Conditions of Sale (Important—please read carefully)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. **The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid (“buyer’s premium”), together with any sales tax or use tax which may be due on the sale.**
2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.
3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum final bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve.** In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.
5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults” or “defects” may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**
6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. **The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. **Credit cards are not accepted as payment.**

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. **Any lot accompanied by a certificate issued by The Philatelic Foundation within 5 years of the sale date or by Professional Stamp Experts since January 2004 is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion.** Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to \$500.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grading Terms, Abbreviations and Values Used in Descriptions

Grade and Centering

The following terms are used in Siegel sale catalogues (corresponding numerical ranges shown in parentheses). Margin width, centering and gum are described according to generally-accepted standards. Stamps are graded based on our subjective assessment of condition for each issue, which do not necessarily correlate with third-party grading terms or standards for all issues. **A lot may not be returned because a certification service grades a stamp lower than the grade stated. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population ReportSM is the most current available, but lots may not be returned due to errors or changes in statistics or data.**

Extremely Fine Gem (90-100 pts.): The term “Gem” used in Siegel catalogues describes condition that is the finest possible for the issue.

Extremely Fine (80-90 pts.): Exceptionally large margins or near perfect centering.

Very Fine (70-85 pts.): Normal size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

Good (G) or Average (Ave.): Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

Gum Categories:	MINT N.H.	ORIGINAL GUM (O.G.)				NO GUM

Catalogue Symbol:	★ ★	★	★	★	★	(★)
PRE-1890 ISSUES	<i>Pre-1890 stamps in these categories trade at a premium over Scott value</i>			Scott Value for “O.G.”		Scott “No Gum” Values thru No. 218
1890-1935 ISSUES	Scott “Never Hinged” Values for Nos. 219-771	Scott Value for “O.G.” (Actual value will be affected by the degree of hinging)		Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.		
1935 TO DATE	Scott Value for “Unused”					

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

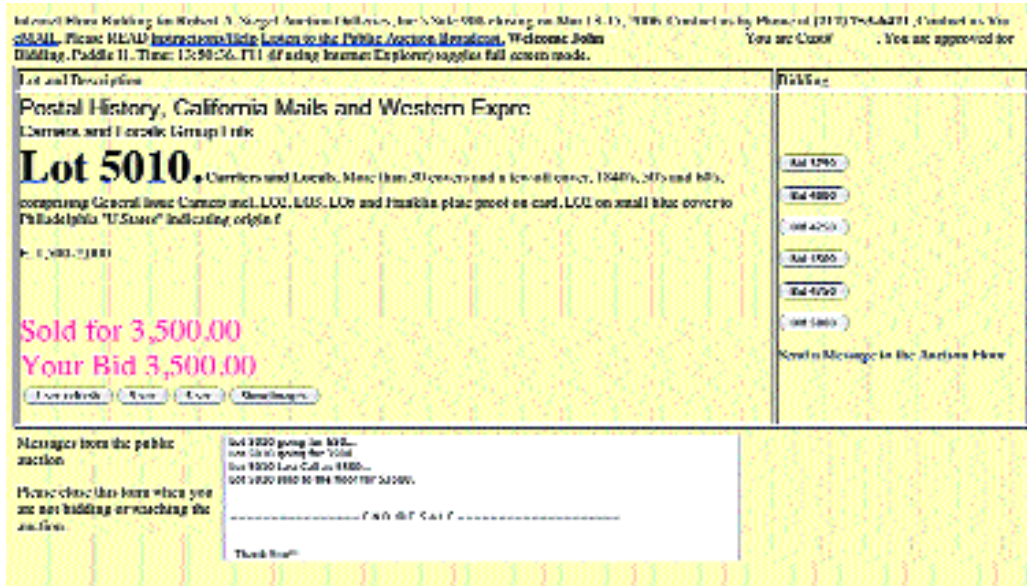

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

 With 1980 A.P.S. certificate 6,500.00

- 5 **St. Louis Mo., 10c Black on Greenish (11X2).** Ty. III, Position 6, full margins all around, bright shade, penstroke cancel, few faults incl. thin spots, pinhole and light creases

VERY FINE APPEARANCE. A HANDSOME FOUR-MARGIN EXAMPLE OF THE 10-CENT ST. LOUIS POSTMASTER'S PROVISIONAL ON GREENISH PAPER.

Despite the small faults, this stamp is a most attractive copy with four full even margins. 6,500.00

5

6

- 6 **St. Louis Mo., 10c Black on Greenish (11X2).** Type I, Position 2, large margins to well clear at right, bright paper shade, cancelled by single penstroke and also by red circular datestamp at bottom right, thin spot at top

A FINE TO VERY FINE APPEARING EXAMPLE OF THE 10-CENT ST. LOUIS POSTMASTER'S PROVISIONAL ON GREENISH PAPER.

Scott does not assign a premium for St. Louis provisionals showing the red town datestamp. 6,500.00

7

- 7 **St. Louis Mo., 5c Black on Gray Lilac (11X4).** Type III, Position 5, large margins to just touched along frameline in two places, neat penstroke cancel, light vertical creases, tiny tear at top left

FINE APPEARANCE. THE 5-CENT ON GRAY LILAC PAPER IS ONE OF THE RAREST OF THE ST. LOUIS POSTMASTER'S PROVISIONALS.

The layout of the plate was altered just before the paper was changed from Greenish to Gray Lilac paper. The original layout contained three 5c stamps and left and three 10c stamps at right. The plate was altered, and the top two 5c stamps were converted to 20c stamps. Only one position, the bottom left position of the plate, yielded 5c stamps. The new plate layout, combined with limited production from the altered plate before it was converted back again to its original format, accounts for the rarity of the 5c on Gray Lilac paper.

This stamp was offered in 1953 Heiman and 1955 Fifield sales as Scott 11X4. 25,000.00

1847 ISSUE

8

- 8 ★ **5c Red Brown (1).** Original gum, full margins to clear, radiant color described on accompanying certificate as Brown but appears to us to be Red Brown, detailed impression

A FINE AND SCARCE SOUND ORIGINAL-GUM EXAMPLE OF THE 5-CENT 1847 ISSUE.

With 1980 P.F. certificate 6,500.00

- 9 **10c Black (2).** Pen cancel expertly removed so as to appear unused, huge margins all around incl. part of adjoining stamp at top, Extremely Fine, with 1987 P.F. certificate 750.00

9

10

11

- 10 ★ **5c Red Brown, Reproduction (3).** Without gum as issued, large even margins, deep rich color and detailed impression, fresh and Extremely Fine, with 1985 P.F. certificate 800.00
- 11 ★ **10c Gray Black, Reproduction (4).** Without gum as issued, large to full margins, beautiful shade and impression, Very Fine and choice, a pretty stamp, with 1984 P.F. certificate 975.00

1851-56 ISSUE

12

- 12 **1c Blue, Ty. Ib (5A).** Position 6R1E, large top sheet margin, large margin at right, just touching at upper left and slightly in at bottom, wonderful bright early shade and proof-like impression, grid cancel

VERY FINE EXAMPLE OF POSITION 6R1E, ONE OF THE TWO POSITIONS THAT FURNISHED THE BEST TYPE IB EXAMPLES, SHOWING THE COMPLETE DESIGN AT TOP AND NEARLY COMPLETE DESIGN AT BOTTOM.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1 Early furnished stamps qualifying as Type Ib—Positions 3-6R and 8-9R—distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burnished away. Positions 6R and 8R had less of the bottom erased than the other Type Ib positions, and for this reason they are more desirable examples of the type.

With Ashbrook note..... 15,000.00

13

- 13 **1c Blue, Ty. Ia (6).** Position 97R4, curl in “C” variety, huge margin at top incl. part of adjacent stamp and large sheet margin at bottom, ample to touching at right and just barely in at left, deep shade, light strike of blue cancel

VERY FINE AND CHOICE. A WONDERFUL EXAMPLE OF TYPE IA FROM THE ONLY BOTTOM-ROW POSITION SHOWING THE CURL IN “C” VARIETY.

With 1983 P.F. certificate 13,500.00

14

- 14 (★) **1c Blue, Ty. II (7).** Unused (no gum), large margins to barely in at top, bright color, tiny corner crease at top right not mentioned on accompanying certificate, Fine appearance, with 1982 P.F. certificate..... 500.00
- 15 **1c Blue, Ty. II (7).** Positions 20/30L2, vertical pair, huge margins to just touched incl. part of adjoining stamp at top and **sheet margin at right**, deep rich color, neat strikes of circular date-stamps, fresh and Very Fine..... 375.00

15

- 16 (★) **1c Blue, Ty. III (8).** Position 69L4, unused (no gum), large to huge margins incl. part of adjoining stamp at bottom and showing clear characteristics of the type, deep rich color

EXTREMELY FINE. A BEAUTIFUL UNUSED EXAMPLE OF THE IMPERFORATE 1851 ONE-CENT TYPE III. A SCARCE ISSUE IN UNUSED CONDITION WITH SUCH WIDE MARGINS.

Type III is defined by breaks in the outer lines at *both* top and bottom. Many Type III stamps have breaks that were created or enlarged by plate wear. Since the wear occurred over a period of time, a majority of stamps of this type (both unused and used) have small breaks in at least one line. The example offered here, with wide breaks in both lines, is a great rarity

A search of our computerized records revealed an amazing fact — we have only offered one example with original gum, and one unused example without gum, since keeping computerized records over ten years ago.

With 1981 and 1992 P.F. certificates..... 7,500.00

16

17

- 17 ★ **1c Blue, Ty. IIIa (8A).** Plate 4, large part original gum, full margins to just in, deep rich color and proof-like impression
FINE. AN EYE-CATCHING ORIGINAL-GUM EXAMPLE OF THE IMPERFORATE 1851 ONE-CENT TYPE IIIA.
With 1990 P.F. certificate..... 5,000.00

- 18 **1c Blue, Ty. IIIa-IIIa-II (8A-8A-7).** Horizontal strip of three, large margins to just in, bright Plate 1E color, pen cancels, few faults incl. left stamp internal tear, otherwise Fine, with 1986 P.F. certificate..... 2,450.00
- 19 ★ **1c Blue, Ty. IV (9).** Original gum, lightly hinged, full margins to just in, deep rich color, light creases and thin specks, appears Fine, with copy of 1982 P.F. certificate for block of nine 850.00
- 20 **1c Blue, Ty. IV (9).** Vertical pair (almost vertical strip of three), huge margins to just touched incl. most of adjoining stamp at bottom, rich color, neat circular date stamps, Fine, Scott Retail as pair..... 275.00

- 21 ★ **3c Orange Brown (10).** Position 6L2E, original gum, lightly hinged, large margins to just in at top left incl. part of adjoining stamp at bottom, bright color with some slight oxidation, tiny thin speck, Fine appearance..... 7,000.00

- 22 ★ **3c Dull Red (11).** Horizontal pair, original gum, clear margins, rich color, Very Fine 675.00
- 23 ★ **3c Brownish Carmine (11 var).** Horizontal pair, disturbed original gum with strong offset on back of right stamp, large margins to clear incl. part of adjoining stamps at bottom, light crease, appears Very Fine 650.00

24

- 24 (★) **5c Red Brown (12).** Unused (no gum), ample to large margins, rich color and detailed impression

VERY FINE AND RARE UNUSED EXAMPLE OF THE 5-CENT 1856 ISSUE. ONLY A FEW EXIST IN SOUND UNUSED CONDITION WITH FOUR MARGINS.

With 1973 P.F. certificate for pair 9,500.00

With 1987 P.F. certificate 7,750.00

25

26

- 26 ★ **10c Green, Ty. II (14).** Original gum, large to huge margins incl. **sheet margin at top**, bright color, light horizontal crease at bottom

EXTREMELY FINE APPEARING ORIGINAL-GUM EXAMPLE OF THE IMPERFORATE 1855 10-CENT TYPE II.

With 1982 P.F. certificate 5,500.00

- 27 (★) **10c Green, Ty. III (15).** Unused (no gum), large to huge margins, rich color, ink mark on back not noted on accompanying certificate

EXTREMELY FINE UNUSED EXAMPLE OF THE IMPERFORATE 1855 10-CENT TYPE III.

With 1986 P.F. certificate 2,200.00

27

28

- 28 (★) **10c Green, Ty. IV (16).** Unused (no gum), Position 86L1, recut at top, large margins all around, rich color, tiny surface scrape expertly retouched is barely noticeable even with magnification

EXTREMELY FINE APPEARANCE. A RARE UNUSED EXAMPLE OF THE 1855 10-CENT IMPERFORATE TYPE IV.

A review of our computerized records indicates that we have only offered two examples with original gum and three examples with no gum in the past thirteen years. Of the three no gum copies, one was significantly cut into at top and the other was repaired. The third is the example offered here.

With 1991 P.F. certificate. 16,000.00

29

- 29 ★ **12c Black (17).** Original gum, lightly hinged, large margins to just barely in incl. **sheet margin at top**, intense shade and impression, light vertical crease

30

31

32

- 31 ★ **1c Blue, Ty. II-I (20-18).** Horizontal pair, left stamp Ty. II, original gum, h.r., bright color, centered slightly to top but clearly showing the Type I characteristics at bottom, fresh and Fine, attractive multiple, with 1983 P.F. certificate..... 4,000.00
- 32 **1c Blue, Ty. I (18).** Straddle-pane margin with full centerline at right, radiant color, neat strike of blue grid cancel, Very Fine 660.00

- 33 (★) **1c Blue, Ty. Ia (19).** Position 92L4, unused (no gum), rich color on bright paper, perfs just in at bottom

FINE. A SCARCE SOUND UNUSED EXAMPLE OF THE PERFORATED 1857 ONE-CENT TYPE IA.

Type Ia was produced by only 18 of the 20 bottom-row positions on Plate 4. Although Plate 4 was designed with sufficient space to accommodate perforations, the height of the top row and bottom row positions resulted in the perforations often cutting into the design at either top or bottom.

With 1986 P.F. certificate for vertical pair of Nos. 19 and 21 17,500.00

33

34

- 34 ★ **1c Blue, Ty. II (20).** Plate 2, original gum, lightly hinged, deep rich color and detailed impression, light natural vertical gum bend, insignificant toned speck on back not mentioned on accompanying certificate, appears Fine, with 1983 P.F. certificate for block of four..... 1,250.00

- 37 ★ **1c Blue, Ty. III-IIIa (21-22).** Positions 61/71L4, vertical pair with **part imprint at top left**, top stamp Ty. III with clear breaks at top and bottom, disturbed original gum, deep rich color, top stamp small thin spot, few small toned spots

FINE APPEARANCE. A SCARCE UNUSED COMBINATION PAIR OF THE PERFORATED 1857 ONE-CENT TYPE III AND IIIa. ESPECIALLY DESIRABLE WITH THE SELVAGE AND PART IMPRINT.

The accompanying 1980 P.F. certificate states the plate positions, yet identifies both stamps as Type IIIa (Scott 22). The Neinken book states that the top position is Type III and is not a transitional position. It has a small but clear break at bottom, and a wide break at top. The top stamp in this pair should be classified as Ty. III.

VERY FINE APPEARANCE. AN EXTREMELY RARE ORIGINAL-GUM EXAMPLE OF THE 1857 5-CENT BRICK RED SHADE — IN OUR OPINION, THE BRICK RED IS ONE OF THE RAREST STAMPS OF THE CLASSIC PERIOD IN SOUND CONDITION WITH ORIGINAL GUM.

To verify our intuition about the rarity of original-gum Brick Red stamps, we surveyed dozens of classic United States sale catalogues. We found approximately twenty stamps with original gum, allowing for duplicate offerings and excluding the one known original-gum block. Of the stamps we counted, about half had perfs touching two sides or were deeply cut into on one side. Almost two-thirds had stains or small faults. The example offered here is in better condition than most.

VERY FINE APPEARANCE. AN EXTREMELY RARE EXAMPLE OF A CONFEDERATE POSTMASTER'S PROVISIONAL USED OUTSIDE OF THE REGULAR CONFEDERATE MAILS. ONLY A FEW 5-CENT MEMPHIS EXPRESS COVERS ARE KNOWN.

The cover was entrusted to the Southern Express Co.'s Memphis office for delivery to Columbia Tenn., which lies east of Memphis. It travelled northeast to Nashville, then south to Columbia, accompanied by a Southern Express Co. agent along connecting railroad lines. Independent expresses were often used to carry valuable mail. Express covers involving Confederate postage of any kind are scarce, and those with Postmasters' Provisionals are very rare.

Aug. 7 (1861).** Perfectly clear oval datestamp with "Paid 10" Confederate rate handstamp at upper right on Exchange & Deposit Bank corner card cover to Abingdon Va., sender's ms. routing "*pr. Southern Express*" with notation "*50\$*" enclosed, ms. "*Paid RE*" express notation, docketed at right, with original letter enclosure

EXTREMELY FINE. AN OUTSTANDING CONFEDERATE EXPRESS MONEY-LETTER USAGE CARRIED OUTSIDE THE MAIL.

The threat of war forced Adams Express Company's directors to protect their assets by selling all offices in seceded states to Henry B. Plant on April 8, 1861, who reorganized them as the Southern Express Company. Several Adams offices continued to use the Adams-named markings until Southern Express Co. markings were produced. This cover shows the scarce Adams Knoxville office datestamp in conjunction with the "Paid 10" to indicate that Confederate postage had been paid, as required on all express mail. The sender used the correct "Southern Express" title in the route instruction.

There was no registered mail in the Confederate postal system, and valuable letters were entrusted to private express companies. Examples are scarce, and those with the early oval markings are extremely rare.

1870-88 BANK NOTE ISSUES

- 153 ★ **1c Ultramarine, I. Grill (134).** Original gum, clearly-defined grill, brilliant color on bright paper, wide margins

VERY FINE AND CHOICE ORIGINAL-GUM EXAMPLE OF THE 1870 ONE-CENT NATIONAL BANK NOTE ISSUE. ESPECIALLY DESIRABLE WITH THE I GRILL.

Several years ago we started to distinguish between the H and I Grills in our catalogue descriptions and research, in an effort to establish relative scarcity. It is our opinion that Scott Catalogue should list the H and I Grills separately, as they do for the A, B, C, D, Z, E and F Grills of the 1867-68 Issue. According to Scott Catalogue, the H Grill is found on all values, and the I Grill is found only on the 1c, 2c, 3c, 7c, 10c and 15c. Certified copies of the 6c are also known, and the 24c and 90c are reported to exist as well. We have only offered one other unused 1c I Grill since we started keeping our detailed records.

VERY FINE AND CHOICE. ONE OF THE FEW SOUND AND WELL-CENTERED EXAMPLES OF THE 5-CENT 1875 CONTINENTAL GRILL.

It is believed that the Continental grills were made experimentally in 1876, after a stamp-cleaning court trial renewed fears of stamp re-use. The primary source of the rare J Grills was the Worthington collection, which was dispersed in 1917. It is believed that most or all examples in collectors' hands came from the archive of Charles F. Steel, who patented the grilling machines used between 1867 and 1873.

FINE-VERY FINE APPEARING PAIR OF THE RARE 10-CENT HORIZONTAL COIL, SCOTT 356.
According to Johl (Volume 1, page 181), only 10,000 of this coil were issued. They were made especially for a New York firm to send out advertising samples, similar to the 3c Orangeburg coil. Only a few rolls were sold to the firm, and the remaining rolls were distributed to some of the larger post offices across the country. Dealers acquired several rolls, but since most collectors of the time did not collect coils many were used and destroyed.

VERY FINE APPEARING EXAMPLE OF THE RARE 3-CENT ORANGEBURG COIL.

The Orangeburg coil was made by the Post Office Department in 1911, specifically for use by the Bell Pharmaceutical Company. The 3c coil stamps were used to send samples of their products to physicians. Due to the quantity of mail, they were put through the first-class cancelling machine at Orangeburg, New York. The Orangeburg coil stamps' use on third-class mail, and the fact that philatelists were generally unaware of their production accounts for their rarity.

EXTREMELY FINE. A SUPERB ORIGINAL-GUM PAIR OF THE 2-CENT VERTICAL COIL, SCOTT 449. AN EXTREMELY DIFFICULT PAIR TO FIND WITH SUCH CHOICE CENTERING.

The 2c Type I rotary plate was used very briefly to make vertical coils issued in late 1915. It was briefly used because the Type I plate was not very deeply engraved and the curvature of the rotary press yielded impressions lacking in some of the details. The Bureau noticed this immediately, and quickly replaced it with the Type III plate (according to Scott, the EDU for No. 449 is Oct. 29, 1915 and the EDU for Type III is Dec. 21, 1915).

FRESH AND VERY FINE. AN OUTSTANDING EXAMPLE OF THE VERY RARE 30-CENT PERF 10 WASHINGTON-FRANKLIN ON UNWATERMARKED PAPER.

Despite the recent PSE claim that a watermark has been “discovered” on one stamp from one of the 476A panes, the vestige of a watermark on the dandy roll used to make unwatermarked paper has been known to philatelists since 1918. The unwatermarked paper supplied to the Bureau for printings of sheets that were perforated gauge 10 and 11 is known to have had “ghost” watermarks where the brass pieces were removed. We currently side with the group of philatelists who believe that the 30c Perf 10 Unwatermarked, Scott 476A, was legitimately issued.

FINE EXAMPLE OF THE RARE 2-CENT TYPE Ia IMPERFORATE ISSUE. THIS IS ONE OF THE RAREST ISSUES OF THE TWENTIETH CENTURY.

Scott 482A, like its slightly more famous predecessor, Scott 314A, was issued imperforate by the Bureau of Engraving and Printing and sold to the Schermack Company for use in its patented stamp-affixing machines. The Schermack "Sealer and Stamper" machine typically applied stamps one at a time, and, in most cases, the hyphen-hole perfs on one side would be cut off. Unlike Scott 314A, the release of imperforate sheets printed from the experimental Type Ia plates escaped the notice of contemporary collectors, and, therefore, has a very small survival rate.

Our census of Scott 482A (published in our Zoellner sale and available at www.siegelauctions.com/enc/census/482A/482A.htm) records one pair (ex Zoellner), three covers, one unused single and 34 used singles for a total of 40 stamps. Schermack Type III stamps are often cut into the design by the oblong perforations or miscut with one side of the perforated margin missing.

During the course of production of the normal 2c plate No. 7942, three positions were noted to be defective. The plate was returned to the siderographer, who burnished out the three positions and mistakenly re-entered them using a transfer roll for the 5c stamp. The error passed unnoticed and the sheets were issued to the public Perf 10, Imperforate and Perf 11 (Scott 467, 485 and 505). The imperforate is by far the rarest of the three. ...

A small quantity of 1c Rotary Press stamps was perforated 11 at the end of 1922, using remainder sheets from the earlier printings that were normally perforated in 10 gauge or 11/10 compound gauge. Its existence as a Perf 11 variety was discovered in 1936, and the stamp received its Scott Catalogue listing in 1938.

Most of the recorded copies of Scott 544 are off-center or have been damaged — the result of poor production standards and mis-handling.

VERY FINE AND CHOICE EXAMPLE OF SCOTT 594. ONE OF THE RAREST TWENTIETH CENTURY STAMPS IN SOUND AND CENTERED CONDITION.

The 1c Green, Scott 594, is waste from a horizontal rotary printing used to make coils. At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was produced that was too short for rolling into 500-stamp rolls. In 1919 the Bureau devised a plan to salvage this waste by perforating and cutting the sheets into panes. They were put through the 11-gauge flat-plate perforator in use at the time, giving the sheets full perforations on all sides. The existence of Scott 594 was not reported until four months after the final sheets were delivered, and the 1c Rotary Perf 11 was soon recognized as one of the rarest United States stamps.

Our recently completed exhaustive census of Scott 594, available at our website at: <http://www.siegelauctions.com/enc/census/594/594.htm>, contains 89 used singles, four used pairs and five covers (including one with a pair) for a total of 103 used stamps. Many have perforations either in on one or more side, or have faults.

FRESH AND VERY FINE. A RARE SOUND EXAMPLE OF THE 2-CENT HARDING ROTARY PERF 11. ONE OF ONLY A FEW SOUND EXAMPLES WHERE THE PERFORATIONS DO NOT TOUCH THE DESIGN.

Our updated census of the 2c Harding Rotary Perf 11 as (published in our Zoellner sale catalogue and updated at our website at www.siegelauctions.com/enc/census/613/613.htm) records 42 used singles (one faintly cancelled, if at all) and two used pairs. Of the singles, 25 are sound, but of these only six rate a grade of Very Fine or Extremely Fine. The stamp offered here is one of the few choice sound examples.

The 2c Harding Rotary Perf 11 stamp was discovered in 1938 by Leslie Lewis of the New York firm, Stanley Gibbons Inc. Gary Griffith presents his hypothesis in *United States Stamps 1922-26* that rotary-printed sheets of 400 were first reduced to panes of 100 and then fed through the 11-gauge perforating machine normally used for flat plate sheets. This method distinguishes sheet-waste stamps — Scott 544, 596 and 613 — from the coil-waste stamps and explains the existence of a straight-edge on Scott 613.

Shipping and Transit Insurance

We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as “floor sale only”). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the invoiced total and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage, but we do not include any fees for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

REVISED Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).
