Absentee Bids sent by phone, fax or e-mail should arrive at least one hour prior to the start of the sale session. Bids entered through Live Internet Bidding will be visible to the auctioneer during the sale. Written bids should be entered legibly on the Bid Form in the sale catalogue. E-mail and internet bids should be carefully typed and double-checked. All new bidders must provide references. We recommend calling or e-mailing to confirm that Absentee Bids sent by mail, fax or e-mail have been received and entered.

Live Internet Bidding at Siegel Auctions

BIDDING FROM YOUR COMPUTER LETS YOU BE PART OF THE LIVE AUCTION FROM ANYWHERE IN THE WORLD!

There's **NO SUBSTITUTE** for following the auction in real time.

Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.

And it's easy.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder.

Once you've been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

Registering with **STAMP AUCTION NETWORK & SIEGEL AUCTION GALLERIES**

Live Internet Bidding is managed by Stamp Auction Network (SAN).

To bid, you must be registered and approved by *both* SAN and Siegel.

To decide what you need to do, choose the description below that best fits you.

I've already registered with SAN and have been approved by Siegel for internet bidding.

I'm a Siegel client, but I'm not registered with SAN.

Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form, indicating you are a Siegel client. Once registered at SAN, you're ready for internet bidding.

I've bid through SAN before, but this is the first time I've bid in a Siegel sale.

Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on "Update Registration" at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you're ready for internet bidding.

I've never bid with Siegel, nor registered with SAN.

Go to stampauctionnetwork.com/siegel and click on "Register" at the top. Check the box for Robert A. Siegel Auction Galleries (under "R") and submit the form **with your trade references** (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you're ready for internet bidding.

Live Internet Bidding works by allowing registered bidders to observe and place bids.

Live Internet Bidding will work with any browser on both PC and Mac operating systems.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

Log on to the auction at stampauctionnetwork.com/siegel.

You can also log on at siegelauctions.com

When you're logged on as a Live Internet Bidder, the bidding interface shows a photo and description of the lot, the current bid (and your bidding status), options for placing competitive bids and buttons with bid increments.

- After you click on a bid amount, the auctioneer is immediately notified of your bid.
- Retracting a bid is usually not acceptable, so please bid carefully.
- If you bid and then decide to stop, the "Pass" button will tell the auctioneer you are no longer bidding.
- You can send messages to the auctioneer (for example, a request for extension).
- You can track prior realizations from the bidding screen.

"System Down" or "Lost Connection" events do occasionally happen.

If you have any problems with Live Internet Bidding please call **212-753-6421** for immediate assistance.

Conditions of Sale (please read carefully before bidding)

THE PROPERTY DESCRIBED IN THIS CATALOGUE WILL BE OFFERED AT PUBLIC AUCTION BY ROBERT A. SIEGEL AUCTION GALLERIES, INC. ("GALLERIES") ON BEHALF OF VARIOUS CONSIGNORS AND ITSELF OR AFFILIATED COMPANIES. BY BIDDING ON ANY LOT, WHETHER DIRECTLY OR BY OR THROUGH AN AGENT, IN PERSON, OR BY TELEPHONE, FACSIMILE OR ANY OTHER MEANS, THE BIDDER ACKNOWLEDGES AND AGREES TO ALL OF THE FOLLOWING CONDITIONS OF SALE.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. **The purchase price payable by the buyer will be the sum of the final bid and a commission of 18% of the final bid ("buyer's premium"), together with any sales tax, use tax or customs duties due on the sale.**
2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.
3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.
4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid ("reserve"), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.**
5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries' custody, but not so noted in the lot description. **All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date.**
(5A) EXCLUSIONS: The following lots may not be returned for any reason, or may not be returned for the reasons stated: i) lots containing 10 or more items; ii) lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; iii) any lot described with "faults," "defects" or a specific fault may not be returned because of any secondary fault; iv) photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations; v) the color of the item does not match the color reproduction in the sale catalogue or website listing; vi) the description contains inaccurate information about the quantity known or reported; or vii) a certification service grades a stamp lower than the grade stated in the description.
6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. **The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. **Credit cards (Visa, Mastercard and Discover only) can be accepted as payment but will be subject to a 3% Convenience Fee, which will be added to the total of the entire invoice (including hammer price, buyer's premium, shipping**

and transit insurance charges and any applicable taxes).

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. **Any account more than 30 days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter.** A fee of \$250.00 per check will be charged for each check returned for insufficient funds.
8. All lots are sold as genuine. **Any lot accompanied by a certificate issued by The Philatelic Foundation or by Professional Stamp Experts within 5 years of the sale date is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion.** Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to \$800.00 unless otherwise agreed to in writing.
9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.
10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.
11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. **Buyers who receive lots in the U.S. are obligated to pay whatever sales tax or compensating use tax might be due, and buyers outside the U.S. are responsible for all customs duties.**
12. **The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. The bidder agrees not to use a public conflict resolution service and not to use any form of social media to publish comments or information about the Galleries and its employees which might harm the Galleries' reputation or business. These Conditions of Sale shall be governed by and construed in accordance with the substantive laws of the State of New York, and shall constitute an agreement that shall be binding on the parties, and their respective heirs, administrators, distributees, successors and assignees.**

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item's condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. **A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population ReportSM is the most current available, but lots may not be returned due to errors or changes in statistics or data.**

Extremely Fine Gem (90-100): The term "Gem" describes condition that is the finest possible for the issue. This term is equivalent to "Superb" used by grading services.

Extremely Fine (80-90): Exceptionally large/wide margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. "Very Fine and choice" applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

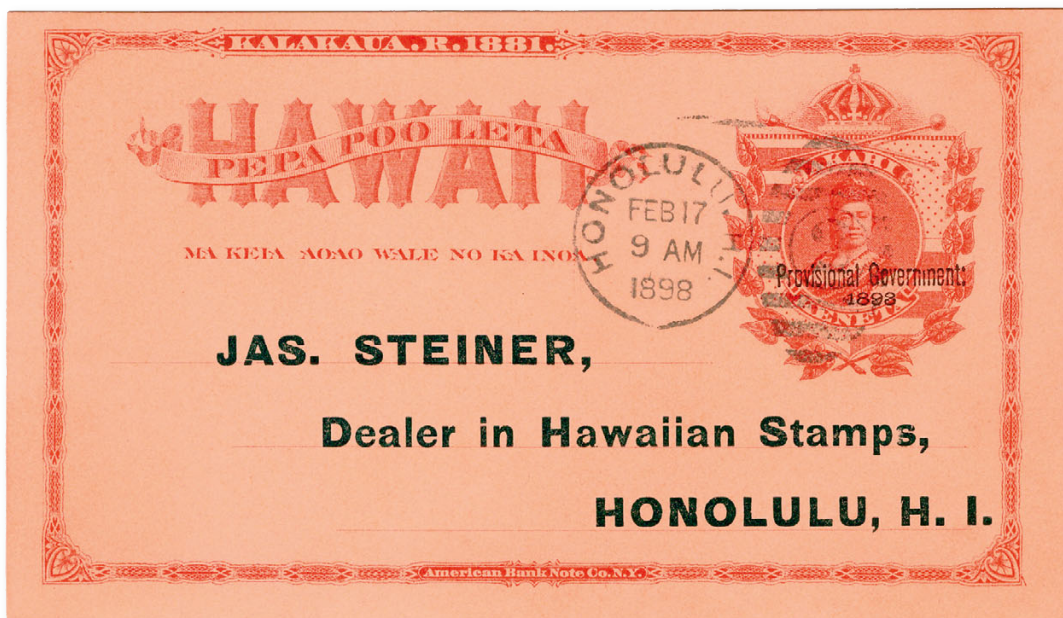

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an "E." and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the *Scott Catalogue*—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

Hawaiian postal card with printed address of James Steiner in Honolulu, an early stamp dealer and grandfather of Keith J. Steiner

Selection of Hawaiian stamps on presentation sheet sold by James Steiner

THE KEITH J. STEINER COLLECTION OF HAWAIIAN NUMERALS

KEITH STEINER'S HAWAIIAN STAMP COLLECTION HAS ITS ORIGINS IN HIS grandfather, James Steiner. When Keith was just eleven years old, James Steiner passed away and bequeathed to Keith an *Illustrated Postage Stamp Album* that had been imported from Austria in 1888. Later, Keith also inherited other stamps that James had acquired as a dealer of stamps.

James Steiner came to Hawaii in 1882 from Bohemia, in the area now known as the Czech Republic. He immediately secured employment with the catering company of Hart Brothers, and eventually became a partner in the firm. He was the president of Hart & Company after the enterprise incorporated. James Steiner began collecting stamps soon thereafter and, as early as July 1886, placed advertisements in local publications offering to buy used Hawaiian stamps. Following the overthrow of the monarchy in 1893, he purchased a large quantity of the new provisional issues. By 1898 James Steiner was well known as a dealer specializing in Hawaiian stamps.

In addition to his philatelic interests, James Steiner also published beautiful colorized Hawaiian souvenir postcards through his company, the Island Curio Store, which he started at the turn of the century. Keith Steiner has an extensive collection of the postcards published by his grandfather, and in 2001 published a book entitled *Hawaii's Early Territorial Days Viewed From Vintage Postcards by Island Curio*.

James Steiner went on to construct the Elite Building on Adams Lane, at the corner of Hotel Street and Bishop Street in Honolulu, from which the family continues to operate today. James Steiner was one of the early residents of Waikiki, and, as early as 1900, he lived on beachfront property.

Around 1985, Keith Steiner began seriously collecting stamps, concentrating exclusively on Hawaii. While his collection contains a good representation of all issues, his primary focus was on the Numeral Issues that are featured in this sale. Keith's exhibit, "Hawaiian Numerals—A Plating Study," was displayed at Westpex in San Francisco in April 2005 and was awarded a Gold medal. Since then, he has continued to improve the collection with important items and complete plate reconstructions.

Keith Steiner is now retired, but continues his fascination with philately. Proceeds from the sale of his Hawaiian Numerals collection will be donated to the family's charitable foundation, the Keith and Polly Steiner Family Foundation.

1859-65 NUMERAL ISSUES

THE NUMERALS WERE HAWAII'S FIRST STAMPS FOR LOCAL AND INTER-ISLAND POSTAGE. Before August 1859, Hawaiian inter-island mail was carried free of charge by schooners, and there was no charge for letters delivered locally. With the rise in inter-island correspondence came a greater need for collecting postage. In 1859 the postal laws were amended to include a 2¢ per half-ounce postage rate for inter-island letters (and 1¢ for printed matter), effective August 1. Drop letters left at and picked up at the same post office were not subject to postage, nor were consignee letters handled by ship captains, as long as they did not go through the post office.

The simple typeset Numeral stamps were intended to be a temporary measure until new 1¢ and 2¢ stamps could be ordered, printed and delivered. Far from being temporary, the Numerals maintained a prominent position in Hawaii's postal history for a period of seven years.

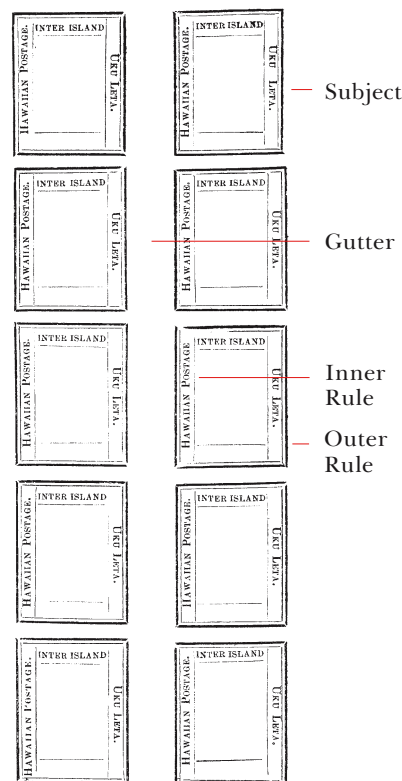

The Numerals were printed from newspaper type on a small hand-operated Ruggles card press. The early printings were made at the offices of Henry M. Whitney's newspaper, the *Pacific Commercial Advertiser*. Later printings were made by another private printer and at the Government Printing Office.

The Numerals encompass fifteen major Scott numbers. The table on page 9 will help collectors visualize and identify the complex Numeral Issue printings. Each time the denomination was changed and the type had to be reset, philatelists call it a new *setting*. There were twelve settings of Numerals from 1859 to 1865, which produced 1¢, 2¢ and 5¢ stamps. When the arrangement was modified, but the denomination stayed the same, philatelists call it a separate *plate* (the correct printer's term would be a typeset "form"). The Numerals were printed from at least 29 different *plates*. Much of the work in assigning stamps to specific plates and reconstructing the arrangement of each plate was accomplished by the late J. F. Westerberg. In recent years Westerberg's work has been expanded and improved upon by philatelists such as Geoffrey Brewster, Fred Gregory, Thurston Twigg-Smith, and Keith Steiner.

The Numerals' production method — the use of loose type, printing in various colors on different papers, and making more than one impression on a sheet of paper—has provided collectors with a tremendous variety of fascinating items, including rare basic stamps, unusual typographic varieties and spectacular multiples, such as tête-bêche pairs and blocks. The postal history of the period in which the Numerals were used is also rich in artifacts, including inter-island covers, postmarks from exotic locations and colorful mixed-franking covers with United States stamps.

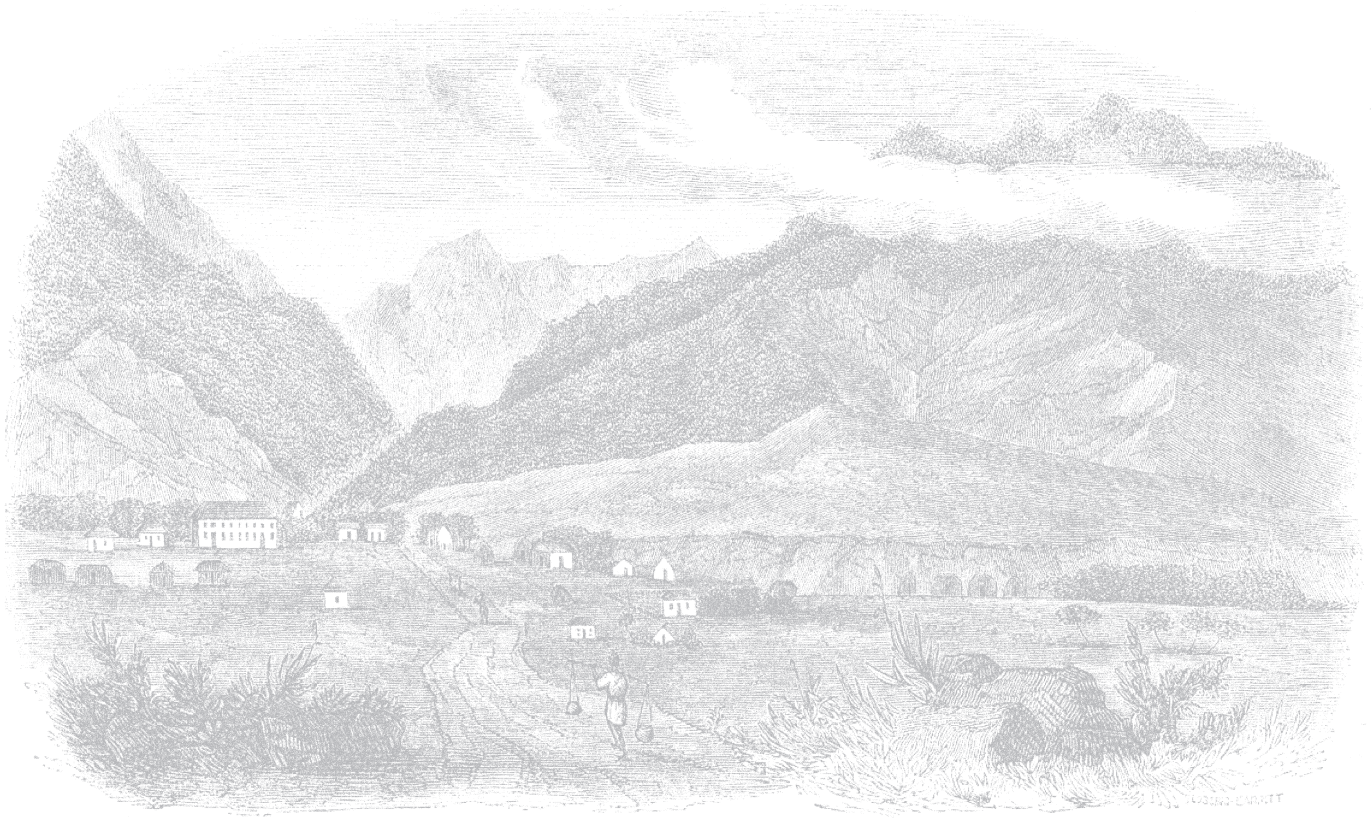

The following terms are used to describe the Numerals:

- Gutter** Vertical space between columns on plate, not to be confused with a straddle-pane margin between two impressions on sheet
- Plate** Arrangement of 10 subjects in the plate, showing typographic characteristics that distinguish each subject from those of any other plate
- Position** Relative location of subject on plate of 10
- Rule** The thick or thin lines surrounding the design and numeral
- Setting** Used to describe a plate revised by inserting a new denomination in the subjects
- Straddle-Pane** Vertical space between two impressions from plate on a sheet, not to be confused with a gutter margin between two columns on a plate
- Margin** Columns on a plate
- Tête-Bêche** A pair or multiple with columns inverted in relation to each other, resulting from print-and-turn production
- Type** Classification of a subject according to characteristics that remain relatively constant from one plate to another (I, II, III...X). Also called a cliché.

WAILUKU POST OFFICE

1001 ☒ **“Wailuku P.O., May 31”.** Manuscript postmark in two lines with matching “Free” on folded letter datelined “*Makawao May 30, 1850*” from D. D. Baldwin to his missionary father in Lahaina

VERY FINE. THIS IS THE EARLIEST FORM OF WAILUKU POSTMARK, APPLIED BY THE FIRST “UNOFFICIAL” POSTMASTER, REVEREND EDWARD W. BAILEY.

According to Gregory, the Wailuku post office was officially established in 1859. Prior to 1859, the Reverend Edward W. Bailey served as an unofficial postmaster. This Wailuku postmark, reported to be the earliest example extant, is in the hand of the Reverend Bailey. The “Free” was not necessary since inter- and intra-island mail was postage-free by legislative order until 1859.

1002 ☒ **Honolulu*Hawaiian-Islands*Mar. 10.** Bold strike of red circular datestamp on folded letter datelined "*Punahou March 16th 1852*" and addressed to Rev. Dwight Baldwin at Lahaina, one-page letter from his 15-year-old son in school, light vertical file folds, some toning

VERY FINE. POSSIBLY THE EARLIEST USE OF THE HONOLULU "HAWAIIAN ISLANDS" CIRCULAR DATESTAMP ORDERED BY POSTMASTER WHITNEY.

The earliest date for the "U.S. Postage Paid" version is February 10, 1852. In addition to its early date, the example offered here is remarkable because it is struck on an inter-island letter. This marking was used almost exclusively on mail to other countries. The anachronism of the "Mar. 10" date in the postmark and the March 16 letter date can only be explained with "they made a mistake."

Plate 2-B, Type X (Westerberg Position 2), margins to cut in along frameline at top right, manuscript “X” cancel, **letters at bottom almost completely omitted** — much more is missing than just “1 Ce” as listed in Scott — part of “Inter” at top also printed faintly if at all, few faults including tear at top left, thin spot at center, erosion in cancel and toned

FINE APPEARANCE. AN EXTREMELY RARE EXAMPLE OF THE 1859 ONE-CENT BLUE HAWAIIAN NUMERAL ISSUE WITH DENOMINATION MISSING AT BOTTOM. ONLY TWO ARE RECORDED. ONE OF THE GREATEST HAWAIIAN NUMERAL RARITIES.

Only two examples of the 1859 1c Blue Numeral are known with the “1 Ce” missing. The other, Type VIII from Position 4 (the position below this one), was last offered in our 1995 Honolulu Advertiser sale where it was described as possibly unique. It has similar margins and cancel as the example offered here, but the letters “nt.” of “Cent.” and the “Inter Island” label at top are clearly printed. Type X from Plate 2-B is rare in and of itself — it is the only position on the plate lacking an illustration in the Westerberg book.

FRESH AND FINE. AN EXTREMELY RARE COVER BEARING THE 1859 2-CENT BLUE HAWAIIAN NUMERAL ISSUE TIED BY THE LAHAINA CUSTOMS HOUSE SEAL. BELIEVED TO BE THE ONLY FULL COVER KNOWN WITH THE LAHAINA SEAL USED TO CANCEL A BLUE NUMERAL STAMP.

This marking was used by Cornelius S. Bartow, the Lahaina postmaster, before he received cancelling devices ordered through the Honolulu post office. In a letter to the postmaster-general, he refers to this provisional cancellation: “Did you order a stamp for the department of this place? It seems to me to be very necessary, as I am now compelled to use the Custom House seal.”

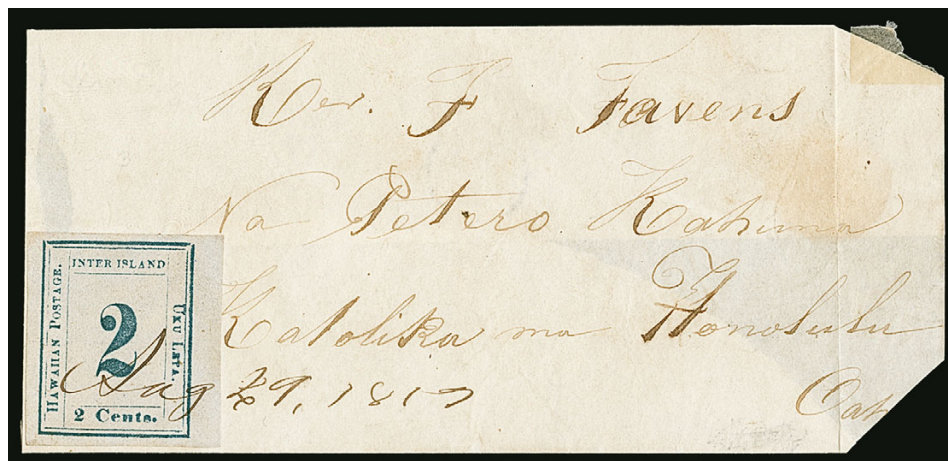

It has been reported that approximately 10-25 covers are known with the 2c Blue Numeral Issue (the 1c Blue is not recorded on cover). Our search of past auction catalogues did not produce another 2c Blue Numeral cover with the Lahaina seal.

The addressee, Ellen Rebecca (Whitmore) Goodale, was married to Warren Goodale. She was a teacher at a Cherokee school in Oklahoma when she married. Her journal can be read at <http://www.coretexts.org/cherokeelessons/unit6/downloads/Ellen%20Whitmore%20Journal.pdf>. She died at age 33 on February 22, 1861, about one year after receiving this letter. The writing on this cover is believed to be in the hand of Lucy Goodale Thurston.

1863 ONE-CENT BLACK ON GRAYISH—PLATES 4-A AND 4-B

EXTREMELY FINE APPEARANCE. A RARE HYBRID PANE OF TEN OF THE 1863 ONE-CENT BLACK NUMERAL ON GRAYISH, WITH COLUMNS FROM PLATES 4-A AND 4-B.

This hybrid pane nicely demonstrates some of the typographical changes between Plates 4-A and 4-B. Westerberg briefly discusses this in his book on page 51. He surmises that the typographical changes between Plates 4-A and 4-B did not all occur at the same time and consequently a third plate is possible showing types from both plates. He called this Plate 4-AB. This example, which he references from the Tows collection, proves his theory, as it shows the normal full Plate 4 layout with Type I in the left column and Type II in the right column. If it had been cut from a sheet with impressions of adjacent complete Plates 4-A and 4-B, taking one column from each, it would show Type I in the right column and Type II in the left column.

Of the seven Scott 15 panes recorded in the Westerberg census (1970), only two are hybrids.

 EXTREMELY FINE APPEARANCE. A RARE USE OF THE SAN FRANCISCO DATESTAMP TO CANCEL THE 1863 ONE-CENT NUMERAL ON GRAYISH PAPER.
 The 1c Numeral was intended for and typically used on local or inter-island mail. The presence of the San Francisco datestamp on this example indicates it was used to make up part of the Hawaiian 5c rate.

EXTREMELY FINE STAMP AND PRESENTABLE USED PIECE. THE 1863 ONE-CENT BLACK NUMERAL ON GRAYISH PAPER IS EXCEEDINGLY RARE IN USED CONDITION AND THIS PIECE MAY BE AS CLOSE TO A COVER AS EXISTS.

As a measure of rarity, neither the Caspary, Honolulu Advertiser nor Golden collections contained a cover bearing the 1863 1c Black on Grayish (Scott 15). This piece was part of the Atherton collection for years until Charles J. Pietsch III acquired it. A complete cover may not exist.

EXTREMELY FINE GEM. THIS IS WITHOUT QUESTION ONE OF THE FINEST EXAMPLES OF THE 1859-63 2-CENT HAWAIIAN NUMERAL IN EXISTENCE. THE STAMP IS MINT NEVER-HINGED AND SOUND. TRULY REMARKABLE.

Power Search located only five others with full original gum and one with part original gum. None were sound, and no other has margins approaching the size of the stamp offered here. This is the only Mint N.H. stamp among them. The 1c (Scott 15) is available in blocks, but the 2c offered here is not — the Honolulu Advertiser sale contained no unused multiples, so there is nothing that could be cut apart to create such a superb single.

NUMERAL “2” AT TOP

The “2” at Top is one of the most prominent typographic varieties on the Numeral plates. It is found exclusively among stamps printed on grayish paper (Scott 16). VERY FINE APPEARANCE. THIS APPEARS TO US TO BE A 2-CENT NUMERAL PRINTING ON BLUE GRAY PAPER, BUT IT COMES FROM PLATE 3-C.

This stamp is somewhat of a mystery. Its plating characteristics clearly match Plate 3-C, Type VIII (Position 8) — see lot 1200 for an example — but the paper is apparently Blue Gray, which is only associated with Plate 5-A. We are not sure if our classification of this stamp as Scott 18, on Blue Gray paper, is correct; therefore, it is offered subject to certification after review by Hawaiian Numeral Issue specialists. If our plating and paper identification is correct, this might represent a new discovery of a Blue Gray stamp printed from a plate other than 5-A..... 6,000.00

EXTREMELY FINE AND A MOST REMARKABLE PIECE, SHOWING THE PROPER MIXED FRANKING FOR THE PRINTED-MATTER RATE, FRANKED WITH ONE OF THE RAREST NUMERAL ISSUES IN USED CONDITION AND THE UNITED STATES 2-CENT BLACK JACK.

From July 1863 the United States postage for printed matter (open circulars, newspapers, etc.) was 2c. The rate from Hawaii remained at 2c. In this instance, we have a large part of a newspaper wrapper, franked with the correct combination of 2c U.S. and 2c Hawaiian postage. The 1863 2c Black on Gray Blue Numeral is scarce unused and extremely rare in used condition. We know of only one example on a complete cover, used by itself and offered as lot 1248 in this sale. The mixed franking for this rate is unique within the entire Numeral Issue.

VERY FINE. THIS IS THE LARGEST RECORDED TÊTE-BÊCHE MULTIPLE OF THE 5-CENT "HAWAIIAN POSTAGE" NUMERAL ISSUE. AN OUTSTANDING RARITY OF CLASSIC HAWAII.

The 5c "Hawaiian Postage" Scott 21a tête-bêche multiple should not be confused with its "Interisland" counterpart, Scott 22a. The former is vastly rarer. This is the only example we located from our past auctions with Power Search.

In fact, unused multiples of the 5c "Hawaiian Postage" Numeral (Scott 21) are extremely rare even without the tête-bêche configuration. A search of name sales produced three unused blocks: 1) the only recorded complete pane of ten, ex Ferrary, Harris, Ostheimer and Honolulu Advertiser; 2) block of eleven, ex Tows and Golden; and 3) the only recorded tête-bêche block of four, ex Ferrary, Tows and Honolulu Advertiser, offered here. It is telling that no blocks were present in the collections formed by Caspary, Ishikawa and Pietsch.

VERY FINE APPEARANCE. THIS IS THE ONLY RECORDED UNUSED EXAMPLE OF THE BLUISH-BLACK 5-CENT "HAWAIIAN POSTAGE" NUMERAL.

This stamp is printed on thin yellowish white wove paper, which is similar in color and texture to Scott 20, but slightly thinner. The color of the printed design is superficially black; however, when held to intense light the ink shows a hybrid mixture of blue and black, which suggests that the printer was experimenting with ink and paper colors when this stamp was printed. Whether it is a proof (no Numeral proofs are known) or an issued stamp (only one other example is known, used and defective), we cannot say.

MIXED FRANKING

1336

- 1336 ☒ **1864, 1c Black, Laid (23).** Plate 8-A, Type I (Westerberg Position 1), large margins all around, cancelled by heavily impressed strike of 9-bar square grid (tied thru by sharp ends of bars), used with pair of **1864 2c Rose Vermilion (31)**, tied by matching square grid, and **United States 1863 5c Brown (76)**, tied by cogwheel cancel on 1866 cover to Monticello, Iowa, red "Honolulu U.S. Postage Paid Mar. 5" circular datestamp, "San Francisco Cal. Mar. 21" double-circle datestamp, carried by either the *Adeline Burke* (cleared Mar. 3, arrived Mar. 21) or *Onward* (cleared Mar. 6, arrived Mar. 20), manuscript "*Emeline*" written across one 2c Kamehameha IV stamp, referring to an inter-island schooner, see below for condition notes

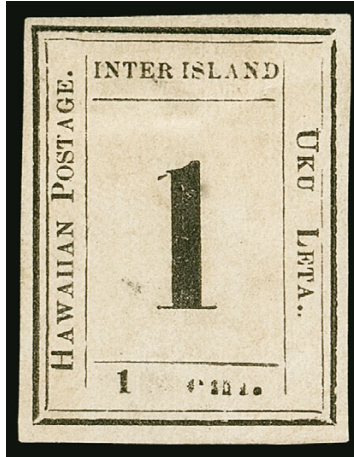

THE ONLY RECORDED COMPLETE COVER FRANKED WITH ANY OF THE ONE-CENT HAWAIIAN NUMERAL ISSUES.

We record a cover front from the Catholic Mission correspondence with an 1863 1c Numeral (offered in this sale as lot 1118), but we do not know of another complete cover with any of the 1c Numeral issues, which were intended for inter-island newspapers and saw very limited use. This cover is properly franked for the 5c Hawaiian rate and originated in Hilo, based on the use of the black square grid in 1866.

When found, the left edge of the cover had been cut off and the bottom was roughly opened. The left 10mm of the envelope and part of another 2c stamp have been added to improve the appearance. The bottom edge has been reduced slightly for the same reason. There is some minor toning, but overall the cover is quite attractive and the 1c Numeral is Extremely Fine. Viewed from the back of the address panel, embossment from the corner of the strongly impressed grid can be seen behind the 1c stamp, confirming that the stamp originated on this cover.

VERY FINE AND RARE LARGE MULTIPLE OF THE 1864 2-CENT NUMERAL ON LAID PAPER.
