Conditions of Sale (please read carefully before bidding)

THE PROPERTY DESCRIBED IN THIS CATALOGUE WILL BE OFFERED AT PUBLIC AUCTION BY ROBERT A. SIEGEL AUCTION GALLERIES, INC. ("GALLERIES") ON BEHALF OF VARIOUS CONSIGNORS AND ITSELF OR AFFILIATED COMPANIES. BY BIDDING ON ANY LOT, WHETHER DIRECTLY OR BY OR THROUGH AN AGENT, IN PERSON, OR BY TELEPHONE, FACSIMILE OR ANY OTHER MEANS, THE BIDDER ACKNOWLEDGES AND AGREES TO ALL OF THE FOLLOWING CONDITIONS OF SALE.

- 1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 18% of the final bid ("buyer's premium"), together with any sales tax, use tax or customs duties due on the sale.
- 2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.
- 3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.
- 4. Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid ("reserve"), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.
- 5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries' custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date. (5A) EXCLUSIONS: The following lots may not be returned for any reason, or may not be returned for the reasons stated: i) lots containing 10 or more items; ii) lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; iii) any lot described with "faults," "defects" or a specific fault may not be returned because of any secondary fault; iv) photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations; v) the color of the item does not match the color reproduction in the sale catalogue or website listing; vi) the description contains inaccurate information about the quantity known or reported; or vii) a certification service grades a stamp lower than the grade stated in the description.
- 6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards (Visa, Mastercard and Discover only) can be accepted as payment but will be subject to a 3% Convenience Fee, which will be added to the total of the entire invoice (including hammer price, buyer's premium, shipping

and transit insurance charges and any applicable taxes).

- 7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than 30 days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.
- 8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation or by Professional Stamp Experts within 5 years of the sale date is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of **opinion.** Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to \$800.00 unless otherwise agreed to in writing.
- 9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.
- 10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.
- 11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers who receive lots in the U.S. are obligated to pay whatever sales tax or compensating use tax might be due, and buyers outside the U.S. are responsible for all customs duties.
- 12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. The bidder agrees not to use a public conflict resolution service and not to use any form of social media to publish comments or information about the Galleries and its employees which might harm the Galleries' reputation or business. These Conditions of Sale shall be governed by and construed in accordance with the substantive laws of the State of New York, and shall constitute an agreement that shall be binding on the parties, and their respective heirs, administrators, distributees, successors and assignees.

Revised 1/2017

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item's condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report^{5M} is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Extremely Fine Gem (90-100): The term "Gem" describes condition that is the finest possible for the issue. This term is equivalent to "Superb" used by grading services.

Extremely Fine (80-90): Exceptionally large/wide margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. "Very Fine and choice" applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

Catalogue Symbol:	**	*	*	*	*	(★)

1890-1935 ISSUES	Scott "Never Hinged" Values for Nos. 219-771	(Actual va affected	e for "O.G." lue will be d by the f hinging)	Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.			
1935 TO DATE	Scott Value for "Unused"						

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz, American Air Mail Catalogue* (AAMC), *Michel, Zumstein, Facit*, etc. Estimates are indicated with an "E." and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the *Scott Catalogue*—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

EXTREMELY FINE. A BEAUTIFUL USED EXAMPLE OF THE IMPERFORATE TYPE IV 10-CENT 1855 ISSUE FROM THE MISPLACED RELIEF POSITION — THE ONLY RECUT POSITION ON THE RIGHT PANE OF THE PLATE.

The first 10c plate of 200 (left and right panes of 100) was laid down using a three-subject transfer roll with relief types A, B and C. The C Relief was used only for the bottom row (all Type I design). The A Relief (Type II design) was used to enter the entire second row, and the B Relief (Type III design) was used for the third row. This A/B alternating relief pattern was followed consistently for the fourth through ninth rows. The top row was entered with the A Relief, except for three positions: Positions 1 and 2 in the left pane, and Position 3 in the right pane. These "misplaced reliefs" are B Reliefs, and Positions 1L and 2L are Type III designs, while Position 3R was recut (Type IV).

Position 3R1, one of the three misplaced relief positions on the plate, is also one of eight recut (Type IV) positions and the only recut position on the entire right pane of the plate.

1857-60 ISSUE

1c Blue, Ty. Ia (19). Bottom row of Plate 4, rich color, nice bottom margin showing the key design characteristics, just in at top, light cancel leaves vignette fully visible, fresh and completely sound

VERY FINE USED EXAMPLE OF THE PERFORATED 1857 ONE-CENT TYPE Ia, WHICH CLEARLY SHOWS THE CHARACTERISTICS OF THE TYPE.

Type Ia was produced by only 18 of the 20 bottom-row positions on Plate 4. Although Plate 4 was designed with sufficient space to accommodate perforations, the height of the top row and bottom row positions resulted in the perforations often cutting into the design at either top or bottom. This stamp shows nearly complete bottom scrolls and plumes.

21 *** 1c Blue, Ty. II (20).** Plate 12, original gum, deep rich color, unusually choice centering with wide and balanced margins

EXTREMELY FINE GEM. A STUNNING ORIGINAL-GUM EXAMPLE OF THE 1857 ONE-CENT TYPE II. THE RARITY OF THIS TYPE IS OFTEN OVERLOOKED BY COLLECTORS OF HIGH-QUALITY STAMPS. THIS STAMP IS GRADED XF-SUPERB 95 BY P.S.E. — THIS IS THE HIGH-EST GRADE AWARDED AND IT IS SHARED BY NO OTHER ORIGINAL-GUM EXAMPLES.

22 **1c Blue, Ty. III (21).** Position 29L4, marvelous centering and deep rich Plate 4 color, nearly face-free Boston circular datestamp

EXTREMELY FINE. A WONDERFUL USED EXAMPLE OF THE 1857 ONE-CENT BLUE TYPE III FROM PLATE 4.

Due to the narrow vertical spacing on this plate, stamps are most typically found with the perforations impinging on some portion of the design. The example offered here is centered so that the type characteristics are clearly visible.

With 2010 P.S.E. certificate (XF 90; SMQ \$4,850.00) ... 1,750.00

23 **1c Blue, Ty. IIIa (22).** Plate 4, Jumbo margins and beautifully centered, fresh color on bright paper, cancel leaves the design characteristics easily discernible, outer line complete at bottom and with wide break in outer line at top

Ex Kirke. With 2001 and 2007 P.F. certificates (XF-Superb 95). With 2007 P.S.E. certificate (XF-Superb 95 Jumbo; SMQ \$8,500.00). This is the highest grade awarded and only one other shares this grade, which was offered in our sale of the "Natalee Grace" collection (Sale 1024, lot 58) 500.00

24 **Ic Blue, Ty. IV (23). Position 7R1L, the recut state of Type I Position 7R on Plate 1 Early,** typical late impression and exceptionally well-centered, light circular datestamp

EXTREMELY FINE. A SUPERB EXAMPLE OF THE SCARCE PERFORATED TYPE IV ONE-CENT 1857 ISSUE AND A RARE POSITION 7 RIGHT, WHICH FURNISHED TYPE I BEFORE PLATE ONE WAS REWORKED.

5c Red Brown (28). Deep rich color in the 1858 shade — we feel this should be catalogued as Deep Red Brown, as it is much closer to the Indian Red than it is to the 1856 Red Brown — unusually choice centering with wide margins which are comfortably clear of the outer projections all around, unobtrusive town and double-circle datestamp cancels

> EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 12-CENT 1857 ISSUE FROM PLATE 3.

> The most recent scholarship regarding the Toppan, Carpenter, Casilear & Co. plates used to print the 12c 1851-57 Issue is clearly articulated by James A. Allen in "The 1851 Imperforate (Scott U.S. #17): Plating Updated and Additional New Findings" (The 1851 Issue of United States Stamps: a Sesquicentennial Retrospective, U.S. Philatelic Classics Society). It is highly probable that Plate "3" was the first one made in 1851, but it was put aside and not used until 1859.

> Plate 3 stamps (Scott 36b) are characterized primarily by uneven or broken outer framelines of the design. The subjects on Plate 1, which produced Scott Nos. 17 and 36, have even framelines that were extensively recut. Original-gum Plate 3 stamps with the centering and wide margins evident in this example are very scarce.

43 ★ 24c Blackish Violet, Reprint (45). Without gum as issued, deep rich color on bright paper, choice centering

VERY FINE AND CHOICE EXAMPLE OF THE 24-CENT 1857 REPRINT.

The Continental Bank Note Company reprinted the 24c stamp from the original plate of 200 subjects. 10,000 were printed (50 impressions). Only 479 were sold; the remaining 9,521 were destroyed on July 23, 1884, by order of the Postmaster General. Due to the narrow spacing between subjects, many have perforations touching the design at either top or bottom. Very few have perforations clear of the design on all four sides. This is reflected in the SMQ prices for this issue as a grade of F 75 equates to Scott Retail value, rather than the usual grade of VF 80.

EXTREMELY FINE. A RARE WELL-CENTERED EXAMPLE OF THE 1868 5-CENT F GRILL ON THIN PAPER.

The National Bank Note Co. undoubtedly made various attempts to improve grilling quality and efficiency through modifications in the process. Based on surviving stamps, it appears that one modification involved the use of very thin paper, which probably allowed two or more sheets to be grilled in one pass through the grilling device. The 1c (F), 2c (E and F), 3c (E and F), 5c (F), 10c (F), 12c (F) and 15c (F) are found on this very thin paper. They are scarce, particularly the 5c-15c values.

EXTREMELY FINE GEM. THE 30-CENT 1868 F GRILL IS EXTREMELY RARE WITH SUCH WIDE MARGINS. A PHENOMENAL STAMP.

The 30c 1861-68 Issue stamps — Scott 71 (to a lesser extent) and Scott 100 — rank as two of the most difficult classic U.S. stamps to find in such pristine condition. Due to narrow spacing of the plate, the 30c 1861-68's are usually found with tight margins, especially at sides. Brookman notes "Superb copies are almost non-existent".

EXTREMELY FINE. A BEAUTIFUL USED EXAMPLE OF THE 1868 90-CENT F GRILL.

The 90c stamps used to make grilled issues were printed on a thick stock of paper. It is likely that sheets remaining from the pre-grill period were used and that the thinner paper introduced in 1868 was not used for the 90c value. Two characteristics of 90c F Grill stamps are poorly punched perforations and generally poor centering.

EXTREMELY FINE. A GORGEOUS USED EXAMPLE OF THE 90-CENT 1869 PICTORIAL ISSUE. SELDOM OFFERED IN THIS PRISTINE CONDITION.

The 90c 1869 Pictorial is widely admired for its beautiful engraving and dignified portrait of Abraham Lincoln. However, collectors have been frustrated in their efforts to acquire choice examples of this issue. Used 90c stamps are typically heavily cancelled, because the high denomination was cause for postal clerks to thoroughly obliterate any chance for re-use. Naturally, the significant monetary value of 90c in 1869 limited the number of unused stamps that would be saved for future collectors.

146 ★ 6c Rose (208). Original gum, bright color, outstanding centering with wide margins

EXTREMELY FINE GEM. THE 1882 RE-ENGRAVED 6-CENT ROSE IS ONE OF THE MOST DIFFICULT ISSUES TO OBTAIN IN SUCH SUPERB CONDITION.

Despite being the major Scott listing, the Rose shade is far rarer than the Brown Red sub-shade, Scott 208a. Power Search located only one Mint N.H. example offered in our sales since 1993, and that is off-center with perfs almost touching the design. We have offered no multiples with Mint N.H. stamps. The online records of the Philatelic Foundation contain only two in Mint N.H. condition, but we doubt they would even grade 90. None have been graded by P.S.E. in Mint N.H. condition. For the collector who values centering, a hinged copy is all there is. The example offered here, with choice centering, is a true condition rarity.

The 2c single-line watermark horizontal coil, Scott 388 was in production for only a short period of time before being superseded by the Perf 8½ issue, Scott 393. In addition, due to the greater popularity of the horizontal coils with users, combined with a wary attitude by many collectors that early coils were simply trimmed stamps, many were used and few preserved.

VERY FINE. A BEAUTIFUL MINT NEVER-HINGED EXAMPLE OF THIS RARE ROTARY-PRESS WASTE ISSUE.

At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was left over that was too short for rolling into 500-stamp rolls. In 1919, the Bureau devised a plan to salvage this waste by converting the stamps from coil stamps into sheet stamps. This was accomplished by cutting the sheets into panes and putting the panes through the flat-plate perforator in use at the time, giving the stamps perforations on all sides.

1c Green, Rotary Perf 11 (544). Rich color and detailed impression, Jumbo margins and choice centering, machine cancel leaves design clearly visible

A small quantity of 1c Rotary Press stamps was perforated 11 on a flat plate perforating machine at the end of 1922, using remainder sheets from the earlier printings that were normally perforated in 10 gauge or 10/11 compound gauge. Its existence as a Perf 11 variety was discovered in 1936, almost 13 years after it was produced. Its discovery was announced in an article in the *Bureau Specialist* by Max Johl, who in the same article announced the discovery of a 1c Franklin Rotary Perf 11 (what would become Scott 596 in 1963). The 1c Washington Rotary Perf 11 received its Scott Catalogue listing in 1938. Most of the recorded copies of Scott 544 are off-center or have been damaged — the result of poor production standards and mis-handling.

Shipping & Insurance

We will be pleased to arrange for shipping and transit insurance for purchases in this sale, except for lots marked or announced as "floor sale only." To expedite billing and delivery to hundreds of buyers in each sale, we use standard charges for postage and insurance under our policy. These charges are based on the package weight and mailing requirements, according to the schedule shown here. Our standard charges do not include a fee for our services, and they may be slightly more or less than the actual postage or Fedex fee. We ask all buyers to remit the invoiced amount for shipping and insurance.

Transit insurance is provided in all cases, except when the buyer has furnished us with documentation that insurance is effective under the buyer's own policy.

There will be no added insurance charge for shipments of less than \$75,000 value. Shipments valued in excess of \$75,000 may require supplemental insurance and/or special courier service, the estimated cost of which will be furnished to the buyer prior to shipment. If the buyer refuses to pay the estimated charges or furnish proof of self-insured coverage, the buyer will be responsible for picking up the lots at our office and any resulting sales tax.

Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bids, the increments shown here will be used in most cases. We recommend that written bids conform to these increments-bids that do not will be reduced accordingly.
