Col McEllar

Sir If I had your warrants to day I could have got \$111. for 160 acres and 109 $\frac{1}{2}$ for 120 acres, they will not fall much before the last of next week. If you have any or enough to make it an object you had better send them or come yourself as early, next week as possible of course you will do as you think best. I saw a letter to day sent from N. York the writer says that he thinks the warrants will fall considerable from the present prices I will keep a lookout and write when changes take place for better or worse.

Yours Respectfully

William M. Mauding
