Conditions of Sale (please read carefully before bidding)

THE PROPERTY IN THIS CATALOGUE WILL BE OFFERED AT PUBLIC AUCTION BY ROBERT A. SIEGEL AUCTION GALLERIES, INC. ("GALLERIES") ON BEHALF OF VARIOUS CONSIGNORS AND ITSELF OR AFFILIATED COMPANIES. BY BIDDING ON ANY LOT, WHETHER DIRECTLY OR THROUGH A THIRD PARTY, IN PERSON, BY TELEPHONE, FACSIMILE, INTERNET OR BY ANY OTHER MEANS, THE BIDDER ACKNOWLEDGES AND AGREES TO ALL OF THE FOLLOWING CONDITIONS OF SALE.

- 1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 18% of the final bid ("buyer's premium"), together with any sales tax, use tax or customs duties due on the sale.
- 2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.
- 3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.
- 4. Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid ("reserve"), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.
- 5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which, subject to the Galleries' sole judgment, have been misidentified or which have obvious faults that were present when the lot was in the Galleries' custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date. (5A) EXCLUSIONS: The following lots may not be returned for any reason, or may not be returned for the reasons stated: (i) lots containing 5 or more items; (ii) lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; (iii) any lot described with "faults," "defects" or a specific fault may not be returned because of any secondary fault; (iv) photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the photos; (v) the color of the item does not match the color photo in the sale catalogue or website listing; (vi) the description contains inaccurate information about the quantity known or reported; or (vii) a certification service grades a stamp lower than the grade stated in the description or on an accompanying certificate.
- 6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make full payment in cleared funds before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards (Visa, Mastercard and Discover only) can be accepted as payment, but will be subject to a 3% non-refundable Convenience Fee, which will be added to the total of the entire invoice (including hammer price, buyer's premium, shipping and transit insurance charges and any applicable taxes). The buyer waives the right to dispute all credit card charges.

- 7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots may be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer, and/or the Galleries may seek any other remedy prescribed by law to enforce payment. Any account more than 30 days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 will be charged for a check returned for insufficient funds.
- 8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation or by Professional Stamp Experts within 5 years of the sale date is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion or change in grade. Buyers may request a certificate for a lot containing not more than one item, which does not have a P.F. or P.S.E. certificate (dated as above), provided that the following conditions are met: (i) the purchase price must be paid in full, (ii) if submitted by the buyer, the lot must be submitted to an acceptable expertizing service with a properly executed application form within 21 days of the sale, (iii) a copy of the application form must be given to the Galleries, (iv) the Galleries retains the right to resubmit the item for reconsideration, without time limit or other restrictions, for the purpose of obtaining a satisfactory opinion, (v) lots submitted for certification will be considered cleared 90 days from the date of sale, whether or not a certificate has been issued, unless the Galleries issues written approval of a further extension of return privileges, and (vi) in the event the lot is determined to be misidentified or misdescribed, pursuant to 5 and 5(A) of these Conditions, the Galleries will issue a refund to the buyer for the full purchase price and actual certification fees, but the reimbursement for certificate fees (and related costs) shall not exceed 10% of the hammer price of the lot. Changes to a grade by the same certification service or a different grade from another certification service are not grounds for returning a lot.
- 9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller
- 10. Agents executing bids on behalf of clients may also be held responsible for all purchases made on behalf of clients, unless otherwise arranged prior to the sale.
- 11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers who receive lots in the U.S. are obligated to pay whatever sales tax or compensating use tax might be due, at any time, and buyers outside the U.S. are responsible for all customs duties.
- 12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. The bidder agrees not to use a public conflict resolution service and not to use any form of social media to publish comments or information about the Galleries and its employees which might harm the Galleries' reputation or business. These Conditions of Sale shall be governed by and construed in accordance with the substantive laws of the State of New York, and shall constitute an agreement that shall be binding on the parties, and their respective heirs, administrators, distributees, successors and assignees.

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item's condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report^{5M} is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Extremely Fine Gem (90-100): The term "Gem" describes condition that is the finest possible for the issue. This term is equivalent to "Superb" used by grading services.

Extremely Fine (80-90): Exceptionally large/wide margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. "Very Fine and choice" applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

The significance of gum disturbance in valuing a stamp in any of the Original Gum			
1935 TO DATE	Scott Value for "Unused"			categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.			

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz, American Air Mail Catalogue* (AAMC), *Michel, Zumstein, Facit*, etc. Estimates are indicated with an "E." and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the *Scott Catalogue*—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

SESSION ONE (LOTS 2001-2216) TUESDAY, MARCH 7, 2023, AT 1:30 P.M.

THE ADVENTURER COLLECTION OF UNITED STATES STAMPS

1847 ISSUE

2001

2001 (★) 5c Dark Brown (1a). Unused (no gum), large and even margins all around, intense shade and impression

EXTREMELY FINE. AN ATTRACTIVE UNUSED EXAMPLE OF THE 5-CENT 1847 ISSUE IN THE DARK BROWN SHADE.

2002

2002 (*) 10c Black (2). Unused (no gum), huge margins to full including what is likely a top sheet margin, bright shade and crisp impression, completely sound

EXTREMELY FINE. A GORGEOUS UNUSED EXAMPLE OF THE 10-CENT 1847 ISSUE. RARE IN SOUND CONDITION AND WITH SUCH WIDE MARGINS.

The 1847 Issue is much scarcer in unused condition than other issues, because the stamps were demonetized in 1851. They could be exchanged for the new issue, but once the exchange period ended, the stamps would have no postage value. Considering the purchasing power of ten cents in 1851, it is not surprising that the stamps were either used or exchanged, rather than left for future generations of collectors. Many surviving examples have faults to some extent. The example offered here is one of the finer we have encountered.

1875 REPRODUCTION OF 1847 ISSUE

2003

2004

1851-56 ISSUE

2005

2005 ★ 1c Blue, Ty. II (7). Original gum, single hinge mark, large even margins all around, deep rich color and proof-like impression

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 1851 ONE-CENT TYPE II, GRADED XF-SUPERB 95 BY P.S.E.

Ex Hoffman. With 2009 P.S.E. certificate (OGph, XF-Superb 95; SMQ \$4,600.00). Eight grade higher and only one other shares this desirable grade. These are low population numbers for one of the more readily accessible classic Scott numbers............... 1,200.00

2006 (★) **1c Blue, Ty. IIIa (8A).** Unused (no gum), large margins to clear, deep rich color and proof-like impression.

VERY FINE AND CHOICE UNUSED EXAMPLE OF THE 1851 ONE-CENT TYPE IIIa.

2006

2007

2008 * 3c Orange Brown, Ty. II (10A). Original gum, large margins to ample, brilliant color

VERY FINE AND CHOICE ORIGINAL-GUM EXAMPLE OF THE $1851\ 3$ -CENT TYPE II.

With 1998 P.S.E. and 2019 P.F. certificates (VF 80)... 3,250.00

2008

2010 (★) **5c Red Brown (12).** Unused (no gum), full margins to ample, deep rich color and clear impression

VERY FINE. A RARE SOUND UNUSED EXAMPLE OF THE 5-CENT 1856 ISSUE — A STAMP WHICH IS MISSING FROM MANY ADVANCED UNUSED COLLECTIONS.

2010

2011 (**) **10c Green, Ty. I (13).** Unused (no gum), large even margins all around, deep rich color and proof-like impression

EXTREMELY FINE. AN EXCEEDINGLY RARE SUPERB UNUSED EXAMPLE OF THE $1855\ 10\text{-CENT}$ Type I IMPERFORATE.

This scarce stamp is extremely desirable because the defining characteristic of the type — the full bottom right shell — is fully visible within the large bottom margin. Type I stamps come from the bottom 20 positions of the plate. They are the only stamps to show the design complete at bottom. For some reason the sheet margin at bottom was often trimmed away, leaving a dearth of quality copies. The Type IV stamps come from only eight positions, but we would rank the two types equally in terms of the rarity of sound four-margin copies.

2011

2012

2012 ★ 10c Green, Ty. II (14). Original gum, large margins all around, rich color

EXTREMELY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 10-CENT TYPE II 1855 ISSUE.

Given the wide spacing between subjects on the plate used to print the 10c 1855 Issue, one would expect to find an ample supply of examples in sound original-gum condition with four margins. However, such stamps are extremely rare.

2013 ★ 10c Green, Ty. III (15). Original gum, large even margins, rich color on bright paper

EXTREMELY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE IMPERFORATE 1855 10-CENT TYPE III.

The 1855 10c stamps that have survived with original gum generally come from blocks and strips broken in recent years. Only a few exist without faults, and even fewer make the grade of Extremely Fine. For comparison purposes, P.S.E. has only graded two stamps in original gum condition (at 90 and 90J). The P.F. has graded five higher and one equal. These are very small population numbers.

2013

2014

2014 (*) **10c Green, Ty. III (15).** Position 69R1, unused (no gum), full even margins all around, sharp proof-like impression on bright fresh paper

EXTREMELY FINE. AN EXCEPTIONALLY ATTRACTIVE UNUSED EXAMPLE OF THE 1855 10-CENT TYPE III IMPERFORATE

2015 (★) 12c Black (17). Unused (no gum), large margins to ample, intense shade and detailed impression

VERY FINE UNUSED EXAMPLE OF THE 12-CENT 1851 ISSUE.

With 1989 and 2003 P.F. certificates 2,500.00

2015

1857-60 ISSUE

2016 ★ 1c Blue, Ty. I (18). Plate 12, original gum, intense color, almost perfectly centered with wide margins at sides and clearly showing the characteristics of the type

EXTREMELY FINE ORIGINAL-GUM EXAMPLE OF THE 1857 PERFORATED ONE-CENT TYPE I, GRADED XF 90 BY BOTH THE P.F. AND P.S.E. — A RARE STAMP IN SUCH CHOICE CONDITION.

The defining characteristic of Type I is that the entire design is printed, including the scrolls and plumes at bottom. Among the plates used to print imperforate stamps, only one position out of 1,000 can claim that honor (Position 7R1E, Scott No. 5). Type I perforated stamps are only known from certain positions on Plate 12. Due to the narrow spacing between perforations and difficulties of production, this issue is usually found with part of the design cut off by the perforations. The wide margins of this stamp leave the Type I characteristics around the perimeter almost completely intact.

EXTREMELY FINE GEM. A STUNNING ORIGINAL-GUM EXAMPLE OF THE 1857 ONE-CENT TYPE II. THE RARITY OF THIS TYPE IS OFTEN OVERLOOKED BY COLLECTORS OF HIGH-QUALITY STAMPS. THIS STAMP IS GRADED XF-SUPERB 95 BY THE P.F.

2017

2018

2018 ★ 1c Blue, Ty. II (20). Top row of Plate 11, T Relief, original gum, lightly hinged, pretty shade, choice centering for this difficult issue

EXTREMELY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 1857 PERFORATED ONE-CENT TYPE II FROM PLATE 11.

Relief T, used only for the top row of Plate 11, has the complete design at top, and those positions produced what Ashbrook and Neinken called "perfect" examples of Type II.

2019 ★ 1c Blue, Ty. IIIa (22). Plate 11, original gum, lightly hinged, rich color on crisp paper, unusually choice centering with wide margins

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 1857 PERFORATED ONE-CENT TYPE IIIa.

With 2011 P.S.E. certificate (OGph, XF 90; SMQ \$6,000.00). Only two grade higher (at 90J and 95) and three others share this grade. Apart from one Mint N.H. graded 90, this is the highest grade we have offered for an unused stamp in one of our auctions, and the first in this grade we have offered since 2015. 2,400.00

2019

2020

2020 (*) 1c Blue, Ty. IV (23). Plate 1L, unused (no gum), recut once at top and bottom, deep rich color on bright paper, unusually choice centering

EXTREMELY FINE UNUSED EXAMPLE OF THE 1857 ONE-CENT TYPE IV. SCARCE WITH SUCH CHOICE CENTERING.

The Plate 1 Late sheets on hand in 1857 were perforated on the new equipment, but the spacing between subjects and Toppan Carpenter's generally poor perforating skills resulted in the majority being off center.

2021

2022

2022 ★ 3c Claret, Ty. I (25 var). Original gum, barest trace of what may be hinging, deep rich color and proof-like impression, unusually choice centering for this difficult issue

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 3-CENT 1857 TYPE I IN THE CLARET SHADE.

Until Toppan, Carpenter made new 3c plates with wider spaces between stamps to accommodate the perforations, they simply perforated sheets printed from the earlier Type I plates, beginning in early 1857. Unlike its Type III counterpart (Scott 26), examples of 3c perforated Type I stamps are rare in original-gum condition. These are extremely difficult to obtain with precise centering, due to the narrow spacing on the plate.

2023

2023 ★★ 3c Dull Red, Ty. III (26). Mint N.H., deep rich color, choice centering, Very Fine and choice, with 1976 A.P.S. certificate, Scott value as hinged 65.00

2024 ★ 5c Brown (29). Original gum, small h.r., better centering than normally seen on this difficult issue with outer projections clearly visible on all sides

VERY FINE. AN EXTREMELY RARE SOUND ORIGINAL-GUM EXAMPLE OF THE 1859 5-CENT BROWN TYPE I, SCOTT 29. A RARE STAMP IN THIS CONDITION.

Most original-gum examples of this issue are either off center or have small faults.

With 2016 P.F. certificate...... 5,500.00

2024

2025

2025 (*) 5c Brown (29). Unused (no gum), rich color and sharp impression, wonderfully well-centered with perfs clear of outer projections on all four sides

EXTREMELY FINE. A BEAUTIFUL AND RARE SOUND, WELL-CENTERED UNUSED EXAMPLE OF THE 1859 5-CENT BROWN TYPE I, SCOTT 29.

2026

2027

2028 ★ 10c Green, Ty. II (32). Original gum, single hinge mark at top, attractive centering and margins

FRESH AND VERY FINE ORIGINAL-GUM EXAMPLE OF THE $1857\ 10$ -CENT TYPE II.

Ex Petersen. With 2008 P.S.E. certificate 5,750.00

2028

2029 (*) **10c Green, Ty. III (33).** Unused (no gum), outstanding centering with wide margins all around, rich color and detailed impression

2045 ★ 10c Dark Green, First Design (62B). Original gum, lightly hinged, deep rich color and proof-like impression, choice centering for this difficult issue

EXTREMELY FINE. A RARE SOUND AND CENTERED ORIGINAL-GUM EXAMPLE OF THE 1861 10-CENT FIRST DESIGN.

The 10c 1861 "First Design" (or Type I from Plate 4) is extremely difficult to find in well-centered, sound, original-gum condition. This is partly due to the narrow spacing on Plate 4, which was used for the earliest printing.

1861 3-CENT PINK, SCOTT 64 MINT NEVER-HINGED—GRADED XF 90

2046

2046 ★★ 3c Pink (64). Mint N.H., outstanding centering and margins, radiant color with the desirable bluish cast sometimes seen in this shade and more often seen in the famous Pigeon Blood Pink shade

EXTREMELY FINE. AN INCALCULABLY RARE CENTERED MINT NEVER-HINGED EXAMPLE OF THE $1861\ 3\text{-CENT}$ PINK.

The 1861 3c Pink, Scott 64, is one of the most difficult stamps of the 1861-66 Issue to find in sound, well-centered, original-gum condition. As difficult as that is, finding one in Mint N.H. condition is another matter entirely. This example is not only Mint N.H., it is sound and well-centered. This is a true condition rarity of the 1861 Issue.

EXTREMELY FINE GEM. THIS IS WITHOUT QUESTION ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE 1861 24-CENT BROWN LILAC SHADE IN EXISTENCE.

As noted in several of the descriptions of original-gum 1861's in our past sales, these stamps are available in unused no-gum condition or low grades of original-gum condition; however, the combination of original gum and choice centering is so rare that Scott values can be very misleading. In the case of this 24c, the unusually deep Brown Lilac shade adds another dimension of rarity — perhaps comparable to the difference between a 5c Red Brown (75) and 5c Brown (76).

2051 ★ **30c Orange (71).** Original gum, lightly hinged, unusually well-centered, bright color

EXTREMELY FINE GEM. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 24-CENT 1863 ISSUE IN THE GRAYISH LILAC SHADE.

This shade is particularly difficult to obtain in sound, centered and original-gum condition. A Power Search of our sale records and a review of P.S.E. Population Report numbers will confirm this statement.

1867-68 GRILLED ISSUE

2057 ★ 3c Rose, C. Grill (83). Original gum, clearly-defined grill which is easily visible on the front of the stamp, brilliant color and paper, well-balanced margins

EXTREMELY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 1867 3-CENT C GRILL.

The 3c is the only regularly issued denomination that comes with the distinctive C Grill, with the grill points facing up instead of down. The few high-grade original-gum examples owe their existence to the division of blocks of four.

2058

2058 (*) 3c Rose, D. Grill (85). Unused (no gum), bright shade, clearly-defined grill, well-balanced margins for this difficult issue

EXTREMELY FINE. A RARE UNUSED SOUND AND CENTERED EXAMPLE OF THE 1867 3-CENT D GRILL.

Scott 85 is very difficult to obtain in sound and centered unused condition. For original-gum copies, we record only eight that would qualify as either Very Fine or Extremely Fine (only one is graded by P.S.E. at 85 and none are graded by the P.F.). We have not sold any with gum and decent centering since our 2015 Hall sale. Unused examples without gum such as the example offered here are also extremely difficult to find with good centering. P.S.E. has certified one, at the lowest grade of 10, and this is the only example certified by the P.F. Power Search shows we have not offered any with decent centering in at least a decade.

The 12c E Grill is extremely difficult to obtain with choice centering. For graded, P.S.E. lists only one with gum (at 50) and the P.F. has also only graded one (at 75). For ungraded, very few match the centering of the example offered here. Collectors looking for Extremely Fine centering are strongly encouraged to consider the example offered here.

EXTREMELY FINE. THE 90-CENT E GRILL IS ONE OF THE MOST DIFFICULT ISSUES TO OBTAIN IN ORIGINAL-GUM CONDITION WITH EXTREMELY FINE CENTERING. THIS IS ONE OF THE FINEST WE HAVE EVER ENCOUNTERED.

Although at least one block of four of the 15c E Grill has been split in recent years, few of the stamps harvested from broken blocks have the centering and well-preserved gum and paper of this example. Looking at what has been graded, P.S.E. lists only one stamp with original gum, at 80. The P.F. has graded four, including one at 90, the 85 offered here, one at 80 and one at 70.

VERY FINE AND CHOICE. A RARE UNUSED EXAMPLE OF THE 12-CENT 1870 NATIONAL GRILLED ISSUE. THIS IS THE MOST DIFFICULT DENOMINATION OF THE SET TO OBTAIN IN UNUSED CONDITION.

Aside from the 24c, which does not exist unused, the 12c is the most difficult to obtain unused, in *any* condition. Probably less than ten exist with original gum, and many of those have faults or are off-center. We have offered only four with original gum in the last 18 years (the last was in 2017). The stamp here, with clear grill points, rich color, choice centering and in sound condition, is a true condition rarity.

For graded copies with gum, P.S.E. has graded two each at 80, 80J and 95 but we have never offered any of them. EXTREMELY FINE GEM. A SUPERBLY-CENTERED UNUSED EXAMPLE OF THE 1870 90-CENT NATIONAL BANK NOTE COMPANY ISSUE WITH H GRILL. RARE WITH SUCH CHOICE CENTERING.

The 90c National Bank Note Company grilled issue is one of the most difficult of the series to obtain with decent centering. Collectors who have been looking for this issue with good centering and original gum would be well-advised to consider this stamp. This is the only unused stamp graded by the P.F. (none graded with gum). For P.S.E., they have certified original-gum examples at 80, 85 and 90 (one each) and one without gum (at 70).

EXTREMELY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE $1870\ 15$ -CENT UNGRILLED NATIONAL BANK NOTE ISSUE.

The 15c 1870 National Grilled Issue (Scott 141) is widely recognized as an extremely rare stamp in choice original-gum condition. Less well known is the fact that its ungrilled counterpart — Scott 152 — is comparably challenging to find in such condition. This stamp has all of the National printing characteristics, but it defies the norm by having exceptional attributes of centering and freshness.

EXTREMELY FINE ORIGINAL-GUM EXAMPLE OF THE 1870 90-CENT UNGRILLED NATIONAL BANK NOTE ISSUE.

In general, the Grilled National Bank Note Issues in superb original-gum condition overshadow their ungrilled counterparts. This is also true for the 90c. However, in the case of the 90c, collectors are frequently misled by the availability of Scott 166, the 1873 Continental printing. The difference in shades is distinct, yet collectors have a tendency to under-rate the 1870 National printing. Most original-gum examples are poorly centered. This example is remarkable for its centering and freshness of color.

The 30c Continental is extremely rare in original-gum condition with choice centering. Blocks have always been rare — for example, Caspary did not have one; Lilly had one well-centered block of four and an off-center block of six — which means that singles could not be easily harvested from multiples.

This example, with complete perfs and three extra wide margins, is in the top tier of that small population.

EXTREMELY FINE GEM. THIS IS PROBABLY THE FINEST EXAMPLE OF THE 1880 12-CENT AMERICAN BANK NOTE COMPANY SPECIAL PRINTING IN EXISTENCE. A PHENOMENAL STAMP IN EVERY RESPECT.

Our census of Scott 198 contains 65 examples, including one in the Miller collection owned by The New York Public Library, leaving 64 available to collectors. Of these, at least one-third have flaws. Many have poor centering as well. Only thirteen are confirmed as sound, and of these only seven have decent centering. A significant portion of the population — 28 — have not been examined in many years so their condition is not confirmed. Very few of these have decent centering, so the population of sound and centered examples is very small indeed.

EXTREMELY FINE. APPROXIMATELY 42 EXAMPLES OF THE 90-CENT 1880 AMERICAN BANK NOTE COMPANY SPECIAL PRINTING ARE KNOWN TO EXIST AND THIS STAMP IS ONE OF THE FINEST EXTANT.

Our census of Scott 202 contains 42 examples, including one in the Miller collection owned by The New York Public Library, leaving 41 available to collectors. The 90c 1880 Special Printing on soft paper is notorious for its condition. Thins or more serious faults affect about half of the known examples. Most of the sound examples are centered to the right. In this stamp we have the rare combination of soundness, margins and centering, as well as extraordinary freshness.

This elusive Special Printing was the subject of an informative article by William E. Mooz in the *Chronicle*, February 1992. His research provides strong evidence that the stamps recognized as Scott 205C are a small part of the 2,463 sold as Special Printings through the Third Assistant Postmaster General's office, and that regular issues were used to fill the backlog of orders for the 5c Garfield.

Our census of Scott 205C, available at https://siegelauctions.com/census/us/scott/205C, contains 22 examples. Only three have faults. Several are centered to one side.

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 1894 \$5.00 UNWATER-MARKED BUREAU ISSUE.

The 1894 Unwatermarked issue was the first U.S. postage issue to be printed by the Bureau of Engraving & Printing, after the contract with American Bank Note Co. expired. The first stamps printed by the Bureau are notoriously difficult to find well-centered, as production was marred by initial problems as they geared up to meet the needs of the public for stamps. The designs through the \$1.00 were kept the same from the 1890 ABN Co. issue, with the addition of corner triangles to distinguish the printings. The use of the same designs is another indication of the time pressure that may have caused some of the initial production problems. Perhaps the two most difficult denominations to find in superb condition are the \$1.00 Type II (Scott 261A), and the \$5.00.

EXTREMELY FINE. A BEAUTIFUL PAIR OF THE RARE 5-CENT VERTICAL COIL, SCOTT 317-AT VF-XF 85, THIS IS THE HIGHEST GRADE AWARDED BY P.S.E. TO THIS COIL RARITY.

According to Johl, these first government coils were an experiment, and collectors and dealers were generally unaware of their existence. Regular sheets of 400 were printed and then perforated in only one direction. They were then cut into strips of 20. The strips were then hand pasted together to form rolls. As such, they are almost always strongly centered to one side. The futility of attempts to find sound and centered examples has resulted in very few even being considered for grading. The P.S.E. Population Report bears this out, especially for pairs. This is the highest graded pair or guide line pair in the P.S.E. Population Report.

FINE-VERY FINE. AN ATTRACTIVE AND SCARCE PAIR OF THE 1909 10-CENT HORIZONTAL COIL, SCOTT 356.

According to Johl (Volume 1, page 181), only 10,000 of the 10c Washington coil stamp were issued. They were made especially for a New York firm to send out advertising samples, similar to the 3c Orangeburg coil. Only a few rolls were sold to the firm, and the remaining rolls were distributed to some of the large post offices across the country. Dealers acquired several rolls, but because most contemporary collectors did not collect coils, many were used and destroyed.

EXTREMELY FINE GEM. A GORGEOUS MINT NEVER-HINGED EXAMPLE OF THE 1915 2-CENT TYPE I VERTICAL COIL, SCOTT 449, GRADED XF-SUPERB 95 BY P.S.E. — THE HIGHEST AWARDED.

The 2c Type I rotary plate was used very briefly to make vertical coils issued in late 1915. It was briefly used because the Type I plate was not very deeply engraved and the curvature of the rotary press yielded impressions lacking in some of the details. The Bureau noticed this immediately, and quickly replaced it with the Type III plate.

With 2012 P.S.E. certificate (XF-Superb 95; SMQ \$13,500.00). This is the highest grade awarded for any unused Scott 449 and it is shared by only one other. The highest Mint N.H. grade for a pair or joint line pair is 90.................................. 5,500.00

According to Johl, a small number of stamps were printed in this distinctive shade early in the issue of the 1917 \$1.00 stamp. During the course of the six years that the stamp was issued, all other printings were made in the normal shade. Centered examples such as the stamp offered here are true condition rarities.

VERY FINE. A HIGHLY DESRIABLE AND RARE MINT NEVER-HINGED EXAMPLE OF THE 1919 2-CENT TYPE II ROTARY PRESS WASTE ISSUE, SCOTT 539.

At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was left over that was too short for rolling into 500-stamp rolls. In 1919, the Bureau devised a plan to salvage this waste by converting the stamps from coil stamps into sheet stamps. This was accomplished by cutting the sheets into panes and putting the panes through the flat-plate perforator in use at the time, giving the stamps perforations on all sides.

Since Scott 539 was put through two different perforating machines of differing gauges at different times, most of the stamps are off-center. Evidence of the rarity of Mint N.H. centered examples can be seen in the tiny graded populations — the P.F. has graded one example at 85 and P.S.E. has graded one at 80, with none higher.

2339 ★ 1c Green, Perf 10, Horizontal Pair, Imperforate Between (543a). Original gum, lightly hinged, radiant color, choice centering with wide and balanced margins

EXTREMELY FINE. A RARE AND DESIRABLE EXAMPLE OF THE ONE-CENT PERF 10 ROTARY ISSUE IMPERFORATE-BETWEEN VARIETY, SCOTT 543a.

This is one of the rarest of the imperforate-between errors. We have offered only four other pairs since keeping computerized records (two are in a block). We have not encountered another since we last offered this pair in our 2013 Rarities sale.

EXTREMELY FINE GEM. A VERY RARE CENTERED EXAMPLE OF THE 20-CENT 1922 ISSUE IMPERFORATE VERTICALLY.

According to Gary Griffith, a complete pane of 100 was found in Pasadena Cal. in 1929, which was divided between two collectors. This would make 50 pairs total. At least one of the panes was broken into pairs and blocks. A review using Power Search demonstrates the rarity of this pair with such choice centering. Every other example we have offered since 1993 and in our Rarities sales since 1964 has only Fine or Very Fine centering.

VERY FINE EXAMPLE OF THE RARE ONE-CENT POSTAGE DUE SPECIAL PRINTING.

The 1c, 2c and 3c are undoubtedly the rarest values of the American Bank Note Co. Postage Due Special Printings, although the sold quantities in the official records are relatively high. William E. Mooz, in an article on the 1c appearing in *Chronicle* No. 170, May 1996, offers evidence to support his theory that the actual number of true Special Printings sold was significantly lower than the reported figures. For the 1c, Mooz estimates 500 sold, but it is possible that as many as 400 purchased by G. B. Calman were destroyed. It is widely accepted that nearly 9,000 1c stamps sold as Special Printings were actually regular issues.

EXTREMELY FINE EXAMPLE OF THE RARE 1879 2-CENT POSTAGE DUE SPECIAL PRINTING.

The reported sale figures for the rare 1c, 2c and 3c Postage Due Special Printings probably include orders filled with regular stamps, as all three are far rarer than the reported sales numbers would suggest. This is rarely offered in sound, centered condition.

EXTREMELY FINE. THE 3-CENT IS THE RAREST OF THE 1879 POSTAGE DUE SPECIAL PRINTINGS.

Although 436 copies were reported sold, it is believed that 100 copies were destroyed in the Calman lot. A thorough search of the marketplace, combined with conversations with dealers and collectors, has confirmed the extreme rarity of this stamp in sound centered condition. This example is one of the finest known.

EXTREMELY FINE GEM. UNDOUBTEDLY ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE \$10.00 STATE DEPARTMENT ISSUE IN EXISTENCE.

The large format State Department dollar values are notorious for poor centering. Even well-centered stamps have slightly skewed vertical perforations which angle in toward the design at one spot or another. This stamp is perfectly "boxed" at all corners. We really see nothing to have justified anything less than a 95 grade, but we defer to the P.S.E. In any case, the other three OG stamps in the P.S.E. Population Report are graded 50, 75 and 80.

Only 539 copies of the 7c War Special Printing were sold, but it is not known how the stamps were taken from the sheets or if full sheets were exhausted before breaking a subsequent sheet. If full sheets were used, then only seven errors were sold. We record only three examples, and that is the number listed on the P.F. website as well. The other two we record are ex Mooz (slight fading and a nibbed perf, Sale 1274, lot 824) and ex Inman (perfs in, crease and small ink stain, Sale 1135, lot 700).
