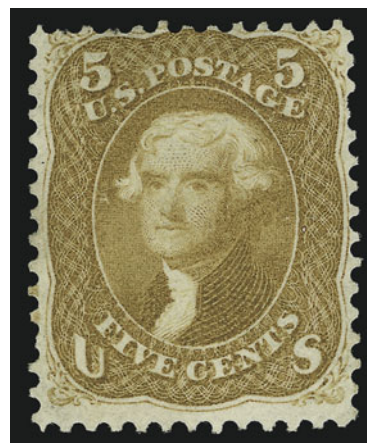

Our sales during the past few years have contained a number of original-gum 1861-66 Issues, and we have made frequent reference to the rarity of these stamps in such choice condition. The 5c Brown Yellow and its shade varieties (Buff and Olive Yellow) are recognized as the rarest of 1861-66 Issue stamps in sound original-gum condition. Perhaps the only shade varieties rarer than the 5c Brown Yellow are the 3c Pigeon Blood Pink and 24c Blackish Violet (Scott 64a and 78c).

EXTREMELY FINE GEM. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 10-CENT 1861 WITH DOUBLE TRANSFER IN "TAG" OF "POSTAGE". AN EXTREMELY SCARCE STAMP IN THIS QUALITY.

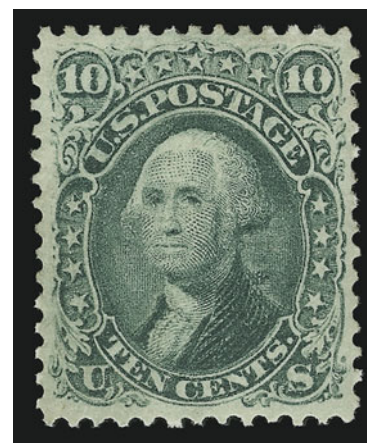

The increased awareness of the rarity of 1847 to 1879 issues in superb original-gum condition has elevated many valuations for issues with modest Scott values. The 1861-66 issues are prime examples of this trend. This 10c 1861 has a Scott value of \$925. yet one would be challenged to locate more than a few examples with original gum, choice centering and rich color, the characteristics that make this stamp so extraordinary.

The 24c 1861 exists in four basic shades of Violet: Dark Violet (August 1861 trial printing, formerly Scott 60); Violet on Thin Paper (August-September 1861 regular issue, Scott 70c — the shade offered here); Pale Gray Violet (1861 regular issue, Scott 70d) and Blackish Violet (ca. 1863 printing, Scott 70c).

EXTREMELY FINE GEM. A GORGEOUS ORIGINAL-GUM EXAMPLE OF THE 90-CENT 1861 ISSUE. RARE IN THIS SUPERIOR GRADE.

In our opinion, the gum on this stamp is Mint Never Hinged. The gum is evenly applied and does not show a single blemish or surface irregularity to indicate it is previously hinged, even under high magnification. This stamp also features superior centering, color and impression. Many of our previous catalogues have noted the rarity of 1861-66 Issues in Extremely Fine original-gum condition, and realizations have supported our assessment. This stamp unquestionably ranks among the finest known, and it is a strong candidate for being the finest known example of the 90c 1861. If the P.F. would confirm our opinion that the gum is Mint Never Hinged, this stamp would probably fetch \$40,000 or more.

 EXTREMELY FINE. A REMARKABLY FRESH AND ATTRACTIVE EXAMPLE OF THE 3-CENT SCARLET TRIAL PRINTING FROM THE ROTHFUCHS GROUP.
 As has been documented by Jerome S. Wagshal in a series of *Chronicle* articles (Nos. 56, 60, 61 and 62), Carl F. Rothfuchs, a Washington D.C. stamp dealer, obtained a supply of the 3c Scarlet in 1893 — probably from the Post Office Department in exchange for his assistance with the Columbian Exposition — and sold them with pen marks and original gum. The Rothfuchs lot is not from the same supply acquired by John W. Scott in the late 1870's, from which stamps exist uncanceled and cancelled with a New York City Station D oval.

EXTREMELY FINE GEM. AN OUTSTANDING ORIGINAL-GUM EXAMPLE OF THE 1863 5-CENT BROWN.
The presence of a sheet margin is a strong indication that this stamp was not mounted in a collector's album with a hinge, but was part of a multiple that reached the philatelic market. A careful examination of the gum reveals no evidence of a previous hinge. In particular, the upper right and lower right corners, where a hinge might be expected on a block, are pristine. It is disappointing that the P.F. will not affirm this stamp's Mint N.H. condition, but we can say without hesitation that it is one of the finest known examples of the 5c 1863 Brown extant, and in our opinion, it is Mint N.H.

As a thorough search of past auction catalogues shows, the 2c D Grill in original-gum condition is conspicuously absent from most important collections. The finest examples are contained in the intact block of four, ex Caspary, Lilly and Klein. The stamp offered here, with full original gum and with perforations clear of the design on all four sides, is a rarity of the highest order.

EXTREMELY FINE GEM. APART FROM THE A AND Z GRILL RARITIES, THE 2-CENT 1868 D GRILL IS THE RAREST OF ALL GRILLED ISSUES. PROBABLY FEWER THAN TEN COPIES EXIST IN THIS SUPERB CONDITION.

The device equipped with the D Grill was refitted with the E Grill on or about February 9, 1868. Based on the earliest known usages of the 2c D Grill (2/15/68) and 3c E Grill (2/19/68), it is our theory that the conversion from the D to E Grill took place only a day or so after sheets of 2c stamps were first run through the D-equipped machine. The great rarity of 2c D Grills, relative to all other regular-production grills, bears out this theory.

EXTREMELY FINE GEM. AMONG THE FINEST EXISTING USED EXAMPLES OF THE 1868 2-CENT Z GRILL. AN OUTSTANDING STAMP IN EVERY RESPECT.

If this stamp was an ungrilled 2c Black Jack, it would merit the highest rank among used examples. The plates used to print these stamps failed to provide enough space between subjects for the large 12-gauge perf holes. Consequently, most Black Jack stamps have perfs touching the design on one or two sides. This scarcity of centered copies multiplies exponentially when the Z Grill is factored into the equation. Only a small quantity of 2c sheets were grilled during the period when the Z device was active — after the D Grill, the Z is the rarest of Black Jack grilled stamps — and discriminating collectors are well aware of the rarity of well-centered examples of Scott 85B. This stamp's centering and margin width both far exceed the standard of the issue.

- EXTREMELY FINE AND CHOICE. A RARE WELL-CENTERED EXAMPLE OF THE 5-CENT F GRILL ON THIN PAPER.

The National Bank Note Co. undoubtedly made various attempts to improve grilling quality and efficiency through modifications in the process. Based on surviving stamps, it appears that one modification involved the use of very thin paper, which probably allowed two or more sheets to be grilled in one pass through the grilling device. The 1c (F), 2c (E and F), 3c (E and F), 5c (F), 10c (F), 12c (F) and 15c (F) are found on this very thin paper. They are scarce, particularly the 5c-15c values.

EXTREMELY FINE GEM. THIS STAMP IS BREATHTAKINGLY BEAUTIFUL — A COMBINATION OF PERFECT CENTERING AND FLAWLESS CONDITION, THE STRIKING PORTRAIT OF A YOUTHFUL GENERAL WASHINGTON AND COLORFUL CANCELLATIONS — UNLIKE ANY OTHER 90-CENT F GRILL WE HAVE ENCOUNTERED.
The 90c stamps used to make grilled issues were printed on a thick stock of paper. It is likely that sheets remaining from the pre-grill period were used and that the thinner paper introduced in 1868 had not been used for the 90c value. Two characteristics of 90c F Grill stamps are poorly punched perforations and generally bad centering. This stamp is a remarkable exception. The perfs are much better formed than usual (although they show the genuine characteristics) and the centering is mathematically precise. In this stamp there is the added feature of color. Red cancellations are sometimes seen on the 90c, applied at New York City to supplementary mail, but blue is an extremely unusual color.

Only 397 examples of the 15c 1866 Re-Issue were sold in 1875. Collectors have quickly learned to appreciate the rarity of 1861-66 Re-Issues in Extremely Fine original-gum condition. It is generally accepted that the 3c, 24c and 30c are the most difficult of the series to obtain in the highest grades. We would also place the 15c in that group. This stamp — with its choice centering, original gum, intense shade and overall brilliance — ranks among the finest examples extant.

EXTREMELY FINE GEM. THE 15-CENT 1869 TYPE I IS VERY RARE IN THIS CHOICE ORIGINAL-GUM CONDITION. A SPECTACULAR STAMP AND CERTAINLY ONE OF THE FINEST KNOWN.

The 15c Type I comes from the first 1869 printing; in May 1869 the 15c went to press using the second frame plate, which produced Type II. In a condition census, both Type I and II would show similar numbers known in the top tier of original-gum condition — probably 8 to 10 of each. However, Type I is generally a rarer stamp and carries a much higher Scott Catalogue value. Very few of this quality have been offered in years, and we anticipate vigorous competition.

EXTREMELY FINE GEM. A SUPERB STAMP WITH REMARKABLY CHOICE CENTERING. THE 30-CENT 1869 PICTORIAL IS ESPECIALLY RARE IN ORIGINAL-GUM CONDITION.

Our experience with the 1869 Pictorial Issue has shown that the 30c with grill (as opposed to Scott 121a without grill) is extremely rare in well-centered original-gum condition. Centering seems to be a challenge in this issue, and our best estimate is that 12 to 15 of the 30c exist in Extremely Fine grade with original-gum.

EXTREMELY FINE GEM. ONE OF THE FINEST OF THE 22 EXAMPLES OF THIS STAMP RECORDED IN OUR CENSUS.

This elusive Special Printing was the subject of an informative article by William E. Mooz in the *Chronicle*, February 1992. His research provides strong evidence that the stamps recognized as Scott 205C are a small part of the 2,463 sold as Special Printings through the Third Asst. PMG, and that regular issues were used to fill the backlog of orders for the 5c Garfield.

Our census of this issue available at <http://siegelauctions.com/enc/census/205c/205c.htm> illustrates the 22 known copies.

EXTREMELY FINE GEM. THIS MINT NEVER-HINGED EXAMPLE OF THE \$2.00 COLUMBIAN RANKS AMONG THE TWO OR THREE FINEST KNOWN.

Typically, when a collector assembles an Extremely Fine, Mint Never-Hinged set of Columbians, the \$2.00 space remains empty to the very end due to the low supply and high demand. It is simply one of the rarest stamps of the set in this condition. The Zoellner collection sold by the Siegel firm had a lightly hinged stamp. The Weisman collection had a Mint N.H. stamp, but it was not centered, and the Lyons collection had a *used* \$2.00. The Scott value of \$3,500.00 for a Mint N.H. stamp (in Very Fine grade) does not begin to reflect the true rarity of such examples.

EXTREMELY FINE GEM. A SUPERB EXAMPLE OF THE \$1.00 PERF 10 UNWATERMARKED FRANKLIN ISSUE IN THE FINEST CONDITION ATTAINABLE.

This stamp was used for less than six months before the Perf 11 stamps were produced. Due to its short production run and the only difference between this and the previous \$1.00 issue (Scott 460) being the watermark, many collectors and dealers of the day overlooked this issue. It is especially scarce with such perfect centering.

EXTREMELY FINE GEM. A WONDERFUL MINT NEVER-HINGED EXAMPLE OF THE 2-CENT DEEP ROSE. A TRUE CONDITION RARITY.

The Type Ia Scott 500 was created during an experiment of the Bureau in creating a new type of transfer roll. A die was made from the old Type I transfer roll, having ten impressions on it. A new transfer roll was then made, using the new ten-impression master die. This new transfer roll was then used to create two new plates. Since this is essentially a "lossy" process, there are some noticeable differences between the plates created using this method and the old method of using one die impression to create the transfer roll.

FINE APPEARANCE. A RARE ORIGINAL-GUM EXAMPLE OF THIS MAJOR 20TH CENTURY RARITY. VERY FEW ARE KNOWN UNUSED.
A small quantity of 1c Rotary Press stamps was perforated 11 gauge at the end of 1922, using remainder sheets from the earlier printings that were normally perforated in 10 gauge or 11/10 compound gauge. Its existence as a Perf 11 variety was discovered in 1936, and the stamp received its Scott Catalogue listing in 1938.
Most of the recorded copies of Scott 544 are off-center or have been damaged — the result of poor production standards and mis-handling.

As collectors who have sought this issue know, the rotary press printings from 1919 to 1921 are very difficult to find with choice centering. When a well-centered copy does present itself, the margins are usually small. The stamp offered here, with extra wide margins all around, is a rare and striking anomaly.

The 1894 series, being the first printed by the Bureau, encountered many production problems. Most stamps were poorly centered and have small margins. The margin width and centering of this Mint Never-Hinged stamp are truly extraordinary.

POSTAGE DUE

1296

1296 ★ **3c Deep Brown, Special Printing (J10).** Part original gum, beautiful rich color, remarkably well-centered on bright white paper, small crease at bottom right

EXTREMELY FINE APPEARANCE. THE 3-CENT IS POSSIBLY THE RAREST OF THE POSTAGE DUE SPECIAL PRINTINGS.

Although 436 copies were reported sold, it is believed that 100 copies were destroyed in the Calman lot. A thorough search of the marketplace, combined with conversations with dealers and collectors, has confirmed the extreme rarity of this stamp.

This is only the fourth example we have sold in the last five years. The other three are the Zoellner copy (original gum, inclusion, poorly centered), the Drucker copy (no gum, poorly centered), and a third copy (original gum, reperfed at top). END OF FIFTH SESSION

Frederic A. Wheeler

FREDERIC A. WHEELER WAS AN ASTUTE COLLECTOR OF HAWAIIAN stamps and postal history. His interest in the islands was kindled as a boy growing up in New England, the place of origin for many of the missionaries and whalers who ventured to Hawaii during the 19th century. As a boy, Fred Wheeler also shared his father's fascination with stamp collecting. In later life, while stationed in Hawaii during World War II, the dual interests in stamps and history merged to start Mr. Wheeler on his lifelong journey collecting Hawaiian stamps and covers.

Hawaiian stamps have been popular since the earliest days of collecting, and the laws of supply and demand have challenged budget-conscious collectors to play the field in competition with deep-pocketed collectors. With a growing family to provide for through his career as a salesman for a foundry in Bridgeport, Connecticut, Fred Wheeler was always challenged to find room for a philatelic budget. Yet he managed to build his collection to a significant level and earn the philatelic community's respect for his profound knowledge of Hawaiian stamp production and postal history.

One of Mr. Wheeler's major contributions to the field of study was his census of covers bearing the Honolulu straightline, Hawaii's first handstamped postal marking. In tribute to the Wheeler census, which he kept updated and shared with others, we have published a current version of the census now maintained by Fred Gregory. It appears at the back of this sale catalogue following page 306 and on our website at www.siegelauctions.com/enc/hawaii/sl.htm. We also refer collectors to the *Post Office in Paradise* website at www.hawaiianstamps.com

Fred Wheeler made an even greater contribution to philately... his daughter, Missi Wheeler, who is known in the philatelic world as half of Purser Associates, the auction agent business she shares with her husband, Jeffrey Purser. Asked to reflect on her father's life in philately, Missi commented, "Dad was never able to interest his three sons in stamp collecting. He was astounded and pleased when I took an interest as a young teenager and even more surprised when I actually married, of all people, a stamp dealer!"

The Siegel firm has a long tradition of selling the most important Hawaiian collections, including such legendary offerings as Middendorf, Baker, *Honolulu Advertiser* and Aall. With a feeling of deep respect, we are pleased to add the name Wheeler to the list.

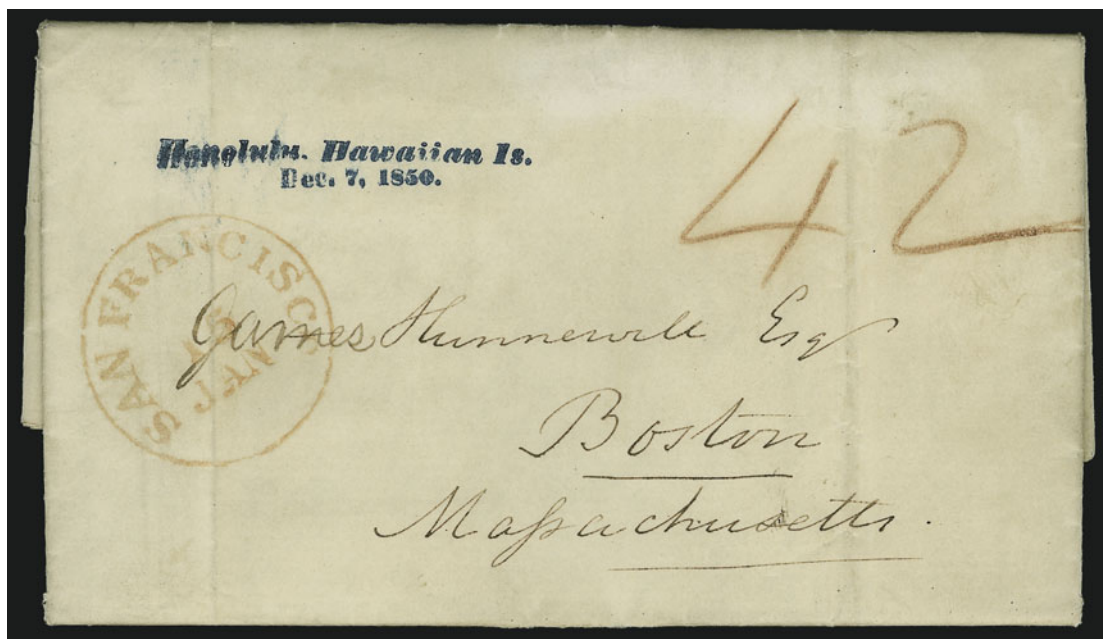

—SCOTT R. TREPEL

The Siegel firm is grateful to Albert Chang for his assistance in describing the Wheeler collection and to Fred Gregory for permission to publish the updated census.

EXTREMELY FINE. A PERFECTLY STRUCK EXAMPLE OF THE HONOLULU STRAIGHTLINE POSTMARK, OF WHICH ONLY EIGHT IN BLUE ARE RECORDED. ONE OF THE OUTSTANDING POSTAL HISTORY RARITIES OF HAWAII.

According to www.hawaiianstamps.com, this cover was carried aboard the *Gov. Davis*, which departed Honolulu on Dec. 12, 1850, arriving in San Francisco on January 5, 1851. It was then carried aboard the *Unicorn* from San Francisco to Panama on Jan. 15, 1851. The eight recorded strikes in blue were used during a brief time period — between Nov. 2 and Dec. 7, 1850. This cover was carried from Honolulu aboard the American brig *Mary A. Jones* (10/5-10/25). In addition to the unique 2c Hawaiian Missionary cover, two other Missionary covers were carried on this voyage: the 5c Missionary cover with red Gilman forwarder's handstamp (Census No. 2-I-COV-70) and the 13c Missionary on cover to Miss Reynolds in Lancaster Pa. (Census No. 3-I-COV-142) Please see the following lot for the history of the Dawson correspondence. VERY FINE. A BEAUTIFUL AND RARE COVER FROM THE DAWSON CORRESPONDENCE.

This cover was carried aboard the Hawaiian brig *Wallace* (10/4-10/21). The cover missed the sailing of the U.S. ship *Zoe* which left on Sep. 11. This explains the time lapse between the Honolulu and San Francisco datestamps. Four covers are recorded from this sailing.

The most famous cover in the Dawson correspondence is the 2c Missionary cover, last sold at auction by the Siegel firm in the *Honolulu Advertiser* sale in November 1995. According to an account by Alvin Good, during the summer of 1905 a defunct tannery in Bridgeport Conn. was being cleaned for conversion to a morocco factory. Some 35 years earlier the building had been abandoned. While feeding old papers and records into the furnace before leaving, the previous owners had choked out the fire, leaving bundles of half-burned papers in the stove's belly. The workman given the job of cleaning out the boiler and furnace knew something about stamps, so the covers were saved for philately. The cover offered here shows traces of burn marks at the top right. E. 3,000-4,000

 VERY FINE APPEARANCE. A RARE HAWAIIAN CORNER CARD COVER FROM THOMAS SPENCER, WHO WAS ONE OF HAWAII'S MAIL FORWARDERS.

Our auction of the *Honolulu Advertiser* collection contained two different types of forwarder's markings sent from Thomas Spencer (Sale 869, lots 2115-2117): the unique oval handstamp used on Nov. 2 (1852) and an octagonal handstamp (used on Dec. 28 and Jan. 21, 1856-57). Thomas Spencer was a ship captain who was also in the chandlery business for approximately ten years from 1853 to 1863. Ship chandleries were natural pick-up and drop-off points for mail for seamen in the Pacific..... E. 10,000-15,000

VERY FINE. AN EXTREMELY RARE MIXED-FRANKING COVER TO THE PORT OF SAN FRANCISCO, WHERE 3-CENTS UNITED STATES POSTAGE WAS REQUIRED FOR DELIVERY.

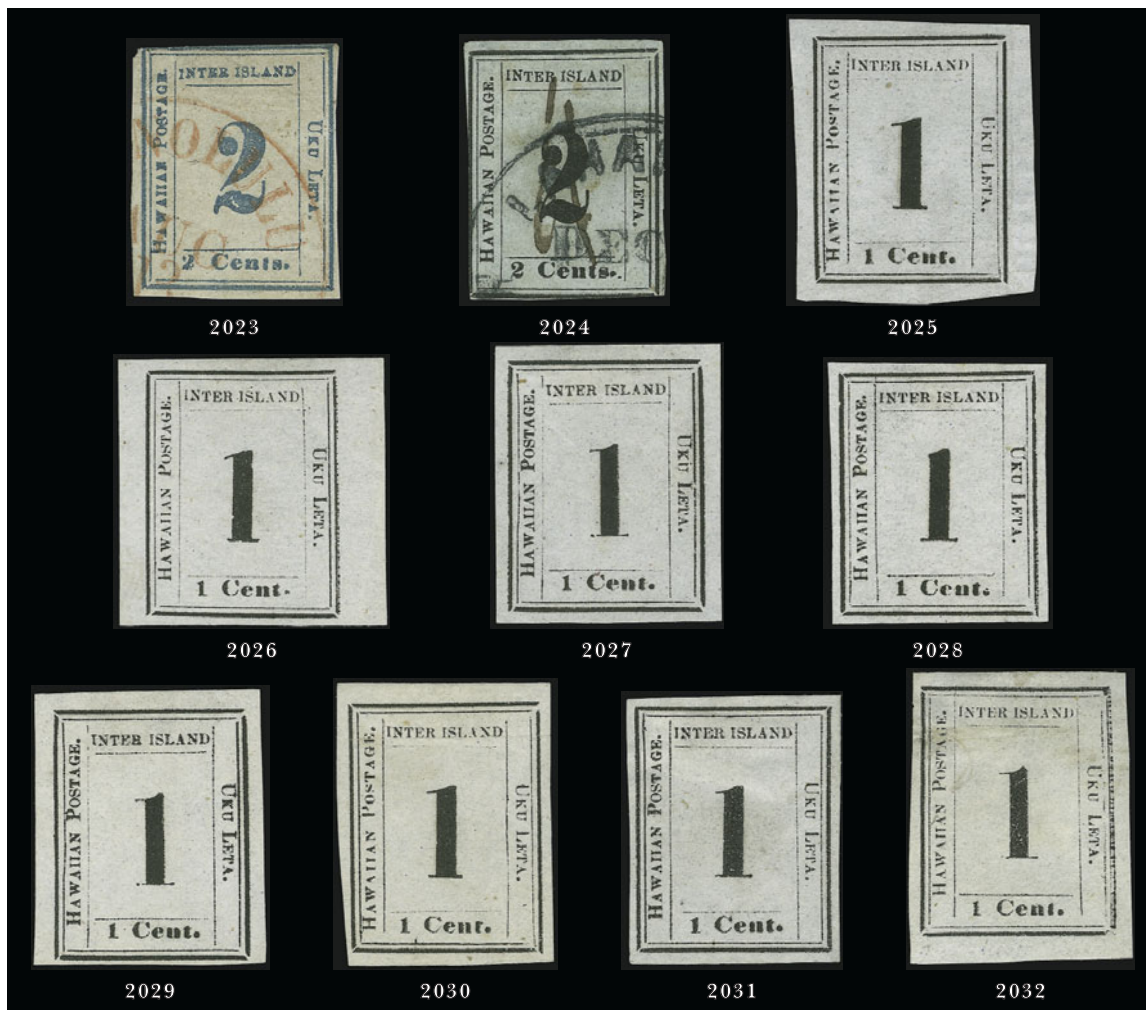

Although no year date is present, the earliest use of the Lahaina backstamp is recorded by *Post Office in Paradise* (www.hawaiianstamps.com) as January 1868; therefore, this July 8 date can be no earlier than 1868. Based on the Jul. 11 (1868) Honolulu datestamp, this cover was carried to San Francisco aboard the American ship *D. C. Murray* (7/11-8/4/68). Although recorded non-contract ship covers to San Francisco in the late treaty-mail period are generally prepaid with 4c U.S. postage (2c ship fee plus the old 2c drop rate), this cover has *correct* 3c prepayment (2c ship fee plus 1c drop rate). VERY FINE AND CHOICE. THE UNIQUE TOP RIGHT CORNER SELVAGE PAIR OF THE 1921 2-CENT CARMINE WITH “CANAL” DOUBLE. ONLY TEN WERE PRINTED.

According to *Canal Zone Stamps*, this error was apparently created on the right vertical row of the left pane. The sheet was placed too far into the press for overprinting of the right pane, causing “Canal” to print on the right stamps of the left pane and “Zone” to print in the gutter. Theoretically, this stamp should exist with overprint missing (the right row of the right pane), but none have been discovered.
