We have nothing new or pleasing
to transmit relative to produce. Flour & grain are still
dear & the demand is light. The paper quotations
are the asking rates & not what sales are effected at.
We must have a good foreign demand & our
market will rally, as to demand & price, we may
have a better trade & at better prices between this & the
1st of April, but to us the prospect ahead does not
look flattering,

Yrs truly
