Information for Bidders

Bidding

The following means are available for placing bids:

- 1) Attending the Live Auction in Person: All bidders must register for a paddle, and new bidders must provide references at least three business days in advance of the sale.
- **2) Live Internet Bidding:** Instructions for participating as a Live Internet Bidder are provided on the page opposite.
- **3) Phone Bidding:** Bidders can be connected to the sale by phone and bid through a member of staff. Requests for phone bidding are subject to approval (please contact our office at least 24 hours before the sale). A signed Bid Form is required.
- 4) Absentee Bids. All bids received in advance of the sale, either by mail, fax, phone, e-mail or internet, are Absentee Bids, which instruct the auctioneer to bid up to a specific amount on one or more lots in the sale. Absentee Bids sent by phone, fax or e-mail should arrive at least one hour prior to the start of the sale session. Bids entered through Live Internet Bidding will be visible to the auctioneer during the sale. Written bids should be entered legibly on the Bid Form in the sale catalogue. E-mail and internet bids should be carefully typed and double-checked. All new bidders must provide references. We recommend calling or e-mailing to confirm that Absentee Bids sent by mail, fax or e-mail have been received and entered.

Pre-Sale Viewing

Subject to availability, certain lots (except group lots) can be sent to known clients for examination. Requests must be made no later than 7 days prior to the sale. Lots must be returned on the day received. Postage/insurance costs will be invoiced.

In addition to regular viewing, clients may view lots by appointment. Our staff will be pleased to answer questions or provide additional information about lots.

Expert Certification

Individual items offered without a current certificate (PF dated within the past five years of sale; PSE dated January 2004 or later) may be purchased subject to independent certification of genuineness and our description. Please refer to the Conditions of Sale and Grading Terms for policies governing certification.

Shipping and Delivery

Procedures and charges for shipping lots are printed on the back of the Bid Form. Bidders are responsible for all prescribed shipping charges and any applicable sales tax or customs duties.

Price Realized

Prices realized are sent with each invoice. Bidders with e-mail will receive a Bid Results report after the sale. Session results are posted immediately to **siegelauctions.com**

Live Internet Bidding at Siegel Auctions

Bidding from your computer lets you be part of the live auction from anywhere in the world!

There's no substitute for following the auction in real time. Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.

And it's easy. Just start by following the simple steps to become a registered Live Internet Bidder. Once you've been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Registering with Stamp Auction Network and Siegel Auction Galleries

Live Internet Bidding is managed by Stamp Auction Network (SAN). To bid, you must be registered and approved by *both* SAN and Siegel. To decide what you need to do, choose the description below that best fits you.

I've already registered with SAN and have been approved by Siegel for internet bidding. You're ready for Step 2.

I've never registered with SAN, but I'm a Siegel client. Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form, indicating you are a Siegel client. Once registered at SAN, you're ready for Step 2.

I've never registered with SAN, and this is the first time I've bid with Siegel. Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you're ready for Step 2.

I've bid through SAN before, but this is the first time I've bid in a Siegel sale. Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on "Update Registration" at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you can move to Step 2.

3 Using Live Internet Bidding to bid, track results and communicate with the auctioneer.

When you're logged on as a Live Internet Bidder, the screen will display buttons with bid increments. After you click on a bid amount, the auctioneer is immediately notified of your bid. Retracting a bid is usually not acceptable, so please bid carefully.

If you bid, then decide to stop, please use the "Pass" button, which appears once you've started bidding. This tells the auctioneer not to wait for another bid from you.

You can send messages to the auctioneer (for example, a request for extension). You can also track prior realizations from the bidding screen.

2 Using your browser for Live Internet Bidding and understanding the way it works.

Live Internet Bidding works by providing an audio feed of the auction (for anyone using Internet Explorer) and by allowing registered bidders to observe and place bids. The bidding interface shows a photo and description of the lot, the current bid (and your bidding status), and options for placing competitive bids. To join the auction, go to **stampauctionnetwork.com**/siegel. You can also log on at siegelauctions.com

The visual interface will work with any browser on both PC and Mac operating systems. However, the audio feed only works with Internet Explorer on a PC with ActiveX software installed. If ActiveX is not on your computer, you will have the option to install it.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

"System down" or "lost connection" events do occassionally happen. If you have any problems with Live Internet Bidding, please call 212-753-6421 for immediate assistance.

Conditions of Sale (please read carefully before bidding)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. ("Galleries") on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

- 1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid ("buyer's premium"), together with any sales tax, use tax or customs duties due on the sale.
- 2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.
- 3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.
- 4. Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid ("reserve"), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.
- 5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries' custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date. (5A) EXCLUSIONS: The following lots may not be returned for any reason: lots containing 10 or more items; lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with "faults," "defects" or a specific fault may not be returned because of any secondary fault. Photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations. Lots may not be returned for any of the following reasons: the color of the item does not match the color reproduction in the sale catalogue or website listing; the description contains inaccurate information about the quantity known or reported; or a certification service grades a stamp lower than the grade stated in the description.
- 6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash

for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. **Credit cards are not accepted as payment.**

- 7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than 30 days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.
- 8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation within 5 years of the sale date or by Professional Stamp Experts since January 2004 is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not **limited to a contrary certificate of opinion.** Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to \$600.00 unless otherwise agreed.
- 9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.
- 10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.
- 11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers outside the U.S. are responsible for all customs duties.
- 12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item's condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population ReportSM is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Extremely Fine Gem (90-100): The term "Gem" describes condition that is the finest possible for the issue. This term is equivalent to "Superb" used by grading services.

Extremely Fine (80-90): Exceptionally large/wide margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. "Very Fine and choice" applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

1935 TO DATE	Scott Value for "Unused"			categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamp- issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.		

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz, American Air Mail Catalogue* (AAMC), *Michel, Zumstein, Facit*, etc. Estimates are indicated with an "E." and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the *Scott Catalogue*—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

170 ★ 1c Blue, Ty. I (18). Position 33L12, double transfer, original gum, bright shade, remarkably choice centering

EXTREMELY FINE. A DESIRABLE DOUBLE TRANSFER POSITION AND CHOICE ORIGINAL-GUM EXAMPLE OF THE ONE-CENT PERFORATED TYPE I FROM PLATE 12.

171 **1c Blue, Ty. I (18).** Attractively centered, pleasing Plate 12 color, light target cancel, Very Fine, with 2000 P.F. and 2005 P.S.E. certificates (VF 80; SMQ \$660.00).... 700.00

173 **1c Blue, Ty. Ia (19).** Position 93R4, choice centering with entire bottom right plume clearly visible, well-struck town datestamp, rich color on bright paper

EXTREMELY FINE. A SUPERB EXAMPLE OF THE RARE 1857 ONE-CENT PERFORATED TYPE IA.

Type Ia was produced by only 18 of the 20 bottom-row positions on Plate 4. Although Plate 4 was designed with sufficient space to accommodate perforations, the height of the top row and bottom row positions resulted in the perforations often cutting into the design at either top or bottom. For this reason, stamps from the bottom row of Plate 4 with the lower part of the design intact or nearly intact are especially desirable. The superbly-centered example offered here is highly desirable, because the bottom perfs barely touch the key elements of the Type Ia design.

FINE APPEARANCE. A SCARCE UNUSED PAIR OF THE PERFORATED 1857 ONE-CENT TYPE IIIA. ESPECIALLY DESIRABLE WITH THE SELVAGE AND PART IMPRINT.

The Neinken book states that the top position is Type III and is not a transitional position. It has a small but clear break at bottom, and a wide break at top, and should technically be classified as Type III (Scott No. 21), but the expertizers disagree.

Most examples of this issue have perforations either touching or into the recut lines. The example offered here, with intact recut lines at top and bottom, is exceedingly rare. It also has uncharacteristically deep color and impression for a Plate 1 Late printing.

EXTREMELY FINE GEM. THIS STAMP IS ARGUABLY THE FINEST USED EXAMPLE OF THE $1861\ 10\text{-CENT}$ FIRST DESIGN WE HAVE EVER ENCOUNTERED.

The 10c 1861 First Design (or Type I) was printed from Plate 4, which left very little space between the stamps for the 12-gauge perforation holes. Examples of Scott 62B (or 58) are rarely seen with margins framing the design on all sides. The stamp offered here is the rare exception, and it is even more remarkable as a used copy, free of faults, clearly cancelled in red (and face-free). As a measure of the 10c First Design's rarity in used high grades, the latest P.S.E. Population Report lists one used example graded XF 90 and nothing higher.

EXTREMELY FINE. A RARE SOUND AND CENTERED EXAMPLE OF THE 1861 3-CENT SCARLET TRIAL PRINTING WITHOUT PEN MARKS AND WITH ORIGINAL GUM. EXCEEDINGLY RARE IN SUCH CHOICE CONDITION.

The story of the 3c Scarlet was documented by the late Jerome S. Wagshal in a series of articles appearing in the *Chronicle* (Nos. 56, 60, 61 and 62). Wagshal quotes statements made in 1893 and 1910 by a Washington D.C. stamp dealer, Carl F. Rothfuchs, to the effect that Rothfuchs obtained a supply of the 3c Scarlet in 1893 — probably from the Post Office Department in exchange for his assistance with the Columbian Exposition — and sold them with pen marks and original gum. The Rothfuchs lot is not from the same supply acquired by John W. Scott in the late 1870's, from which stamps exist uncancelled and cancelled with a New York City Station D oval.

EXTREMELY FINE GEM. A MAGNIFICENT EXAMPLE OF THE 1868 5-CENT BROWN F GRILL WITH ORIGINAL GUM. AN EXCEEDINGLY RARE STAMP IN THIS CHOICE CONDITION.

The 5c 1861-68 Issues are extremely difficult to find in sound, well-centered, original-gum condition. The narrow spacing between stamps on the plate and large 12-gauge perforations resulted in stamps that are frequently off center. This applies to Scott 67, 75, 76 and 95 alike. None of these is easy to locate in centered original-gum condition (to understate the matter), but the limited production of 5c F Grills leaves collectors with an even smaller supply. By virtue of its color, centering and freshness, we believe the stamp offered here is superior to any we have seen offered in years.

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 1868 12-CENT F GRILL. AN EXTRAORDINARY STAMP AND CERTAINLY AMONG THE FINEST IN EXISTENCE.

We acknowledge the past existence of original-gum 12c F Grill multiples, which in recent years have been broken to furnish choice singles. However, the quality of this particular stamp — its centering and immense margins, shade and overall freshness — qualify it as one of the three or four finest in existence.

Live Internet Bidding at Siegel Auctions

Bidding from your computer lets you be part of the live auction from anywhere in the world!

There's no substitute for following the auction in real time. Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.

And it's easy. Just start by following the simple steps to become a registered Live Internet Bidder. Once you've been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Registering with Stamp Auction Network and Siegel Auction Galleries

Live Internet Bidding is managed by Stamp Auction Network (SAN). To bid, you must be registered and approved by *both* SAN and Siegel. To decide what you need to do, choose the description below that best fits you.

I've already registered with SAN and have been approved by Siegel for internet bidding. You're ready for Step 2.

I've never registered with SAN, but I'm a Siegel client. Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form, indicating you are a Siegel client. Once registered at SAN, you're ready for Step 2.

I've never registered with SAN, and this is the first time I've bid with Siegel. Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you're ready for Step 2.

I've bid through SAN before, but this is the first time I've bid in a Siegel sale. Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on "Update Registration" at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you can move to Step 2.

3 Using Live Internet Bidding to bid, track results and communicate with the auctioneer.

When you're logged on as a Live Internet Bidder, the screen will display buttons with bid increments. After you click on a bid amount, the auctioneer is immediately notified of your bid. Retracting a bid is usually not acceptable, so please bid carefully.

If you bid, then decide to stop, please use the "Pass" button, which appears once you've started bidding. This tells the auctioneer not to wait for another bid from you.

You can send messages to the auctioneer (for example, a request for extension). You can also track prior realizations from the bidding screen.

2 Using your browser for Live Internet Bidding and understanding the way it works.

Live Internet Bidding works by providing an audio feed of the auction (for anyone using Internet Explorer) and by allowing registered bidders to observe and place bids. The bidding interface shows a photo and description of the lot, the current bid (and your bidding status), and options for placing competitive bids. To join the auction, go to **stampauctionnetwork.com**/siegel. You can also log on at siegelauctions.com

The visual interface will work with any browser on both PC and Mac operating systems. However, the audio feed only works with Internet Explorer on a PC with ActiveX software installed. If ActiveX is not on your computer, you will have the option to install it.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

"System down" or "lost connection" events do occassionally happen. If you have any problems with Live Internet Bidding, please call 212-753-6421 for immediate assistance.

552 15c Orange, I. Grill (141 var). Well-defined I Grill points

from the early state of the grilling device, brilliant color, neat strike of segmented cork cancel, tiny corner perf crease at bottom right

FINE. THIS STAMP IS THE DISCOVERY COPY OF THE 15-CENT I GRILL, WHICH IS ONE OF THE RAREST OF ALL UNITED STATES STAMPS. ONLY TEN USED AND TWO UNUSED EXAMPLES HAVE BEEN IDENTIFIED. THIS RARITY DESERVES MAJOR CATALOGUE LISTING STATUS.

At least two sizes of grills were used by the National Bank Note Company for the 1870 Issue. The I Grill measures from 9-11 points wide by 10-13 points tall. The I Grill is currently recorded on all values except the 12c, 24c and 30c (there are unconfirmed reports of the I Grill on the 12c and 24c). The 1c thru 7c values make up most of the population of I Grill stamps. The 10c, 15c and 90c I Grills are extremely rare, and it is only in recent years that their existence was reported by Ronald Burns.

With 1955 and 2008 P.F. certificates and accompanied by 1953 note from Stanley Gibbons where purchased by the current owner. Small backstamp..... E. 2,000-3,000

EXTREMELY FINE GEM. AN ABSOLUTELY MAGNIFICENT 1870 15-CENT NATIONAL BANK NOTE COMPANY UNGRILLED ISSUE WITH ENORMOUS MARGINS, PERFECT CENTERING, VIVID COLOR AND A STAR FANCY CANCEL.

The 15c 1870-73 Bank Note Issues are rarely encountered in superb used condition. Even if the initial hurdles of centering and soundness are overcome, the cancellations on this high value are almost invariably heavy and unsightly. The stamp offered here offers the best of all elements.

578 **24c Purple (153).** Beautifully centered, strong color with an attractive **blue cork** cancel, Very Fine and choice, with 2007 P.S.E. certificate (VF-XF 85; SMQ \$265.00) 205.00

A search of our computerized records indicates that the 2c 1875 Issue is exceedingly difficult to find in high-grade Mint N.H. condition, despite its modest Scott Catalogue value. The example offered here is certainly one of the finest extant.

EXTREMELY FINE. AN OUTSTANDING ORIGINAL-GUM EXAMPLE OF THE 1879 10-CENT AMERICAN BANK NOTE PRINTING WITH SECRET MARK.

The 10c stamps from the American Bank Note printing (Scott Nos. 187 and 188) are notably scarce with such choice centering. The example offered here, with wide margins on all four sides, is a true condition rarity.

VERY FINE AND CHOICE CENTERING. A MAGNIFICENT EXAMPLE OF THE RARE 4-CENT 1883 AMERICAN SPECIAL PRINTING. THIS IS ONE OF THE RAREST OF ALL SPECIAL PRINTINGS.

Our census of the 4c 1883 Special Printing published in the Zoellner catalogue and updated on our website at: http://www.siegelauctions.com/enc/census/211D/211D.htm contains 26 stamps offered as No. 211D. Post Office Department records indicate that only 26 were sold.

An example of Scott 211D has not been offered at auction during the recent period when other rare Special Printings have been sold for historically high prices. Therefore, the Scott Catalogue value for No. 211D has not been correctly adjusted in relation to its counterparts, such as Scott No. 205C, with which it has always maintained near parity. For example, between 2001 and 2008, Scott No. 205C rose from \$28,500 to its current \$75,000, while Scott No. 211D only increased from \$26,000 to \$50,000. In our estimation, the Scott value for No. 211D should be at least \$75,000.

EXTREMELY FINE GEM IMPRINT AND PLATE NUMBER STRIP. THIS IS THE ONLY RECORDED MINT NEVER-HINGED PLATE STRIP OF THE \$5.00 COLUMBIAN. IN OUR OPINION, IT IS THE FINEST-QUALITY PLATE NUMBER MULTIPLE.

The \$5.00 plate number block of eight is believed to be unique; therefore, a strip of four is the only practical means to show the complete imprint and plate number with plate letters.

The Scott Catalogue value for a Mint N.H. imprint and plate number strip is \$45,000 versus \$40,000 for a hinged strip, while a Mint N.H. single is valued at more than three times the value of a hinged single. In our opinion, the Scott value for a Mint N.H. plate strip does not begin to reflect the rarity of this item. Our opinion is further supported by the recent realization for the previously hinged imprint strip in our sale of the Barry K. Schwartz collection. The strip realized \$55,000 versus \$\$22,500 Scott value.

PAN-AMERICAN ISSUE

869 ★ 1c Pan-American, Center Inverted (294a). Original gum, lightly hinged, deep rich colors, choice centering for this difficult issue

VERY FINE ORIGINAL-GUM EXAMPLE OF THE ONE-CENT PAN-AMERICAN ISSUE.

The 1c Pan-American Inverts were found in at least four different post offices around the country. Of the 600 to 700 known, most have disturbed gum and are off-center.

870

870 (**) **2c Pan-American, Center Inverted (295a).** Unused (no gum), unusually choice centering for this difficult issue with wide and balanced margins, color slightly faded

EXTREMELY FINE CENTERING. A REMARKABLY WELL-CENTERED EXAMPLE OF THE 2-CENT PAN-AMERICAN INVERT.

The 2c is the rarest of the three Pan-American Inverts. It is surmised that approximately 200 were issued through the post office, with two distinct shades known. Estimates of surviving examples range from an early count (1945) of 55 unused and 2-3 used to the 1998 Datz estimate of 150 unused, 3-5 used and a block of four intact. Our Levi records contain the intact block (4), reconstructed block (4), 64 unused singles and 6 used singles, for a total of 72 unused and 6 used. Many of the unused singles have disturbed gum or no gum, but the example offered here is far bettercentered than most.

871

871 (*) 4c Pan-American, Center Inverted (296a).
Unused, regummed over repaired faults, rich

VERY FINE APPEARANCE. A SCARCE EXAMPLE OF THE 4-CENT PAN-AMERICAN INVERT WITHOUT "SPECIMEN" OVERPRINT.

he 4c Pan-American Invert was a special printing and not regularly issued. Examples were distributed through two official channels, and the gum on the majority of stamps without "Specimen" overprint was disturbed. In fact, because the stamps were removed from mounting paper, they are generally thinned or have seriously disturbed gum.

872 S **4c Pan-American, Center Inverted, Specimen Ovpt. (296aS).** Full original gum (far better gum condition than most), rich colors and fine impressions, centered to lower left but perfs are clear of design and wide right margin shows clear strike of purple "Specimen" overprint

VERY FINE FOR THIS RARE 4-CENT PAN-AMERICAN INVERT WITH SPECIMEN OVERPRINT.

If the reported numbers are correct, a total of 203 4c Inverts was released, both with and without the overprint. An unknown quantity of the 4c Pan-American invert was overprinted with a small "Specimen" overprint. Some examples, both with and without the overprint, were given away by Third Asst. Postmaster General Edwin C. Madden. When postal authorities learned of the practice, they destroyed 194 copies and put one pane of 100 into the official archives. At a later date, 97 of these were traded for rarities missing from the archives.

EXTREMELY FINE GEM. THIS IS THE FINEST GRADED EXAMPLE OF THE 10-CENT PANAMA-PACIFIC PERF 10, HAVING ACHIEVED A GEM 100 GRADE FROM P.S.E.—NO OTHER SCOTT 404 HAS REACHED THE PERFECT 100-POINT GRADE.

The Panama-Pacific Exposition commemorative set was originally released in late 1912 and officially placed on sale on January 1, 1913, two years in advance of the actual exposition (the stamps are inscribed "San Francisco 1915"). The stamps were first issued with 12-gauge perforations. When the Bureau of Engraving and Printing changed to 10-gauge perforations in late 1914, sheets of Panama-Pacific stamps were issued in Perf 10 form. This modification was not officially announced or widely recognized by stamp collectors; therefore, the Perf 10 stamps are much scarcer than their Perf 12 counterparts.

The 10c design depicts the "Discovery of San Francisco Bay," based on a painting by Charles F. Mathews (John, Vol. I, pp.69-70). It depicts the Spanish explorer Gaspar de Portola and his crew with the Muwekma Ohlone natives. In 1769 Portola led the first expedition and observed San Francisco harbor. In 1775 Juan Manuel de Ayala, captain of the Spanish ship San Carlos, was the first to enter the harbor, which led to the establishment of the earliest European settlements.

The 10c was first issued in the standard Yellow used for the regular-issue 10c stamp, but the design was difficult to see in this shade (Scott 400). The stamp color was changed to a darker Orange and issued with 12-gauge perforations (Scott 400A). When the 10-gauge perforations were introduced, a much smaller supply was issued as Orange Perf 10 (Scott 404).

The 10c Panama-Pacific Perf 10, Scott 404, typically comes poorly centered. It is also plagued by short perfs—for a reason. The wide-spaced 10-gauge perfs were introduced by postal officials to strengthen the sheets during handling. Postmasters complained that the Perf 12 sheets broke apart too easily, but the move to Perf 10 went too far, and postmasters then started complaining that they were tearing apart stamps while trying to separate them (Perf 11 ended up being just right). Scott 404 is also much scarcer than its Perf 12 counterparts, Scott 400 and 400A. Only two panes of 70 are reported to survive, and singles bought by collectors were almost invariably hinged in albums. A few statistics from the PSE Population Report (2/25/2008) show the relative scarcity of Scott 400, 400A and 404 in high grades (Mint NH). Looking at 98+ grades, Scott 404 represents less than 20% of the total number of 10¢ Panama- Pacific stamps (6 out of 31). In Gem 100, there is only one Scott 404 (and one 400A in 100J).

VERY FINE AND CHOICE. A RARE MINT NEVER-HINGED EXAMPLE OF THE 1915 TYPE I VERTICAL COIL.

Type I rotary press stamps were produced using the same master dies as had been used for flat plate printings. However, due to the curve of the plate to fit the rotary press, the impressions lacked some of the details of the flat plate printings. New dies were made with strengthened lines, resulting in the Type II stamps. After plate wear was noticed, further strengthening was necessary, resulting in the Type III stamps. Scott 449 was not produced until almost a year and a half after the Type I horizontal coil, Scott 453. Due to the unpopularity of vertical coils, this Type I stamp was in production for only a short period of time before being discontinued.

Live Internet Bidding at Siegel Auctions

Bidding from your computer lets you be part of the live auction from anywhere in the world!

There's no substitute for following the auction in real time. Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.

And it's easy. Just start by following the simple steps to become a registered Live Internet Bidder. Once you've been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Registering with Stamp Auction Network and Siegel Auction Galleries

Live Internet Bidding is managed by Stamp Auction Network (SAN). To bid, you must be registered and approved by *both* SAN and Siegel. To decide what you need to do, choose the description below that best fits you.

I've already registered with SAN and have been approved by Siegel for internet bidding. You're ready for Step 2.

I've never registered with SAN, but I'm a Siegel client. Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form, indicating you are a Siegel client. Once registered at SAN, you're ready for Step 2.

I've never registered with SAN, and this is the first time I've bid with Siegel. Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you're ready for Step 2.

I've bid through SAN before, but this is the first time I've bid in a Siegel sale. Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on "Update Registration" at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you can move to Step 2.

3 Using Live Internet Bidding to bid, track results and communicate with the auctioneer.

When you're logged on as a Live Internet Bidder, the screen will display buttons with bid increments. After you click on a bid amount, the auctioneer is immediately notified of your bid. Retracting a bid is usually not acceptable, so please bid carefully.

If you bid, then decide to stop, please use the "Pass" button, which appears once you've started bidding. This tells the auctioneer not to wait for another bid from you.

You can send messages to the auctioneer (for example, a request for extension). You can also track prior realizations from the bidding screen.

2 Using your browser for Live Internet Bidding and understanding the way it works.

Live Internet Bidding works by providing an audio feed of the auction (for anyone using Internet Explorer) and by allowing registered bidders to observe and place bids. The bidding interface shows a photo and description of the lot, the current bid (and your bidding status), and options for placing competitive bids. To join the auction, go to **stampauctionnetwork.com**/siegel. You can also log on at siegelauctions.com

The visual interface will work with any browser on both PC and Mac operating systems. However, the audio feed only works with Internet Explorer on a PC with ActiveX software installed. If ActiveX is not on your computer, you will have the option to install it.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

"System down" or "lost connection" events do occassionally happen. If you have any problems with Live Internet Bidding, please call 212-753-6421 for immediate assistance.

Campbell incorrectly reported the destination as Rutledge, Virginia, but Grainger County is, in fact, in Eastern Tennessee. The third 10c Agriculture usage listed by Campbell is a portion of the label (essentially a "piece" and offered as such in the Markovits sale). Shipping and Transit Insurance

We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as "floor sale only"). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the invoiced total and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage, but we do not include any fees for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

REVISED Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).
