- 4) Absentee Bids.** All bids received in advance of the sale, either by mail, fax, phone, e-mail or internet, are Absentee Bids, which instruct the auctioneer to bid up to a specific amount on one or more lots in the sale. Absentee Bids sent by phone, fax or e-mail should arrive at least one hour prior to the start of the sale session. Bids entered through Live Internet Bidding will be visible to the auctioneer during the sale. Written bids should be entered legibly on the Bid Form in the sale catalogue. E-mail and internet bids should be carefully typed and double-checked. All new bidders must provide references. We recommend calling or e-mailing to confirm that Absentee Bids sent by mail, fax or e-mail have been received and entered.

### Pre-Sale Viewing

Subject to availability, certain lots (except group lots) can be sent to known clients for examination. Requests must be made no later than 7 days prior to the sale. Lots must be returned on the day received. Postage/insurance costs will be invoiced.

In addition to regular viewing, clients may view lots by appointment. Our staff will be pleased to answer questions or provide additional information about lots.

# Live Internet Bidding at Siegel Auctions

## BIDDING FROM YOUR COMPUTER LETS YOU BE PART OF THE LIVE AUCTION FROM ANYWHERE IN THE WORLD!

There's **NO SUBSTITUTE** for following the auction in real time.  
Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.  
And it's easy.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder.  
Once you've been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

### Registering with STAMP AUCTION NETWORK & SIEGEL AUCTION GALLERIES

Live Internet Bidding is managed by Stamp Auction Network (SAN).  
To bid, you must be registered and approved by *both* SAN and Siegel.  
To decide what you need to do, choose the description below that best fits you.

I've already registered with SAN and have been approved by Siegel for internet bidding.

I'm a Siegel client, but I'm not registered with SAN.

Go to [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel) and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form, indicating you are a Siegel client. Once registered at SAN, you're ready for internet bidding.

I've bid through SAN before, but this is the first time I've bid in a Siegel sale.

Then you just need to be approved by Siegel. Go to [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel) and click on "Update Registration" at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you're ready for internet bidding.

I've never bid with Siegel, nor registered with SAN.

Go to [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel) and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form with **your trade references** (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you're ready for internet bidding.

Live Internet Bidding works by allowing registered bidders to observe and place bids.

Live Internet Bidding will work with any browser on both PC and Mac operating systems.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

### Log on to the auction at [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel).

You can also log on at [siegelauctions.com](http://siegelauctions.com)

When you're logged on as a Live Internet Bidder, the bidding interface shows a photo and description of the lot, the current bid (and your bidding status), options for placing competitive bids and buttons with bid increments.

- After you click on a bid amount, the auctioneer is immediately notified of your bid.
- Retracting a bid is usually not acceptable, so please bid carefully.
- If you bid and then decide to stop, the "Pass" button will tell the auctioneer you are no longer bidding.
- You can send messages to the auctioneer (for example, a request for extension).
- You can track prior realizations from the bidding screen.

"System Down" or "Lost Connection" events do occasionally happen.

If you have any problems with Live Internet Bidding please call **212-753-6421** for immediate assistance.

## Conditions of Sale (please read carefully before bidding)

**THE PROPERTY DESCRIBED IN THIS CATALOGUE WILL BE OFFERED AT PUBLIC AUCTION BY ROBERT A. SIEGEL AUCTION GALLERIES, INC. ("GALLERIES") ON BEHALF OF VARIOUS CONSIGNORS AND ITSELF OR AFFILIATED COMPANIES. BY BIDDING ON ANY LOT, WHETHER DIRECTLY OR BY OR THROUGH AN AGENT, IN PERSON, OR BY TELEPHONE, FACSIMILE OR ANY OTHER MEANS, THE BIDDER ACKNOWLEDGES AND AGREES TO ALL OF THE FOLLOWING CONDITIONS OF SALE.**

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. **The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid ("buyer's premium"), together with any sales tax, use tax or customs duties due on the sale.**
2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.
3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.
4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid ("reserve"), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.**
5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries' custody, but not so noted in the lot description. **All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date.**  
**(5A) EXCLUSIONS: The following lots may not be returned for any reason, or may not be returned for the reasons stated: i) lots containing 10 or more items; ii) lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; iii) any lot described with "faults," "defects" or a specific fault may not be returned because of any secondary fault; iv) photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations; v) the color of the item does not match the color reproduction in the sale catalogue or website listing; vi) the description contains inaccurate information about the quantity known or reported; or vii) a certification service grades a stamp lower than the grade stated in the description.**
6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. **The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. **Credit cards (Visa, Mastercard and Discover only) can be accepted as payment but will be subject to a 3% Convenience Fee, which will be added to the total of the entire invoice (including hammer price, buyer's premium, shipping**

**and transit insurance charges and any applicable taxes).**

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. **Any account more than 30 days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter.** A fee of \$250.00 per check will be charged for each check returned for insufficient funds.
8. All lots are sold as genuine. **Any lot accompanied by a certificate issued by The Philatelic Foundation or by Professional Stamp Experts within 5 years of the sale date is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion.** Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to \$800.00 unless otherwise agreed to in writing.
9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.
10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.
11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. **Buyers who receive lots in the U.S. are obligated to pay whatever sales tax or compensating use tax might be due, and buyers outside the U.S. are responsible for all customs duties.**
12. **The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. The bidder agrees not to use a public conflict resolution service and not to use any form of social media to publish comments or information about the Galleries and its employees which might harm the Galleries' reputation or business. These Conditions of Sale shall be governed by and construed in accordance with the substantive laws of the State of New York, and shall constitute an agreement that shall be binding on the parties, and their respective heirs, administrators, distributees, successors and assignees.**

## Grades, Abbreviations and Values Used in Descriptions

### Grades and Centering

Our descriptions contain detailed information and observations about each item's condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. **A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report<sup>SM</sup> is the most current available, but lots may not be returned due to errors or changes in statistics or data.**

**Extremely Fine Gem (90-100):** The term “Gem” describes condition that is the finest possible for the issue. This term is equivalent to “Superb” used by grading services.

**Extremely Fine (80-90):** Exceptionally large/wide margins or near perfect centering.

**Very Fine (70-85):** Normal-size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

**Fine (60-70):** Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

**Very Good (below 60):** Attractive appearance, but margins or perforations cut into the design.

### Guide to Gum Condition

PRE-1890 ISSUES	<i>Pre-1890 stamps in these categories trade at a premium over Scott value</i>			Scott Value for “O.G.”		Scott “No Gum” Values thru No. 218
1890-1935 ISSUES	Scott “Never Hinged” Values for Nos. 219-771	Scott Value for “O.G.” (Actual value will be affected by the degree of hinging)		<b>Disturbed Original Gum:</b> Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.		
1935 TO DATE	Scott Value for “Unused”					

### Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

### Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the *Scott Catalogue*—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

3

- 3 **Millbury, Massachusetts, 5c Black on Bluish (7X1).** Cut to shape and mounted on small matching color piece, parts of the outer circular frameline drawn in and portion of cancellation on the piece drawn in, clear impression

FINE APPEARING EXAMPLE OF THE RARE MILLBURY, MASSACHUSETTS, POSTMASTER'S PROVISIONAL. ONLY EIGHTEEN ARE RECORDED, INCLUDING NINE USED ON PIECE OR OFF COVER.

The 5c stamp issued by Millbury postmaster Asa Holman is one of two United States provisionals with a portrait (George Washington in both cases). It is also unusual in that the designation "Post Office" appears without any town name, a characteristic in common with the Baltimore and Boscawen provisionals. Our census of the Millbury provisional is available at <http://siegelauctions.com/dynamic/census/7X1/7X1.pdf>

Census No. 7X1-CAN-06. Ex Maffeo. With 1957, 1992 and 2007 P.F. certificates.

NEW HAVEN, CONNECTICUT

4

- 4 **New Haven, Connecticut, 5c Red on White (8XU1).** Full impression of provisional hand-stamped marking with “E A Mitchell” signature in magenta, faults including thins and crease

ONE OF FOUR RECORDED EXAMPLES OF THE NEW HAVEN PROVISIONAL HANDSTAMP STRUCK IN RED ON WHITE PAPER WITH MAGENTA SIGNATURE. ONLY ELEVEN EXAMPLES OF THE NEW HAVEN PROVISIONAL ARE RECORDED, INCLUDING SEVEN IN RED AND FOUR IN BLUE. THIS WAS THE FIRST NEW HAVEN PROVISIONAL TO BE DISCOVERED, IN 1871.

Our census of the New Haven Postmaster’s Provisional is available at <http://www.siegel-auctions.com/dynamic/census/8XU1-8XU4/8XU1-8XU4.pdf>. We record one intact cover, two cut squares and one cut to shape of the 5c Red on White with magenta signature, plus two covers and one cut to shape with black signature.

Discovered by William P. Brown in 1871 and described in *Curiosity Cabinet* May 1871. Ex Brown, Sanford, Hunter, Leavy, Wallis and J. David Baker. With 1948 P.F. certificate stating uncanceled.

History of the New Haven provisional: <http://siegelauctions.com/enc/pdf/NewHaven.pdf>  
 ..... 50,000.00

NEW YORK, NEW YORK

5

- 5 (★) **New York N.Y., 5c Black, Without Signature (9X1e).** Unused (no gum), ample margins to clear at left, small shallow thin spot at top right, Very Fine appearance and rare in unused condition, with clear 1976 A.P.S. certificate as the old No. 9X1d ..... 3,750.00

SAINT LOUIS, MISSOURI

6

- 6 **St. Louis, Missouri, 5c Black on Greenish (11X1).** Type I, Position 1, four margins, appears unused and with two certificates stating unused but we detect clear evidence of a removed pen cancel, faults including tear at top and thin, otherwise Very Fine, with 1971 P.F. (issued to Raymond Weill) and 2012 Weiss certificates, Scott Retail as used .. 8,000.00

7

- 7 (★) **St. Louis, Missouri, 10c Black on Gray Lilac (11X5). Unused (no gum), Type II,** Position 4, large even margins all around, bright and fresh, completely sound

EXTREMELY FINE GEM. AN EXCEPTIONALLY RARE UNUSED EXAMPLE OF THE 10-CENT ST. LOUIS "BEARS" POSTMASTER'S PROVISIONAL ON GRAY LILAC PAPER IN THE FINEST CONDITION ATTAINABLE.

A review of name-sale auctions and Power Search reveals how rare any St. Louis Bear stamp is in sound unused condition. Among all three of the papers used to print the stamp and counting all three denominations, the population we have sold in sound unused condition can be counted on less than one hand. Only one example with original gum is known to exist — the incomparable corner sheet-margin 10c on Greenish Paper (Scott 11X2) from the Frelinghuysen collection, which realized \$150,000 hammer in our Sale 1020 in 2012. Power Search located only one other unused stamp on the Gray Lilac paper, and it is faulty. The Faiman collection contained several uncanceled stamps in both 5c and 10c denominations, but only one was fault free (11X2 on Greenish, in a strip of three on cover, so not collectible as a single). Combining soundness with large even margins, this is a spectacular classic rarity.

Ex Col. Green, T. Cullen Davis ("Texas Collector") and Peyton ("Isleham"). With 2009 P.S.E. certificate (XF 90). This is the highest grade awarded to any unused St. Louis Provisional. SMQ does not price Postmasters' Provisionals, but if they did it is safe to say that an unused 10c St. Louis Bear graded XF 90 would be well in excess of Scott Retail, which is..... 50,000.00

## 1847 ISSUE

8

- 8 (★) **5c Grayish Brown (1a).** Unused (regummed), full to large margins, dark shade, Very Fine and choice, with 2003 P.S.E. certificate..... 3,250.00

- 9 (★) **10c Black (2).** Unused (regummed), narrow margins but clear all around, small repair at top left adds portion of margin and frameline, tiny thin at bottom, still appears Fine, an affordable example of this rare unused stamp, with 2001 P.F. certificate..... 15,000.00

9

## 1875 REPRODUCTION OF 1847 ISSUE

10

- 10 ★ **5c Red Brown, Reproduction (3).** Without gum as issued, full to clear margins, fresh and Fine, with 2000 P.F. certificate..... 850.00

- 11 ★ **10c Black, Reproduction (4).** Without gum as issued, intense shade, large margins, Extremely Fine, tiny purple backstamp, with 1998 P.F. certificate ..... 1,050.00

11

## 1851-56 ISSUE

12

- 12 **1c Blue, Ty. I (5).** Position 7R1E, large top margin showing complete design at top, bottom margin preserves complete bottom left plume, in at right with approximately half of bottom right plume present, neat single stroke pen cancel, bright early color, light horizontal crease near top and small surface scuffs at left

FINE APPEARING EXAMPLE OF THE ONE-CENT 1851 TYPE I, POSITION 7R1E, WHICH IS THE ONLY ONE OF THE 1,000 POSITIONS USED TO PRINT IMPERFORATE ONE-CENT STAMPS THAT SHOWS THE COMPLETE DESIGN.

The published census compiled by Jerome S. Wagshal contains 90 unduplicated records of Scott 5. There have been one or two additions to the Wagshal census, and there are probably no more than a few examples existing outside of the census population. Therefore, the 1c 1851 Type I is the rarest of all United States stamps regularly issued prior to the 1868 Grills.

Wagshal Census No. 5-CAN-056 (formerly in a vertical strip of three). With 1972 P.F. certificate ..... 67,500.00

13

- 13 (★) **1c Blue, Ty. Ib (5A).** Position 5R1E, based on our familiarity with Plate 1 Early singles and multiples with original gum, we are confident that the gum on this stamp is original — it is described on 1988 and 1989 P.F. certificates as regummed and as original gum on 2000 P.S.E. certificate — large margins to in at top including part of adjoining stamp at left, crisp early shade and impression

A RARE ORIGINAL-GUM EXAMPLE OF THE 1851 ONE-CENT TYPE Ib IMPERFORATE. THIS IS WITHOUT QUESTION ONE OF THE RAREST OF ALL UNITED STATES CLASSICS TO OBTAIN IN UNUSED CONDITION.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1 Early furnished stamps qualifying as Type Ib—Positions 3-6R and 8-9R—distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burnished away.

A thorough search of past auctions and our own extensive records produced a result that surprised us. The unique block of eight from Plate 1E contains Position 7R1E (Scott 5) and five Type Ib stamps (with faults). The famous ex-Waterhouse copy of Position 7R1E is joined with a pair of Type Ib stamps (this unused unit is currently owned by William H. Gross). The multiples, containing a total of seven Type Ib stamps, really do not fit the needs of collectors who want a single unused example of Scott 5A. We located only four other unused singles, and we were surprised at the conspicuous absence of any unused Scott 5A stamps in major name sales, including Wagshal. The last we offered before this was in our 2008 Hoffman sale.

- 14 **1c Blue, Ty. Ia (6).** Position 94L4, full margins all around showing complete design at bottom, deep Plate 4 color on bright paper, practically uncanceled, tiny thin speck at bottom left

EXTREMELY FINE APPEARING EXAMPLE OF THE 1851 ONE-CENT IMPERFORATE TYPE Ia.

Stamps printed from Plate 4 were issued in April, May and briefly in June 1857 before perforations were introduced. The relatively small number of imperforate Plate 4 stamps issued during this period explains the rarity and desirability of any of the imperforate stamp types produced from this plate (Ia, Ic, II, III and IIIa). The extremely rare Type Ia, showing the full design at bottom, was furnished only by 18 of the 200 subjects on Plate 4 (the remaining two bottom-row positions were sub-type Ic).

FINE APPEARING AND RARE UNUSED EXAMPLE OF THE 1851 ONE-CENT IMPERFORATE TYPE III, WITH CLEAR AND DISTINCT BREAKS IN OUTER LINES AT TOP AND BOTTOM — THE DEFINING CHARACTERISTICS OF THE TYPE.

Type III is defined by breaks in the outer lines at *both* top and bottom. Many Type III stamps have breaks that were created or enlarged by plate wear. Since the wear occurred over a period of time, a majority of stamps of this type (both unused and used) have small breaks in at least one line.

VERY FINE APPEARANCE. A RARE ORIGINAL-GUM EXAMPLE OF THE 1858 5-CENT BRICK RED.

Many collectors know this issue by type and shade, but few are aware of the order of production (or release). This state of confusion is partly due to the Scott Catalogue. The distinctive Brick Red shade of the 5c 1857 Issue comes first in the series of Scott-listed perforated 5c issues, but its true release date comes later in the sequence.

Based on dated covers, the 5c Type I shades were released in the following order: 1) Red Brown, Scott 28, EDU 8/23/1857; 2) Indian Red, Scott 28A, EDU 3/31/1858; 3) Brick Red, Scott 27, EDU 10/6/1858; and 4) Brown, Scott 29, EDU 3/21/1859, almost certainly the last printing from the first 5c plate. The second 5c plate was made from a new six-relief transfer roll with the design projections cut away at top and bottom, to varying degrees. The Type II Brown was issued first (Scott 30A, EDU 5/4/1860), and the Orange Brown printing from the same plate followed about one year later (Scott 30, EDU 5/8/1861).

After surveying dozens of classic United States sale catalogues, we found approximately twenty examples of Scott 27 with original gum, allowing for duplicate offerings and excluding the one known original-gum block. Of the stamps we counted, about half had perfs touching on two sides or were deeply cut into on one side. Almost two-thirds had stains or small faults.

- 37 (★) **5c Red Brown (28).** Unused (no gum), deep rich color and proof-like impression on bright paper, unusually choice centering for this difficult issue with perforations clear of outer projections on all four sides, small corner thin at bottom left mentioned on accompanying certificates is negligible and barely noticeable even under magnification  
EXTREMELY FINE APPEARANCE. A RARE UNUSED EXAMPLE OF THE 1857 5-CENT RED BROWN.

The perforated 5c “1856” Red Brown (Scott 28) stamps were made from the stock of imperforate stamps on hand in 1857 when perforations were introduced. Since these were the first 5c stamps to be put through the perforating machine, they were the first to be used. As such, very few are known with original gum — we have offered only two singles and a block since 1998. This is only the seventh unused (no gum) example we have offered since keeping computerized records. Most have flaws or are off-center. The example offered here, with superior centering and a negligible flaw, should be considered highly desirable.

VERY FINE APPEARING EXAMPLE OF THE 1861 90-CENT FIRST DESIGN. THIS IS THE SECOND RAREST STAMP OF THE 1861 FIRST DESIGNS AND COLORS.

Our census of the 1861 First Designs and Colors, available at <http://www.siegel-auctions.com/dynamic/census/62/62.pdf>, contains 22 examples of Scott 62, including one copy in the Miller collection at The New York Public Library and another copy certified as a privately-perforated No. 62a which comes from a set in the Col. Green sale that was signed by John Luff (we believe this stamp to be genuine). Another has been certified as genuine with a trial cancel.

Census No. 62-UNC-10. Ex Curtis. With 1974 and 2003 P.F. certificates. Scott Retail as original gum..... 50,000.00

- 67 (★) **10c Dark Green, First Design (62B).** Unused (no gum), deep rich color and proof-like impression on bright paper, choice centering with perforations well clear of design on all sides

EXTREMELY FINE. A RARE SOUND AND CENTERED UNUSED EXAMPLE OF THE 10-CENT 1861 FIRST DESIGN.

This stamp is extremely difficult to find in well-centered, sound, unused condition. This is partly due to the narrow spacing on Plate 4, which produced the First Design (Type I, Scott 58 or 62B).

With 1965 (as 58) and 2002 (as 62B) P.F. certificates. ...

# Live Internet Bidding at Siegel Auctions

## BIDDING FROM YOUR COMPUTER LETS YOU BE PART OF THE LIVE AUCTION FROM ANYWHERE IN THE WORLD!

There's **NO SUBSTITUTE** for following the auction in real time.  
Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.  
And it's easy.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder.  
Once you've been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

### Registering with STAMP AUCTION NETWORK & SIEGEL AUCTION GALLERIES

Live Internet Bidding is managed by Stamp Auction Network (SAN).  
To bid, you must be registered and approved by *both* SAN and Siegel.  
To decide what you need to do, choose the description below that best fits you.

I've already registered with SAN and have been approved by Siegel for internet bidding.

I'm a Siegel client, but I'm not registered with SAN.

Go to [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel) and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form, indicating you are a Siegel client. Once registered at SAN, you're ready for internet bidding.

I've bid through SAN before, but this is the first time I've bid in a Siegel sale.

Then you just need to be approved by Siegel. Go to [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel) and click on "Update Registration" at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you're ready for internet bidding.

I've never bid with Siegel, nor registered with SAN.

Go to [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel) and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form **with your trade references** (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you're ready for internet bidding.

Live Internet Bidding works by allowing registered bidders to observe and place bids.

Live Internet Bidding will work with any browser on both PC and Mac operating systems.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

### Log on to the auction at [stampauctionnetwork.com/siegel](http://stampauctionnetwork.com/siegel).

You can also log on at [siegelauctions.com](http://siegelauctions.com)

When you're logged on as a Live Internet Bidder, the bidding interface shows a photo and description of the lot, the current bid (and your bidding status), options for placing competitive bids and buttons with bid increments.

- After you click on a bid amount, the auctioneer is immediately notified of your bid.
- Retracting a bid is usually not acceptable, so please bid carefully.
- If you bid and then decide to stop, the "Pass" button will tell the auctioneer you are no longer bidding.
- You can send messages to the auctioneer (for example, a request for extension).
- You can track prior realizations from the bidding screen.

"System Down" or "Lost Connection" events do occasionally happen.

If you have any problems with Live Internet Bidding please call **212-753-6421** for immediate assistance.

FINE APPEARING AND RARE UNUSED EXAMPLE OF THE 12-CENT 1870 NATIONAL GRILLED ISSUE. THIS IS THE MOST DIFFICULT DENOMINATION OF THE SET TO OBTAIN IN UNUSED CONDITION.

Collectors prefer examples showing the “R” watermark, as this letter is unequivocally from “USIR”, while a partial “P” (from “USPS”) can sometimes fool collectors by appearing as an “I”.

With 2009 P.S.E. certificate (XF-Superb 95; SMQ \$4,750.00). Only one stamp has been graded higher (at 95J) and only one other shares this grade. The other example graded 95, while also showing the more desirable “R” watermark, has a much heavier cancel than the example offered here. The single example graded 95J shows the “I” of the watermark. The combination of the “R” watermark and light cancel arguably makes this the most desirable P.S.E. graded Scott 272a ..... 1,000.00

All of the \$2.00 Trans-Mississippi stamps were printed in a single day's run on June 3, 1898. The \$2.00 was printed in sheets that have narrower spacing between the horizontal rows than between the vertical columns. For this reason, it is extremely difficult to obtain stamps with top and bottom margins that equal the sides.

A survey of the Levi records produced 64 single unused stamps (excluding the block of four and rejoined block of four). Many of these were described in auction catalogues more than 40 years ago; therefore, the determination of soundness is uncertain. However, assuming the old descriptions were reaffirmed today, approximately 45% of singles across all centering categories have faults.

VERY FINE APPEARING EXAMPLE OF THE 4-CENT PAN-AMERICAN INVERT.

The 4c stamp portrays an electric automobile, known at the time as the “Electric Vehicle Service,” as depicted on the Baltimore & Ohio Railroad brochure from which the engraving was made. In the background one can see the dome of the Capitol. One of the two men seated at the front was Samuel B. Hege, B&O’s passenger agent, so this stamp actually depicts a living person in violation of the law.

The 4c Pan-American Invert was a special printing and not regularly issued. Examples were distributed through two official channels, and the gum on the majority of stamps without “Specimen” overprint was disturbed. In fact, because 97 of the stamps were removed from an album page, they are generally thinned or have seriously disturbed gum.

VERY FINE APPEARING UNUSED EXAMPLE OF THE 4-CENT 1908 IMPERFORATE, SCOTT 314A. ONLY FOUR PAIRS, TWO LINE PAIRS AND NINE SINGLES ARE KNOWN IN UNUSED CONDITION.

Our census of unused Scott 314A, available at <http://www.siegelauctions.com/enc/census/314A.pdf>, records four pairs, two guide line pairs and nine singles, for a total of 21 unused stamps. One of the singles is in the Benjamin K. Miller collection at The New York Public Library. Our census also contains 44 used examples, including three strips of three (one in the Miller collection and one on cover), three singles on separate covers, and 32 single used copies.

With the rising popularity of vending and affixing machines, the Bureau of Engraving and Printing received numerous requests from manufacturers for supplies of imperforate stamps, which could then be privately perforated to conform to each firm's machine. In May 1908, a supply of 25 sheets (400 stamps per sheet) of the 4c 1902 Issue, without perforations, was delivered to the Schermack Mailing Machine Co. in Detroit. The entire supply was cut into coils with Schermack Type III perforations, designed for the firm's patented affixing machine and delivered to the Winfield Printing Co. for use on mass mailings of advertising material. Approximately 6,000 were used on a mailing for Hamilton Carhartt Manufacturer, and almost all of the 4,000 balance were used on a mailing for Burroughs Adding Machine Co.

All of the Scott 314A stamps that exist in unused condition originate from a local Detroit stamp collector, Karl Koslowski, who was the only one to purchase some of the 4c Imperforates, either from the Winfield Printing Company or from the Schermack firm. His earliest account of the event appeared two years later in the *Philadelphia Stamp News*, and is considered to be the most reliable of several conflicting stories told by Koslowski (and interpreted by others) at later dates. In the 1910 article, Koslowski explains that he purchased 50 stamps and expected to be able to buy more, but the supply was destroyed when he returned. We can account for 32 of the 50 stamps Koslowski claims he acquired. There are 21 unused stamps currently in our census, all of which must have come from him, and he used at least 11 stamps on mail to friends, including the strip of three on a Koslowski cover, two used strips of three off cover (the mass mailings were all singles) and two singles on separate Koslowski covers. The earliest known cover is dated at Detroit on May 27, 1908, from Koslowski to a friend in Austria, and the latest is dated April 8, 1909, which was mailed to him using a sheet-margin single from Sicklerville, New Jersey. Apart from the stamps Koslowski used, there is one recorded commercial cover (June 2, 1908) and approximately 32 used single stamps, most of which were probably removed from the mass-mailing covers.

10-CENT PERF 12 COIL.

According to Johl (Volume 1, page 181), only 10,000 of the 10c Washington coil stamp were issued. They were made especially for a New York firm to send out advertising samples, similar to the 3c Orangeburg coil. Only a few rolls were sold to the firm, and the remaining rolls were distributed to some of the large post offices across the country. Dealers acquired several rolls, but because most contemporary collectors did not collect coils, many were used and destroyed.

EXTREMELY FINE APPEARING EXAMPLE OF ONE OF THE GREAT COIL RARITIES IN UNITED STATES PHILATELY.

The Orangeburg coil was made by the Post Office Department in 1911, specifically for use by the Bell Pharmaceutical Company. The 3c coil stamps were used to send samples of their products to physicians. Due to the quantity of mail, they were put through the first-class cancelling machine at Orangeburg, New York. The Orangeburg coil stamps' use on third-class mail, and the fact that philatelists were generally unaware of their production accounts for their rarity. Many have small faults such as corner creases or small tears.

A FINE AND SCARCE MINT NEVER-HINGED JOINT LINE PAIR OF THE 1915 2-CENT TYPE I VERTICAL COIL, SCOTT 449.

The 2c Type I rotary plate was used very briefly to make vertical coils issued in late 1915. It was briefly used because the Type I plate was not very deeply engraved and the curvature of the rotary press yielded impressions lacking in some of the details. The Bureau noticed this immediately, and quickly replaced it with the Type III plate (according to Scott, the EDU for No. 449 is Oct. 29, 1915, and the EDU for Type III is Dec. 10, 1915).

408 **2c Deep Rose, Ty. Ia, Imperforate, Schermack Ty. III Private Perforation (482A).** Deep rich color on bright white paper, Schermack perforations completely intact at left showing significant portion of adjoining stamp at left, cancel leaves design clearly visible, shallow thin spot at top, tiny tear to the left of Schermack perf at upper left outside the boundary of the stamp itself (neither of these observations mentioned on accompanying certificate)

FINE APPEARANCE. ONE OF ONLY 40 RECORDED EXAMPLES OF THIS MAJOR 20TH CENTURY RARITY.

Scott 482A, like its slightly more famous predecessor, Scott 314A, was issued imperforate by the Bureau of Engraving and Printing and sold to the Schermack Company for use in its patented stamp-affixing machines. The Schermack "Sealer and Stamper" machine typically applied stamps one at a time, and, in most cases, the hyphen-hole perfs on one side would be cut off. Unlike Scott 314A, the release of imperforate sheets printed from the experimental Type Ia plates escaped the notice of contemporary collectors, and, therefore, has a very small survival rate.

Our census of Scott 482A, available at our website at <http://siegelauctions.com/dynamic/census/482A/482A.pdf>, records three covers, one unused single, a used pair and 40 used singles for a total of 46 stamps. Most examples are either cut well into the design or have the Schermack perfs trimmed away on one side.

EXTREMELY FINE. A BEAUTIFUL EXAMPLE OF THE 5-CENT IMPERFORATE ERROR IN A BLOCK OF NINE.

During the course of production of the normal 2c plate no. 7942, three positions were noted to be defective. The plate was returned to the siderographer, who burnished out the three positions and mistakenly re-entered them using a transfer roll for the 5c stamp. The error passed unnoticed and the sheets were issued to the public Perf 10, Imperforate and Perf 11 (Scott 467, 485 and 505). The imperforate is by far the rarest of the three.

VERY FINE APPEARING EXAMPLE OF THE ONE-CENT ROTARY PERF 11 ISSUE, SCOTT 594. ONE OF THE RAREST 20TH CENTURY STAMPS.

The 1c Green, Scott 594, is waste from a horizontal rotary printing used to make coils. At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was produced that was too short for rolling into 500-stamp rolls. In 1919 the Bureau devised a plan to salvage this waste by perforating and cutting the sheets into panes. They were put through the 11-gauge flat-plate perforator in use at the time, giving the sheets full perforations on all sides. The existence of Scott 594 was not reported until four months after the final sheets were delivered, and the 1c Rotary Perf 11 was soon recognized as one of the rarest United States stamps.

Our recently completed exhaustive census of Scott 594, available at our website at: <http://www.siegelauctions.com/dynamic/census/594/594.pdf>, contains 92 used singles, four used pairs and five covers (including one with a pair) for a total of 106 used stamps. Many have perforations either in on one or more side, or have faults.

FINE. A RARE SOUND EXAMPLE OF THE 2-CENT HARDING ROTARY PERF 11.

Warren G. Harding, the 29th President, died in San Francisco on August 2, 1923, during a cross-country "Voyage of Understanding". Several people suggested a Harding memorial stamp, printed in black, and it was rushed into production. The first flat plate printing (Scott 610) was issued on September 1, 1923, in his home town of Marion, Ohio, followed less than two weeks later by the normal Perf 10 rotary press printing (Scott 612) on September 12.

The 2c Harding Rotary Perf 11 stamp was discovered in 1938 by Leslie Lewis of the New York firm, Stanley Gibbons Inc. Gary Griffith presents his hypothesis in *United States Stamps 1922-26* that rotary-printed sheets of 400 were first reduced to panes of 100 and then fed through the 11-gauge perforating machine normally used for flat plate sheets. This method explains the existence of a straight-edge on Scott 613. Production quality and quantity was very low, due to the rotary press stamps' natural tendency to curl, and the use of the flat plate perforator for the slightly different-sized rotary printing.

Our census of the 2c Harding Rotary Perf 11, available at our website at <http://www.siegel-auctions.com/dynamic/census/613/613.pdf>, records 45 used singles (one faintly cancelled, if at all), one used pair and the recently-discovered used strip of three. Of the singles, 20 are sound (nine need to be reexamined for condition), but of these only six rate a grade of Very Fine or Extremely Fine. The sound example offered here is very desirable.
