Conditions of Sale (Important—please read carefully)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. **The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid (“buyer’s premium”), together with any sales tax or use tax which may be due on the sale.**
2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.
3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum final bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve.** In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.
5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults” or “defects” may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**
6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. **The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. **Credit cards are not accepted as payment.**

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. **Any lot accompanied by a certificate issued by The Philatelic Foundation within 5 years of the sale date or by Professional Stamp Experts since January 2004 is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion.** Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to \$500.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grading Terms, Abbreviations and Values Used in Descriptions

Grade and Centering

The following terms are used in Siegel sale catalogues (corresponding numerical ranges shown in parentheses). Margin width, centering and gum are described according to generally-accepted standards. Stamps are graded based on our subjective assessment of condition for each issue, which do not necessarily correlate with third-party grading terms or standards for all issues. **A lot may not be returned because a certification service grades a stamp lower than the grade stated. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population ReportSM is the most current available, but lots may not be returned due to errors or changes in statistics or data.**

Extremely Fine Gem (90-100 pts.): The term “Gem” used in Siegel catalogues describes condition that is the finest possible for the issue.

Extremely Fine (80-90 pts.): Exceptionally large margins or near perfect centering.

Very Fine (70-85 pts.): Normal size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

Good (G) or Average (Ave.): Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

POSTMASTERS' PROVISIONALS

- 116 **Brattleboro Vt., 5c Black on Buff (5X1).** Position 1, large margins with complete guideline at right, light red pen mark at upper left, proof-like impression, thin spots

VERY FINE APPEARANCE. THE CONDITION OF THIS STAMP IS FAR SUPERIOR TO MANY OF THE 32 RECORDED OFF-COVER EXAMPLES OF THE BRATTLEBORO PROVISIONAL. AN OUTSTANDING RARITY FROM THE ORIGINAL CHUBBUCK SHEET AND LAPHAM-COLSON-WALL RECONSTRUCTION.

116

This stamp comes from the sheet retained by the printer, Thomas Chubbuck, who sold three stamps to collectors before selling the remaining block of seven to L. H. Bragg in September 1870. Bragg, in turn, sold the block to John W. Scott. The stamps from the Chubbuck block were eventually cut apart and sold to different collectors. In the 1920's Raymond W. Lapham, with the professional help of Warren H. Colson, reconstructed the Brattleboro plate positions, including some stamps from the Chubbuck sheet.

VERY GOOD APPEARANCE. A RARE EXAMPLE OF THE 5-CENT ST. LOUIS POSTMASTER'S PROVISIONAL ISSUE ON GRAY LILAC PAPER.

The layout of the plate was altered just before the paper was changed from Greenish to Gray Lilac paper. The original layout contained three 5c stamps at left and three 10c stamps at right. The plate was altered, and the top two 5c stamps were converted to 20c stamps. Only one position, the bottom left position of the plate, yielded 5c stamps. The new plate layout, combined with limited production from the altered plate before it was converted back again to its original format, accounts for the rarity of the 5c on Gray Lilac paper. 45,000.00

1851-56 ISSUE

172

- 172 **1c Blue, Ty. Ib (5A).** Position 6R1E, margins virtually all around, choice plate one early color, essentially face-free Boston circular datestamp

FINE. A BEAUTIFUL EXAMPLE OF POSITION 6R1E, ONE OF THE TWO POSITIONS THAT FURNISHED THE BEST TYPE IB EXAMPLES, SHOWING THE COMPLETE DESIGN AT TOP AND NEARLY COMPLETE DESIGN AT BOTTOM.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1 Early furnished stamps qualifying as Type Ib—Positions 3-6R and 8-9R—distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burnished away. Positions 6R and 8R had less of the bottom erased than the other Type Ib positions, and for this reason they are more desirable examples of the type.

With 2007 P.S.E. certificate 15,000.00

- 173 **1c Blue, Ty. Ib (5A).** Position 6R1E, large top sheet margin, large margin at right, just touching at upper left and slightly in at bottom, wonderful bright early shade and proof-like impression, grid cancel, tiny pinpoint punctures at bottom right

VERY FINE APPEARING EXAMPLE OF POSITION 6R1E, ONE OF THE TWO POSITIONS THAT FURNISHED THE BEST TYPE IB EXAMPLES, SHOWING THE COMPLETE DESIGN AT TOP AND NEARLY COMPLETE DESIGN AT BOTTOM.

With Ashbrook note and 2007 P.S.E. certificate 15,000.00

173

174

- 174 **1c Blue, Ty. Ia (6).** Position 92R4, large margins to clear and amply showing the characteristics of the type, rich color, two neat penstroke cancels leave design clearly visible, light horizontal crease at top, tiny surface scuff at top left

VERY FINE APPEARING EXAMPLE OF THE 1851 ONE-CENT TYPE IA IMPERFORATE.

The extremely rare Type Ia, showing the full design at bottom, was furnished only by 18 of the 200 subjects on Plate 4 (the remaining two bottom-row positions were sub-type Ic).

With 2007 P.F. certificate. Scott Retail with non-pen cancel \$12,500.00. Considering the fact that a light pen cancel leaves the design characteristics unmasked, the reduced Scott value for a pen-cancelled No. 6 seems unjustified. 6,250.00

175

- 175 (★) **1c Blue, Ty. II, Plate 3 (7 var).** Position 92L3, unused (no gum), large margins to barely touched incl. part of adjoining stamp at top, bright color

VERY FINE AND CHOICE. A RARE UNUSED EXAMPLE OF THE TYPE II ONE-CENT 1851 IMPERFORATE FROM PLATE 3.

According to Ashbrook and Neinken, Plate 3 is believed to have been made in March or April 1856, possibly to replace the defective Plate 2 and/or to meet the increased demand for stamps concurrent with the April 1855 change in postal regulations requiring prepayment of postage. For an unknown reason — possibly a severe defect that arose in the plate — very few stamps were printed from the new Plate 3 before it was retired, and surviving examples are rare.

- 176 **1c Blue, Ty. II (7).** Position 24 L1E, large to enormous margins all around, light **blue circular datestamp** and magnificent Plate 1 Early shade

EXTREMELY FINE GEM. A SUPERB USED USED EXAMPLE OF THE IMPERFORATE 1851 ONE-CENT TYPE II FROM PLATE ONE EARLY. ESPECIALLY DESIRABLE WITH THE FACE-FREE BLUE CANCEL.

With 2007 P.S.E. certificate (Superb 98; SMQ \$2,400.00). Eight Scott No. 7's (1c Type II imperforate) have achieved the P.S.E. grade of Superb 98 or better, but the P.S.E. Population Report does not break down the 1c 1851's by plate. We are quite sure that the more desirable and scarcer Plate 1E stamps are much rarer in high grades than their Type II counterparts from other plates..... 170.00

- 185 **1c Blue, Ty. III, Position 99R2 (8).** Horizontal strip of three, Positions 98-100R2, comprising Type II (98R), Type III (99R) and the transitional Type II/IIIA (100R) with minute break in the outer line at bottom, the center stamp — Position 99R2 — has full margins at top and bottom framing the key elements of the Type III design (the wide breaks in outer lines), left stamp has large margins to clear at top, right stamp has ample to large top and bottom margins and is slightly in at right, bright shade on crisp white paper, tied by light strikes of "Conyngham Pa." double-line circle (apparently without date) on top half of folded cover to *Mr. N. G. Taylor, Nr. 3 & 5 Bransh Street* (Nathaniel G. Taylor, congressman from Tennessee and later Commissioner of Indian Affairs), **ms.** "Register" and Due 3" handstamp, registry fee paid in cash and charged 3c postage for weight, the strip has been removed from the piece and is completely sound

EXTREMELY FINE EXAMPLE OF THE RARE 1851 ONE-CENT IMPERFORATE TYPE III FROM POSITION 99R2 IN A STRIP OF THREE WITH FLANKING POSITIONS 98 AND 100R2. THE 99R2 IS THE BEST EXAMPLE OF TYPE III, WITH THE WIDEST BREAKS AT TOP AND BOTTOM.

Type III is defined by breaks in the outer lines at both top and bottom. Many Type III stamps have breaks that were created or enlarged by plate wear. Since the wear occurred over a period of time, the majority of stamps of this type (both unused and used) has small breaks in at least one line. The most notable exception is Position 99R2. According to the Neinken book, "The 99R2 stamp is a fresh entry, that was short transferred both at top and bottom, over an original entry that had been erased. . . The reason that 99R2 is the finest example of Type III is because of its very short transfer at top and at bottom, giving us the wide breaks in these lines." (p. 184).

This piece is a new 99R2 discovery, buried among the hundreds of thousands of documents in the Historical Society of Pennsylvania. The odds of finding a 99R2 are incalculable, but we did..... E. 10,000-15,000

With 2007 P.S.E. certificate (Superb 98 Jumbo; SMQ \$1,800.00 for 98, unpriced above the grade of 98). Having the graded certificate only confirms the obvious, but it is worth noting that only one stamp has received a higher P.S.E. grade. 130.00

- 193 **1c Blue, Ty. IV (9).** Horizontal strip of three, large to huge margins incl. part of six adjoining stamps at top and bottom and **sheet margin** at right, brilliant color and impression which is most unusual for Plate 1 Late printings, perfectly-struck "New-York Nov. 1" circular datestamps

EXTREMELY FINE GEM. A SUPERB AND SPECTACULAR USED STRIP OF THE 1851 IMPERFORATE ONE-CENT TYPE IV.

Although most of the attention in today's stamp market is focused on graded singles, philatelists who study and collect multiples will appreciate the extreme rarity of this used strip of the 1851 1c Type IV. Perhaps because the flanking stamps at left and right are equals to the spectacular center stamp, this strip was not cut to furnish a Jumbo single. Combining the enormous margins with brilliant color and the sharpest strikes of the New York City datestamp we have encountered, this strip offers everything to the condition-conscious collector. With high-grade singles bringing \$1,500 to \$3,000 or more, this strip should be worth exponentially more.

FINE APPEARANCE. A RARE ORIGINAL-GUM EXAMPLE OF THE 1857 5-CENT INDIAN RED SHADE. THIS IS ONE OF THE RAREST ORIGINAL-GUM STAMPS IN UNITED STATES PHILATELY — ONLY FOUR INDIAN RED STAMPS WITH ANY AMOUNT OF GUM ARE CONTAINED IN OUR RECORDS.

Our search of old auction catalogues and the records of the Philatelic Foundation yielded only ten unused examples of Scott 28A. Of these, only four have been described as having any gum whatsoever. These are: 1) Offered in the C. A. Brown Collection by Harmer, Rooke & Co. in 1941 where described as “full original gum”; it was offered in the 1968 Rarities sale and again as part of the A. T. Seymour Collection (Siegel Sale 373, Apr. 23, 1970, lot 35) where described as “large part original gum” and in our Sale 895 (lot 102, realized \$75,000 hammer); 2) the “Ambassador” copy (Siegel Sale 300, Apr. 27, 1966, lot 45A), described as part original gum, also ex Argentum (Siegel Sale 807, Feb. 23, 1999, lot 76) where described as “unused (traces of gum)”; 3) the Caspary/Lilly copy, described in both catalogues as full original gum and with light horizontal crease (the example offered here); and 4) the example offered in our sale of the Alan Geisler Collection, where described as part original gum, a light diagonal crease and two small corner creases at top right (Siegel Sale 929, lot 47, realized \$110,000 hammer).

EXTREMELY FINE. A DESIRABLE ORIGINAL-GUM EXAMPLE OF THE 5-CENT TYPE II BROWN 1860 SHADE IN REMARKABLY FRESH CONDITION WITH A PERT-IMPRINT SHEET MARGIN.

Unlike its Orange Brown counterpart, the 5c Type II in Brown was not on hand in post offices when the 1861 demonetization order took effect. Therefore, original-gum examples of Scott 30A are far scarcer than Scott 30. The narrow spacing between subjects on the plate, as well as Toppan Carpenter's imprecise perforating, leaves collectors with very few well-centered original-gum examples.

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM
EXAMPLE OF THE 30-CENT 1857 ISSUE.

Although some sheets of the 24c, 30c and 90c 1857-60 Issue were left in the public's hands after the Civil War demonetization took effect, original-gum examples of the 30c in Extremely Fine grade are extremely rare, owing to the narrow space between subjects on the plate and the difficulty experienced by Toppan, Carpenter with the first perforated issue. This stamp is extraordinary in three respects: first, it is perfectly centered with the design framed by white margin on all sides; second, it is very lightly hinged; and, third, the color is brilliant and free of any oxidation that frequently plagues this issue.

EXTREMELY FINE. A STUNNING ORIGINAL-GUM EXAMPLE OF THE 10-CENT 1861 ISSUE.

The increased awareness of the rarity of 1847 to 1879 issues in superb original-gum condition has elevated many valuations for issues with modest Scott values. The 1861-66 issues are prime examples of this trend. This 10c 1861 has a Scott value of \$1,250.00, yet one would be severely challenged to locate more than a few examples with original gum, choice centering and rich color.

EXTREMELY FINE. A RARE SOUND AND CENTERED EXAMPLE OF THE 1861 3-CENT SCARLET TRIAL PRINTING WITHOUT PEN MARKS AND WITH ORIGINAL GUM. EXCEEDINGLY RARE IN SUCH CHOICE CONDITION.

The story of the 3c Scarlet was documented by the late Jerome S. Wagshal in a series of articles appearing in the *Chronicle* (Nos. 56, 60, 61 and 62). Wagshal quotes statements made in 1893 and 1910 by a Washington D.C. stamp dealer, Carl F. Rothfuchs, to the effect that Rothfuchs obtained a supply of the 3c Scarlet in 1893 — probably from the Post Office Department in exchange for his assistance with the Columbian Exposition — and sold them with pen marks and original gum. The Rothfuchs lot is not from the same supply acquired by John W. Scott in the late 1870's, from which stamps exist uncanceled and cancelled with a New York City Station D oval.

Little space was left on the 30c 1861 plate for vertical rows of perforations between stamps, and the same plate was used for the 1875 Re-Issue. Therefore, well-centered copies with perforations clear at the sides are rare. Only 346 were sold. Our Levi records contain 146 unused singles, an unused pair and an unused block of four. Many have margins either touching or in on at least one side. Few of the sound copies retain all or part of their original gum.

It is believed that the Continental grills were made experimentally in 1876, after a stamp-cleaning court trial renewed fears of stamp re-use. The primary source of the rare J Grills was the Worthington collection, which was dispersed in 1917. It is believed that most or all examples in collectors' hands came from the archive of Charles F. Steel, who patented the grilling machines used between 1867 and 1873.

PAN-AMERICAN ISSUE

808

- 808 **1c Pan-American, Center Inverted (294a).** Unusually choice centering, deep rich colors and proof-like impressions, neat strike of Easthampton (Mass.) oval cancel, small vertical crease at bottom center, tiny corner crease at bottom right

EXTREMELY FINE APPEARING USED EXAMPLE OF THE ONE-CENT PAN-AMERICAN INVERT.

The 1c Pan-American Inverts were found in at least four different post offices around the country, soon after release of the issue in May 1901. According to the revised Johl-King book (p.7) "The first known copies of this error were discovered at Bessemer, Alabama, by the Carrell Jewelry Company on some circulars just prior to mailing them. When they realized the find they had made they lost no time in removing the stamps from the circulars and thus saved them to philately." Three covers are known with one each used from Bessemer Ala., Oakland Cal. and St. Louis Mo.

The 1c Pan-American Invert in used condition is considerably scarcer than unused. With the increased collector demand for 20th century stamps, especially in used condition, the price of a used 1c Pan-American Invert has surged ahead from \$7,000 in 2001 to \$13,000 in 2006.

VERY FINE APPEARING EXAMPLE OF THE 4-CENT PAN-AMERICAN INVERT WITH "SPECIMEN" OVERPRINT.

If the reported numbers are correct, a total of 203 4c Inverts was released, both with and without the overprint. An unknown quantity of the 4c Pan-American invert was overprinted with a small "Specimen" overprint.

EXTREMELY FINE. A WONDERFUL USED \$5.00 1902 ISSUE WITH SUPERB CENTERING AND WIDE EVEN MARGINS.

We submitted this stamp on behalf of the consignor with every expectation of an XF-Superb 95 grade. Imagine our shock when P.S.E. came back with a VF 80 grade. The perfs are fully formed and the stamp is flawless, so the only possible justification for the low grade is the cancel. However, dollar-value 1902's typically have double-oval cancels, and this strike is actually quite neat, leaving most of the design unobscured. The stamp is a Gem, and the accompanying 2007 P.S.E. certificate is worth keeping as a conversation piece... 750.00

FINE. A RARE SOUND EXAMPLE OF THE 2-CENT HARDING ROTARY PERF 11, AND A NEWLY RECORDED EXAMPLE WHICH HAS BEEN DORMANT IN AN OLD-TIME COLLECTION FOR MANY DECADES.

Our census of the 2c Harding Rotary Perf 11 (as published in our Zoellner sale catalogue and updated at our website at www.siegelauctions.com/enc/census/613/613.htm) records 43 used singles (one faintly cancelled, if at all), one used pair and the recently-discovered used strip of three. Of the singles, approximately 30 are sound.

The 2c Harding Rotary Perf 11 stamp was discovered in 1938 by Leslie Lewis of the New York firm, Stanley Gibbons Inc. Gary Griffith presents his hypothesis in *United States Stamps 1922-26* that rotary-printed sheets of 400 were first reduced to panes of 100 and then fed through the 11-gauge perforating machine normally used for flat plate sheets. This method distinguishes sheet-waste stamps — Scott 544, 596 and 613 — from the coil-waste stamps and explains the existence of a straight-edge on Scott 613.

1918 24-CENT INVERTED "JENNY"

1305

1305 ★ **24¢ Carmine Rose & Blue, Center Inverted (C3a).** Position 57, rich colors on bright paper, fresh original gum, small light trace of hinging

EXTREMELY FINE. ONE OF THE BEST-CENTERED AND FRESHEST STAMPS FROM THE ORIGINAL SHEET OF 100. FOR THE COLLECTOR SEEKING THE FINEST QUALITY, THIS STAMP IS THE IDEAL INVERTED "JENNY".

The original sheet of 100 was discovered and acquired by William T. Robey at the New York Avenue post office in Washington D.C. on May 14, 1918.

This stamp, with Positions 47-48 and 58, at one time comprised a block of four owned by Eugene Klein. After Klein's death in 1944, his daughter, Dolores Klein Hertz, was instructed to claim a sealed container held by a Philadelphia bank in accordance with his Will. Resting on top of the various stamp collections in this container was the block of inverts.

The Klein-Hertz block was sold by Mrs. Hertz to Robert A. Siegel, who in turn placed it with Raymond H. Weill Co. The block was later sold by the Weills to a collector, Mr. Phillips, whose philatelic estate they acquired in 1968 for just over \$4 million. The Weills received Philatelic Foundation certificate number 10,000 prior to splitting the block into singles at their client's request. This example comes from the position next to the Zoellner copy (Position 58), which realized \$525,000 hammer in our 2005 Rarities sale, still a record price for the Inverted "Jenny".

Ex Colonel Edward H. R. Green, Eugene Klein, Dolores Klein Hertz, B. D. Phillips and William C. Mack. With 1988 P.F. certificate. 400,000.00
